TO: WATER RIGHT EXAMINERS

FROM: DON KNAUER

SUBJECT: PRE-1909 VESTED WATER RIGHT CLAIM MAPS

Alright you guys, this is a test, DO YOU KNOW WHAT TIME IT IS? The answer is, it's time to get the maps, reports, answers, mylars and all that kind of stuff back to the Water Resources Department. There's talk around the office of putting together a "map-patrol" with a tough leader to travel around and retrieve the required documents.

You may remember, I reviewed maps for compliance with Oregon Revised Statutes and Oregon Administrative Rules submitted to support pre-1909 vested water right claims. For the past few months and up to a year ago I have returned maps, requested mylars, asked for clarification, and asked for reports. Some of these files are getting stale.

It is very important that you give me something, preferably the map, mylar, report, etc. but at minimum you must give me a submittal date. The review of the files cannot be completed without the map, report, etc. It is a deterrent to the claimant, your client, for this issue to go unresolved.

If you need copies of anything in the files, just let me know. I have hand written below the file numbers of those I returned to you. The toll free number is 1-800-624-3199.

Dear Mr Findorff,

This will acknowledge your request for additional time in which to prepare and submit the required map in support of the claims to pre-1909 vested water rights in the names of HICKETHIER and ROCKWELL. You had asked for an additional 30 days which will be acceptable. I will look for the maps near the first part of October 1993.

RE: File# SWR-119

DEAR ROBERT E. FINDORFF,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the two maps you prepared for Larry & Carolyn Rockwell. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

conveyance	ORS 539.120 "...the location of .... and each ditch, canal, pipeline or other means of conveying the water..."
date of survey	OAR 690-28-025-(4)-(a) "The date the survey was performed."
diversion point size	OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems."
$\frac{1}{10}$ acre	OAR 690-28-025-(4)-(d) "The number of acres irrigated in each quarter quarter shall be shown to the nearest tenth of an acre."

It would be helpful if you identified by name the source of water on the map. Under OAR 690-14-170-4 you might want to add a "disclaimer".

3850 Portland Rd NE  
Salem, OR 97310  
(503) 378-3739  
FAX (503) 378-8130

I am enclosing a copy of the checklist and claim to beneficial use report information used by the adjudication section. You may find it useful in preparing the required map and information. Many Certified Water Right Examiners have seen these and are using them.

There is need for only one map to support the pre-1909 vested water right claim. You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,

A handwritten signature in black ink, appearing to read "Don Knauer", with a long horizontal flourish extending to the right.

RE: Surface Water Registration Statement

Dear Mr. & Mrs. Rockwell,

This will acknowledge that your Surface Water Registration Statement in the name of Larry & Carolyn Rockwell has been received by our office. The fees in the amount of \$54 have been received and our receipt #95140 is enclosed. Your registration statement has been numbered SWR-119.

The map you submitted with your claim is not acceptable. ORS 539.240 (2) (d) requires the map be prepared by a Certified Water Right Examiner (CWRE). We will wait a reasonable period of time for your map. We will be in touch with you periodically. You should keep us informed of any developments concerning the survey and mapping.

If necessary we will schedule a meeting with you that will include a site inspection. If there are problems with your form we are usually able to take care of them during our visit. We will be able to answer any questions you might have about the adjudication process at that time.

Please feel free to contact this office if you have any questions.

Sincerely,

Dwight French

RE: Rockwell - Water Rights

Dear Marge:

Enclosed is the information requested for the Rockwell water rights. Normally there is some kind of form to fill out for a submittal. You had better check with the Water Resources to see if this has been forwarded to Rockwells and if so what kind of form do they want. This is not an ordinary situation of requiring a proof map of an existing right. Please advise if you need further assistance.

Very truly yours,
