*Aug 25, 2003*

Mr. Brad Mitchell  
P.O. Box 323  
Eagle Point, OR 97524

Dear Mr. Mitchell and any other interested

Based on an earlier examination of your pond/reservoir and our conversation on August 25, 2003, repair of the dam is allowed.

*mm  
2.8*

The dam repair can not change the configuration or dimension of the pond nor enlarged it beyond the 0.7 acre foot size granted under House Bill 2158 and recorded under File Number P-79080. During our conversation on Monday, we talked with Anita Huffman, Water Rights Division, Oregon Water Resources Department. At that time she agreed that the stock water use allowed under P-79080 may be piped to stock tanks as long as the pipe does not allow sub-irrigation of the lands through which it passes.

If you have any additional concerns relative to this pond/reservoir, please give me a call.

Sincerely,

Larry Menteer  
Watermaster, District 13

*8-26-03 9:30 am - Menteer spoke w/ Mitchell asking him to disregard this memo. There is confusion about the measurements of the pond and its capacity. Sept 2, 2003 Menteer and Chapman will visit the property and take measurements of the pond. Mitchell agreed.*

*9-2-03 pm - Menteer spoke with Mitchell about retraction letter dated Aug 28, 03 - Mitchell stated that he had received that letter and would ignore earlier correspondence, in fact had thrown the earlier letter away.*
