Talked to Herb Kamsey

Mr Kamsey claims all the land was irrigated within the terms or a little since then. He claimed they used it as a suppl'l source for the wheat. Mr Kamsey most of the equipment is now in the valley. He does not know they will ever irrigate it all again. ~~It is~~

confid. It sounds like maybe alot of the land has not been irrigated for a while. But what can you say.

Dear Mr. & Mrs. Scharf,

We still need to know the status of permit G-6710 which you indicated earlier that you did not complete it prior to October 1, 1978. Since you have not responded, we are assuming that you do need an extension on this permit, therefore, we are enclosing an extension form for your use.

The Water Resources Director is permitted by law to extend the time for completion of a project only upon a showing of reasonable diligence by the permittee. Therefore, you should fill out this application carefully and completely describing what has been accomplished.

The application must be submitted to this office with the statutory filing fee in the amount of \$10.00.

Sincerely,

Dear Mr. Scharf,

We received your application for an extension of the time limit complete construction. This extension is apparently for the reservoir and secondary filings. I am returning the application for correction of the permit numbers. The statutory recording fee is \$10.00 for each permit, so an additional \$10.00 is required.

We still need to know the status of your ground water permit G-6710. Completion of construction was to have been made on or before October 1, 1978. If this permit requires an extension also, we will send you the form upon request.

Further action will be held on these files pending your reply.
