Certificate of Water Right Ownership Update

NOTICE TO SELLERS & BUYERS:

By law, all water belongs to the public (ORS 537.110). In almost every instance, a permit or water right certificate from the Water Resources Department is needed before using, diverting or storing water (ORS 537.130). However, most domestic wells do not require water rights. A certificate of water right stays with the land. In order to keep track of water right ownership, the Department requests that this form be submitted to the Department. *If for multiple rights, a separate form for each right will be required.*

Water that has been used for a long time in one place or that involves a water structure (like a dam) that already exists is no guarantee that there is a water right which would allow the water use to continue.

If you have any questions about this form or water right requirements, please contact your local watermaster or call the Water Resources Department at 503-986-0900.

Note: Please type or print legibly when filling in the following information. Use additional paper if necessary.

STATE OF OREGON
COUNTY OF MALHEUR

CERTIFICATE OF WATER RIGHT

This Is to Certify, That: PIERRE NOUQUE

of Box 17, McDermitt, State of Nevada, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of St. Martin Cr., & Corral Cr., being 3.0 c.f.s. from St. Martin & 2.0 from Corral Cr. a tributary of Quinn River for the purpose of Irrigation and Domestic under Permit No. 13416 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from May 6, 1938;

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 5.0 cubic feet per second, being 4.99 c.f.s. for irrigation and 0.01 c.f.s. for domestic

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the Lot 4 (SW $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 6 and NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 18, Township 41 South, Range 44 East, W. M.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-sixtieth of one cubic foot per second per acre, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 4 acre feet per acre for each acre irrigated during the irrigation season of each year, and shall be still further limited to a total diversion of not to exceed 5.0 cubic feet per second,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer. A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

6.4 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$
0.2 acre in the SE $\frac{1}{4}$ NW $\frac{1}{4}$
38.1 acres in the NW $\frac{1}{4}$ SW $\frac{1}{4}$
4.4 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$
37.4 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$
2.0 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$
Section 14
29.2 acres in the SE $\frac{1}{4}$ SE $\frac{1}{4}$
9.8 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$
Section 15
44.9 acres in Lot 1
44.1 acres in Lot 2
Section 22
27.5 acres and domestic in Lot 4
Section 23
Township 41 South, Range 43 East, W. M.

Total in Oregon.....244.0 acres

43.0 acres in Lot 1
6.0 acres in Lot 2
Section 35
40.8 acres in Lot 4
4.2 acres in Lot 3

*APPLICATION FOR A PERMIT

To Appropriate the Public Waters of the State of Oregon

I, Pierre Nouque (Name of applicant)
 of McDermitt (Post office), County of Malheur Co.,
 State of Oregon, do hereby make application for a permit to appropriate the
 following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Saint Martin Creek-Coral Creek
 (Name of stream), a tributary of

2. The amount of water which the applicant intends to apply to beneficial use is 600 inches St.
Martin and 500 inches Coral Creek.
 cubic feet per second. (If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Irrigation and Domestic
 (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 300 ft. S and 500 ft. E from the
 (N. or S.) (E. or W.)
 corner of Sec. 18 Range 44 Tp. 41
 (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)
 being within the of Sec. 1, Tp. 41
 (Give smallest legal subdivision) (N. or S.)

R. 38, W. M., in the county of Humboldt Co. - Nevada
 (E. or W.)

5. The Ditch (Main ditch, canal or pipe line) to be 3 Miles
 (Miles or feet)
 in length, terminating in the State of Oregon of Sec. 14, Tp. 41
 (Smallest legal subdivision) (N. or S.)
 R. 43, W. M., the proposed location being shown throughout on the accompanying map.
 (E. or W.)

DESCRIPTION OF WORKS

DIVERSION WORKS—

6. (a) Height of dam 2 ft. feet, length on top 10 ft. feet, length at bottom
10 ft. feet; material to be used and character of construction rock and manure
 over dam (Loose rock, concrete, masonry,
 rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate none
 (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description no
 (Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

* A different form of application is provided where storage works are contemplated.

** Applications for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft.
from intake in.; size at place of use in.; difference in elevation between
intake and place of use, ft. Is grade uniform? Estimated capacity,
..... sec. ft.

[illegible]

(a) Character of soil Meadow land

(b) Kind of crops raised Wild Hay

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.
(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in _____ of Sec. _____
(Legal subdivision)

Tr. _____, *R.* _____, *W. M.* _____
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., *Sec.*....., *Tr.*....., *R.*....., *W. M.*
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) *The nature of the mines to be served*

MUNICIPAL OR DOMESTIC SUPPLY—

10. (a) To supply the city of

..... County, having a present population of
(Name of)

and an estimated populatoin of in 193.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$.....

12. Construction work will begin on or before

13. Construction work will be completed on or before

14. The water will be completely applied to the proposed use on or before

+ Pierre Vanquie

JAN 26 1939

STATE ENGINEER
SALEM, OREGON

Enclosed will find \$5.50, for Blue
print & domestic use for water from
St. Martin Creek & Corral Creek. Which
you is the balance.

Very truly yours.

Pierre Voliqué

Mr. Dermitt, Nevada

Box 17

17318

January 18, 1939

Mr. Pierre Nouque
McDermitt, Nevada

Dear Sir:

On rechecking your Application No. 17318 covering a permit to use water from St. Martin Creek and Corral Creek for irrigation and domestic purposes, it is noted that no fee was charged for the blue print or for the domestic use.

The fees covering this appropriation are as follows and as listed in the enclosed copy of the Rules and Regulations of the State Engineer:

Examination	\$5.00
Recording for irrigation:	
100 acres at 15 cents	15.00
252 acres at 5 cents	12.60
Recording for domestic	5.00
Blue print	.50
	\$38.10
Paid	32.60
Balance	\$ 5.50

If you will mail this balance due in the amount of \$5.50, the matter of approval of your application by issuance of a permit will be given attention and the permit will be mailed to you when issued.

Very truly yours,

CHAS. E. STRICKLIN
State Engineer

Mr. Pierre Nouque,
McDermitt, Nevada.

Dear Sir:

Your Application No. 17318 for a permit to appropriate water was returned to you for correction and completion on May 9 endorsed so that in order to retain its priority it should have been returned to this office on or before June 9.

Since we have not heard from you relative to this application it is possible that you have reconsidered the matter of the appropriation and do not wish to complete the application. If this is true, your advise to this effect and your authorization to cancel your application will be greatly appreciated.

Yours very truly,

CHAS. E. STRICKLIN,
State Engineer.

EKH:LN

July 14, 1938.

Mr. Pierre Nouque,
McDermitt, Nevada.

Dear Sir:

Your Application No. 17318 for a permit to appropriate water for irrigation purposes was returned to you on May 9 for correction and completion, endorsed so that in order to retain its priority it should have been returned to this office within thirty days or on or before June 9.

At this date it has not been received and has therefore lost its priority. However, it may be reinstated and given a new date of priority if you will mail it to this office at this time.

Very truly yours,

CHAS. E. STRICKLIN,
State Engineer.

EKH:BB
cc to Mr. Murray Morton.

June 9, 1938.

Mr. Pierre Nouque,
McDermitt, Nevada.

Dear Sir:

This will acknowledge receipt of a letter from Mr. Murray Morton, Assessor, requesting an extension of time in which to submit your corrected and completed Application No. 17318 for a permit to appropriate water from Saint Martin Creek and Coral Creek for irrigation and domestic use.

Inasmuch as the application was endorsed so that in order to retain its priority it should be returned to this office on or before June 9, 1938, if it is received in this office after that date it will be necessary that it be given a new date of priority as of the day it is received.

The application may be returned when completed and when the necessary map has been prepared, but the date of priority as stated above will be the date on which it is again received in this office if this date is subsequent to June 9.

Very truly yours,

CHAS. E. STRICKLIN,
State Engineer.

Pierre Nouque.

Dear Sir :

Mr Nouque wishes to have your
Office grant him an extension of time on your letter
of May 9 regarding his application for a water
right as he has to have our Oregon Engineer go down
and do this checking up for as per your instructions.
And you can not get him just when wanted to go down.

Yours very truly,

Murray Morton, Assessor

May 26, 1938.

Mr. F. R. O'Leary,
Court House,
Winnemucca, Nevada.

Dear Sir:

This is in reply to your letter of May 19 relative to the preparation of a map to accompany an application in the name of Pierre Nouque.

Inasmuch as most or all of the land to be irrigated involved in Mr. Nouque's proposed appropriation lies in the state of Nevada, I believe that there can be no objections to preparation of the necessary map by an engineer licensed to practice in the state of Nevada.

The map in question should be prepared on a scale of four inches to the mile or larger, but considering the fact that the sections in the vicinity to be mapped are apparently not typical as to size, I believe it would be much better to discard the four-section plats which were mailed to Mr. Nouque and to draw the map on either tracing cloth or tracing paper whichever is most convenient.

Since the application submitted by Mr. Nouque was rather confusing as to description under a number of the items, I am enclosing herewith a new application blank with the thought that you may wish to assist the applicant in preparing the application with a view to making the same a little more concise and clear. This new application would carry the same priority date as the one filed by Mr. Nouque, providing it is returned to this office on or before June 9, 1938.

Yours very truly,

CHAS. E. STRICKLIN,
State Engineer.

COUNTY SURVEYOR
STATE WATER RIGHT SURVEYOR

F. R. O'Leary, C. E.

Court House

Winnemucca, Nevada

May 19, 1938

Hon. Chas. E. Stricklin
State Engineer,
Salem, Oregon

RECEIVED
MAY 23 1938
STATE ENGINEER
SALEM, OREGON

Dear Sir-

Have been called upon by Mr. Pierre Nouque of McDermitt, Nevada, to survey out the boundaries of his Nevada lands adjacent to the U. S. Hay Reservation. He informs me that he has applied to your office for a permit to appropriation waters of the state of Oregon for the purpose of irrigating certain of his lands there and that your office has furnished him with blank township plats with instructions to show ties of diversion points to government corners, etc. and has asked me, while making the above mentioned survey, to make the survey your office requested.

I have informed Mr. Nouque that, in my opinion, such survey must be made by an engineer registered in the state of Oregon. If, however, such is not required in this case will be glad to make survey of his cultivated area, ties to points of diversion, etc., and furnish map of same. Mr. Nouque states that no mention was made in your letter that data requested be furnished by an ^{such} engineer. If so I could make up the necessary map for him without the usual oath and signature.

Yours resp.

F. R. O'Leary
F. R. O'Leary

P. S. Am licensed professional engineer and licensed state water right surveyor of the state of Nevada.

F.R.O.

May 9, 1938.

Mr. Pierre Nouque,
McDermitt, Nevada.

Dear Sir:

This will acknowledge receipt of your letter of May 2, enclosing your application for a permit to appropriate water from Saint Martin Creek and Coral Creek for irrigation and domestic use, together with your remittance of \$5.00 as fees. Receipt No. 22921 is enclosed.

The application, which has been filed and given No. 17318, has been checked over and several discrepancies are noted. The amount of water applied for under Item 2 is an excessive quantity for the irrigation of 160 acres, the usual amount allowed for this acreage being 2.0 second-feet or 80 Oregon miner's inches.

From the map accompanying your application it appears that two or three diversion points are involved, and if this is the case, each one of these should be described with reference to a section corner under Item 4. The corner of the section used as a reference point and the meridian from which the range is numbered should also appear in the description.

Under Item 7 the main ditches used in the appropriation should be described as to cross-sectional size and gradient.

Under Item 8 you have listed several hundred acres to be irrigated, while from a statement in your letter it appears that only 160 acres are to be irrigated. This discrepancy should be corrected.

For your convenience in correcting and completing the application, I am enclosing the same herewith endorsed so

Mr. Pierre Nouque - 2.

May 9, 1938.

that in order to retain its priority it must be returned to this office within thirty days, or on or before June 9, 1938.

The map accompanying your application should be in the form of a tracing from which blue prints can be made, as instructed on the enclosed copy of the rules and regulations of the State Engineer. It should be so prepared that section lines can be distinguished from forty lines and so that sections can be identified as to number.

Upon receipt of the corrected and completed application and a suitable map, together with the balance due in fees in the amount of \$18.10, assuming the acreage to be irrigated as 160, the matter of approval of the application by issuance of a permit will be given consideration.

Very truly yours,

CHAS. E. STRICKLIN,
State Engineer.
