Dear Sir:

I am returning the proof of appropriation of water under Permit No. 8003 which appears to be in satisfactory form except that you do not state by what authority you signed for the permittee. I think it will be satisfactory if you will merely make a statement on the proof blank giving the authority for your acting in behalf of the permittees.

As soon as the proof blank is returned, the matter of issuing a water right certificate will be taken up. There is a fee of \$1.00 charged for recording the water right certificate on the county records. This should accompany the proof when it is returned.

Dear Sir:

Your letter dated February 9, written on behalf of the holders of permit No. 8003 indicates that the appropriation of water under this permit was completed before the application was filed. It seems apparent, therefore, that you are entitled to make final proof and have this right confirmed by issuance of a water right certificate.

The proof blank which you will find inclosed, is made out in the names of the permittees. It should be filled out completely so as to give a description of the appropriation and the affidavits of appropriator and witnesses executed before a notary public.

If you sign the affidavit of appropriator for the permittees, the affidavit should show your authority for such signature either by stating that you are their guardian, if such is the case, or any other authority you may have .

Very truly yours
