Located SW1/4SE1/4, 2.5 Ac, Section 14, T26S, R7W,WM.

On November 9, 1992, I made a survey of the above listed property and viewed the water system installed and in use. I used an assessor map and an aerial photo during the course of preparing this final proof survey and site map.

SOURCE: Water is taken from an Unnamed Stream tributary to the Umpqua River.

DIVERSION POINT: The diversion point is a natural depression in the west side of the unnamed creek.

PUMP: Berkeley centrifugal pump, Model D-7, 3/4 hp motor, 230 volts, 12 GPM discharge capacity.

PIPE: The water distribution main line is 1" PVC from the point of diversion to the lawn or garden area, the 2.0 acres of garden or grass hay crop and to the two residences for domestic. The lawn or garden is irrigated with hoses attached to standpipes and feeding garden sprinklers.

USE(S): Water is used for domestic for two families, lawn or non-commercial garden not to exceed 1/2 acre and for irrigation.

HEAD: Elevation difference between the point of diversion and the highest point on the lawn or non-commercial garden was estimated to be twenty feet.

CALCULATIONS:	Domestic two families		
	2*0.005 cfs	0.010 cfs	4.5 GPM
	1/2 ac lawn/garden	0.005 cfs	2.3 GPM
	2.0 ac @ 1/80 cfs/ac	0.025 cfs	11.2 GPM
	pump capacity	0.027 cfs	12.0 GPM

POINT OF BEGINNING: Assessor's maps and aerial photos were used to draw the accompanying map.

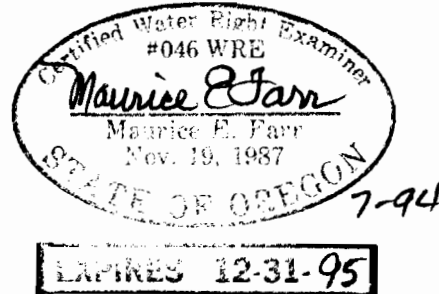

REMARKS: None.

The final proof survey and inspection of the use as found to be completed under terms and conditions of File# SWR-109 was completed by me on November 9, 1992, and the facts contained in this report and accompanying vested water right map are correct to the best of my knowledge.

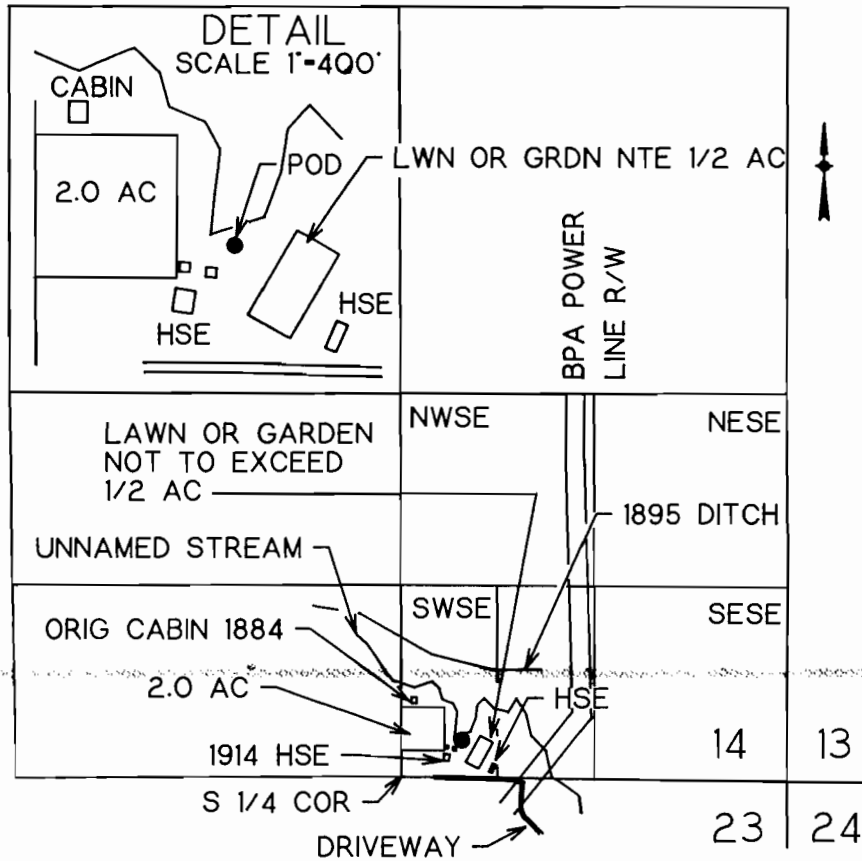

I, Curtis R Kocken, agree to the findings of the CWRE and do submit this site report and map as my Registration Statement Claim of Beneficial Use of the water provided under the terms and conditions of my File# SWR-109.

My name is Curtis Kocken. I am 54 years old and have made my living by working on this property all my life. My grandfather was G. A. Kocken and my grandmother was Anna C. Kocken. My father was their son, W. J. Kocken.

I was old enough to know my grandparents well. From stories told by my grandparents and by my father, I learned there was a ranch here with developed water systems in existence when my grandfather purchased the property in 1904.

My grandfather worked and made his living on this property from 1904 until his death in 1952. My father worked and made his living on this property from before my grandfather's death until his own death in 1991. I make my living from this property at the present time. The water use began in 1884 and has been continuously used since then.

There was a small cabin on the property which I assume was the first residence built by the Livingstons or the Marsters. This was replaced in 1914 by the house shown on the map. I found portions of newspapers pasted on boards taken from the cabin and used to construct a wood storage shed near the 1914 house. The newspapers were used for insulation. Dates on the newspapers were 1895.

This statement is made from information gathered from my grandparents and my father and represents the facts to the best of my knowledge.

TO: WATER RIGHT EXAMINERS

SUBJECT: PRE-1909 VESTED WATER RIGHT CLAIM MAPS

Alright you guys, this is a test, DO YOU KNOW WHAT TIME IT IS? The answer is, it's time to get the maps, reports, answers, mylars and all that kind of stuff back to the Water Resources Department. There's talk around the office of putting together a "map-patrol" with a tough leader to travel around and retrieve the required documents.

You may remember, I reviewed maps for compliance with Oregon Revised Statutes and Oregon Administrative Rules submitted to support pre-1909 vested water right claims. For the past few months and up to a year ago I have returned maps, requested mylars, asked for clarification, and asked for reports. Some of these files are getting stale.

It is very important that you give me something, preferably the map, mylar, report, etc. but at minimum you must give me a submittal date. The review of the files cannot be completed without the map, report, etc. It is a deterrent to the claimant, your client, for this issue to go unresolved.

If you need copies of anything in the files, just let me know. I have hand written below the file numbers of those I returned to you. The toll free number is 1-800-624-3199.

RE: File# SWR-109

DEAR MAURICE E. FARR,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for Walter J Kocken Estate. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

conveyance	ORS 539.120 "...the location of and each ditch, canal, pipeline or other means of conveying the water..."
diversion point size	OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems."
1/10 acre	OAR 690-28-025-(4)-(d) "The number of acres irrigated in each quarter quarter shall be shown to the nearest tenth of an acre."

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.
