Dear Mr. Van Valkenburgh:

According to the terms of your Application No. 22719 ,
Permit No. 17853 , which is for the appropriation of 0.34 second-
feet of water from Madam Creek,
complete application of water was to have been made on or before
October 1, 1950 . It appears from our records that you have failed
to submit the notice of complete application, although a post-
card, calling this matter to your attention, was mailed to you on
October 6, 1950.

Section 116-435, O. C. L. A., provides: "whenever the
time within which any appropriation under a permit should have been
perfected shall have expired and the owner of such permit shall fail
or refuse within the period of three months thereafter to submit to
the State Engineer proof of the completion of such appropriation as
required by Section 116-426, O. C. L. A., the State Engineer may,
after 60 days' notice by registered mail, order the cancellation of
such permit, ***."

If you have complied with the terms of this permit, you
should promptly submit the notice of complete application of water
after which we will take up with you the matter of final proof.
If, however, you have abandoned your plan of development, we would
appreciate your authority to cancel the permit, so that the permit
may be cancelled without the necessity for following the legal
procedure. In case you have not completed your appropriation,
although you still wish to do so, you may submit an application for
an extension of time. Such an extension may be granted if it appears
that proper diligence has been shown.

Complete application of water under an irrigation permit
means the irrigation of ALL of the land described in the permit,
which it is intended to irrigate.

In accordance with the provisions of Section 116-435,
Oregon Compiled Laws Annotated, a part of which is quoted above, you
are hereby notified that unless we hear from you within 60 days from
the date of this letter, your permit will be cancelled without further
notice.
