RE: File# SWR-97

DEAR MAURICE E. FARR,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for Ron Knowles. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

- |                      |   |
|----------------------|---|
| conveyance           | ORS 539.120 "...the location of .... and each ditch, canal, pipeline or other means of conveying the water..."    |
| CWRE requirement     | ORS 539.240 (2) (d) "A map from a survey prepared by a water right examiner..." <u>NEED YOUR STAMP ON THE MAP</u> |
| date of survey       | OAR 690-28-025-(4)-(a) "The date the survey was performed."   |
| diversion point size | OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems."                           |

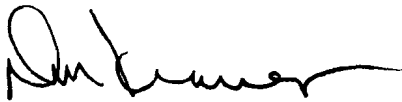

Stockwater is part of the claim to a pre-1909 vested water right. You must show on the map (and maybe a report) the required information detailing the stockwater use.

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

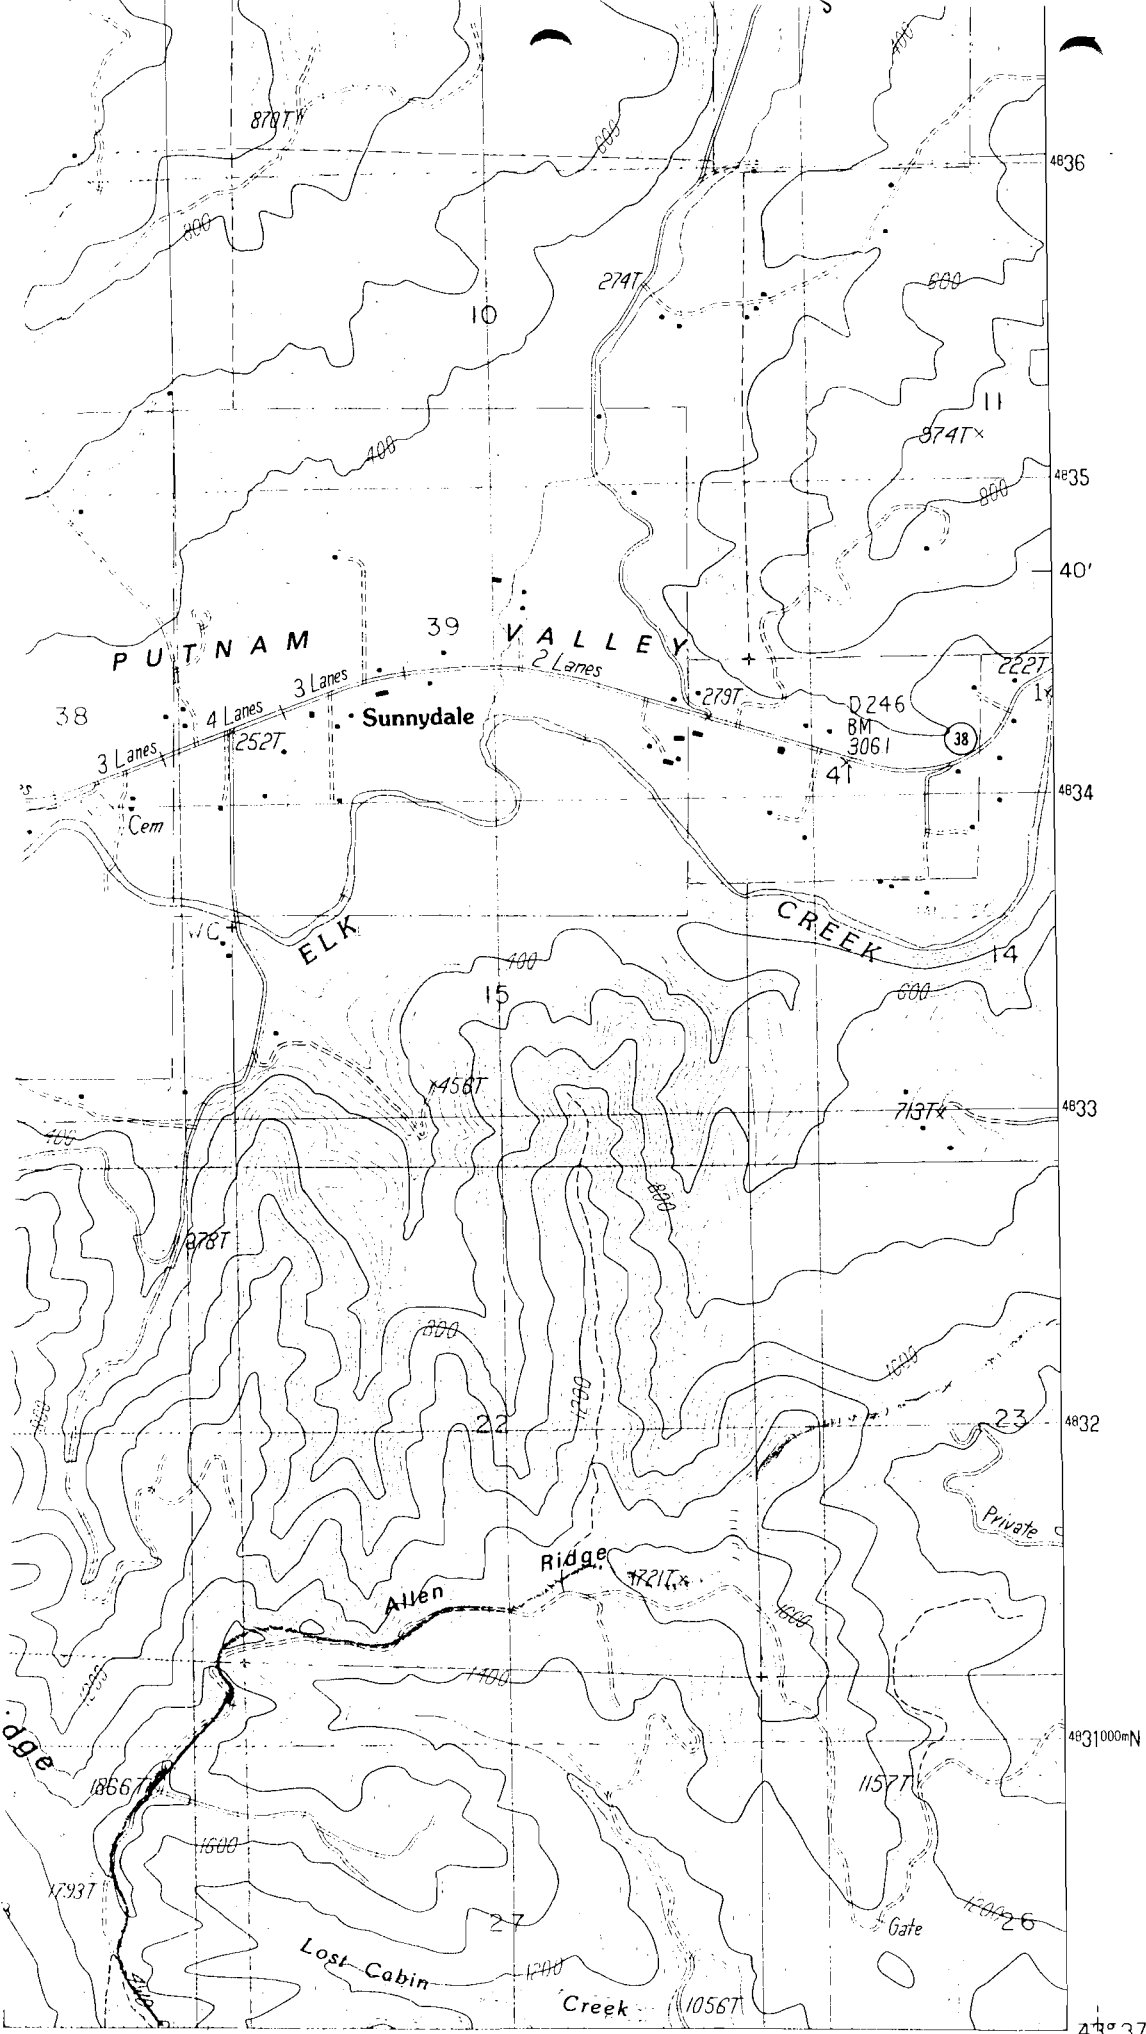

Sincerely,

A handwritten signature in black ink, appearing to read "Don Knauer", with a long, sweeping horizontal stroke at the end.

RE: Pre-1909 Vested Water Right Claim  
Section 14, Twn. 22S, Range 6W: Douglas County

This property was part of the original Henry Christian  
Donation Land Claim #41 of Douglas County.

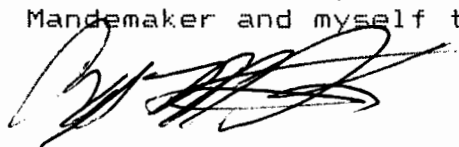

I have enclosed a copy of the deed witnessed by Dan B.  
Christian to Issac M. Gardner dated April 10, 1860.

Also a list of the property transactions from 1860 to the  
present with the Douglas County book and page numbers.

Elk Creek runs through the middle of this property.  
According to historical accounts the water from the creek was  
used to irrigate some fruit trees on the property and for  
some grain crops.

Eldon Letsom, whose family has owned property next to this  
since the 1800's stated that an orchard was present along  
with a drying shed in the very early 1900's.

Jean Thiel of Cottage Grove stated that the Bakers who owned  
the property in the 1920's to the early 1940's also used  
water for grains. In the late 1940's to the present time,  
water was used by Fred Nute, Max Dodd, Robert Luther, Robert  
Mandemaker and myself to irrigate pasture for cattle.
