Mr. Scott Sasser,

Fossil, Oregon.

Dear Sir:

Referring again to my letter to you of October 11th in regard to fees to the amount of \$1.50 for furnishing you certified copy of application No. 3497, permit No. 1921, in the name of Maggie Pentecost, for making proof on desert land entry. There appears to be a misunderstanding in regard to this matter as I have again examined the records and find that a certified copy of the above permit together with a laches certificate was forwarded you on May 27, 1914, in response to your letter of May 23, 1914. The letter of W. F. Kern, Secretary of the State Water Board, refers to an entirely different permit and the records show that the balance of the money you transmitted to the Water Board was returned to you.

I trust that if we are in error in this matter you will set us right. I am enclosing the letters you transmitted to this office.

Very respectfully,

John H. Lewis,

Dear Sir,-

Acknowledgement is made of the receipt of check for \$2.50, transmitted by your letter of the 17th inst. I enclose assignment of Permit No. 247, which has been recorded in the office of the State Engineer. The fee for recording this assignment is \$1.00, and since no water right certificate will be issued to Maggie Pentecost at this time, I return \$1.50 herewith. You will understand that water right certificates are not issued until water has been completely applied to beneficial use, and as only notice of beginning of work under this permit has been filed, ^{limit set} and the time/for completion of the same, and use of water, will not expire for several years, it would not appear that certificate could be issued. In due course the holder of this permit will receive the proper blanks and instructions, for submitting final proof of appropriation, and certificate will be issued thereafter. The fee is \$1.00, instead of \$1.50, and is sent with the proof.
