INTEROFFICE MEMO

May 11, 1994

TO: WATER RIGHT EXAMINERS

FROM: DON KNAUER

SUBJECT: PRE-1909 VESTED WATER RIGHT CLAIM MAPS

Alright you guys, this is a test, DO YOU KNOW WHAT TIME IT IS? The answer is, it's time to get the maps, reports, answers, mylars and all that kind of stuff back to the Water Resources Department. There's talk around the office of putting together a "map-patrol" with a tough leader to travel around and retrieve the required documents.

You may remember, I reviewed maps for compliance with Oregon Revised Statutes and Oregon Administrative Rules submitted to support pre-1909 vested water right claims. For the past few months and up to a year ago I have returned maps, requested mylars, asked for clarification, and asked for reports. Some of these files are getting stale.

It is very important that you give me something, preferably the map, mylar, report, etc. but at minimum you must give me a submittal date. The review of the files cannot be completed without the map, report, etc. It is a deterrent to the claimant, your client, for this issue to go unresolved.

If you need copies of anything in the files, just let me know. I have hand written below the file numbers of those I returned to you. The toll free number is 1-800-624-3199.

RE: File# SWR-94

DEAR CARL E. SUNDET,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for Charles H. Whithers. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

conveyance	ORS 539.120 "...the location of and each ditch, canal, pipeline or other means of conveying the water..." <u>FOR DOMESTIC & STOCKWATER</u>
place of use (1/4 1/4)	ORS 539.240 (2) (d) (B) "The location of place of use by quarter-quarter section..." <u>FOR STOCKWATER</u>
diversion point size	OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems."

I am enclosing a copy of the checklist and claim to beneficial use report information used by the adjudication section. You may find it useful in preparing the required map and information. Many Certified Water Right Examiners have seen these and are using them.

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,

A handwritten signature in black ink, appearing to read "Don Knauer", with a long, sweeping horizontal line extending to the right.

RE: Surface Water Registration Statement

Dear Mr. Withers,

This will acknowledge that your Surface Water Registration Statement in the name of Charles H. Withers has been received by our office. The fees in the amount of \$ 646.00 have been received and our receipt # 94058 was given to you. Your registration statement has been numbered SWR-94.

Our office will review your form and map in the near future. If necessary we will schedule a meeting with you that will include a site inspection. If there are problems with your form we are usually able to take care of them during our visit. We will be able to answer any questions you might have about the adjudication process at that time.

Please feel free to contact this office if you have any questions.

Sincerely,

Don Knauer
Adjudication Specialist

Whomever it may concern;

My name is John V. Withers. I was born on the Withers Ranch on June 18, 1909 in the same house that my father was born in and near the property that my great-grandfather homesteaded in 1871. My first 7 years of school were in a schoolhouse located on the ranch.

At an early age I was involved in the usual ranch activities such as irrigating, haying, tending cattle, etc. I had knowledge of the flour mill that our family owned and operated on Hampton Creek for many years and at one time furnished the town of Paisley its first electricity from a hydro plant that powered the mill.

I was involved in irrigating and putting up hay on what was known as "the Jack Hampton Place" on Hampton Creek and personally knew this man for many years.

Through my father and my grandfather I had knowledge that the water from Hampton Creek had always been applied to the property known as "the Jack Hampton Place".

John V. Withers
