re: SWR-163

Dear Mr Guile,

I completed the review of the map and site report received from you on Nov. 14, 1994 in support of the pre-1909 vested water right claim in the name of L.C. & JEANNE TRUDEAU. The map and report meet the requirements for filing. I have added them to the file.

Thank you for your attention to this matter. If you have any questions, please give me a call.

Sincerely,

Don Knauer
Adjudication Specialist

re: SWR-163

Dear Mr Guile,

This will acknowledge the receipt of the map and report you submitted in support of the pre-1909 vested water right claim in the name of L.C. & JEANNE TRUDEAU. Due to personnel and duty changes the information will not be reviewed at this time. I will add it to the file for future review.

If you have any questions, please give me a call. The toll free number is 1-800-624-3199.

Sincerely,

Don Knauer
Adjudication Specialist

WATER RESOURCES DEPARTMENT
INTEROFFICE MEMO

May 11, 1994

TO: WATER RIGHT EXAMINERS

FROM: DON KNAUER

SUBJECT: PRE-1909 VESTED WATER RIGHT CLAIM MAPS

Alright you guys, this is a test, DO YOU KNOW WHAT TIME IT IS? The answer is, it's time to get the maps, reports, answers, mylars and all that kind of stuff back to the Water Resources Department. There's talk around the office of putting together a "map-patrol" with a tough leader to travel around and retrieve the required documents.

You may remember, I reviewed maps for compliance with Oregon Revised Statutes and Oregon Administrative Rules submitted to support pre-1909 vested water right claims. For the past few months and up to a year ago I have returned maps, requested mylars, asked for clarification, and asked for reports. Some of these files are getting stale.

It is very important that you give me something, preferably the map, mylar, report, etc. but at minimum you must give me a submittal date. The review of the files cannot be completed without the map, report, etc. It is a detriment to the claimant, your client, for this issue to go unresolved.

If you need copies of anything in the files, just let me know. I have hand written below the file numbers of those I returned to you. The toll free number is 1-800-624-3199.

EUGENE OR 97401

Dear Mr Guile,

This will acknowledge your letter of December 14, 1993. I have thought about how I can best address your distress over the problems with the maps you prepared to support pre-1909 vested water right claims. There has been some misunderstanding with regards to the pre-1909 map requirements in the past by both claimants and Certified Water Right Examiners (CWRE). When I took this project over, I made many efforts to provide the necessary information to the folks involved. I arranged and held public meetings, mailed notices and memos, had public notices published in local newspapers, among other things.

I took a look in my files and copied two of the memos I hope will help to show my attempt to inform you of the pre-1909 vested water right mapping requirements. I have always made myself available to the CWRE,s. I do not have a record, nor do I recall, you contacting me about the pre-1909 mapping requirements.

My notes show I sent copies of my checklist, the mapping requirements and the claim of beneficial use sheet while returning the maps for SWR-139, SWR-163 and SWR-268. I am sending you another copy.

3850 Portland Rd NE
Salem, OR 97310
(503) 378-3739
FAX (503) 378-8130

On to the problem at hand. You must prepare a "final proof map and a beneficial use report" to satisfy the statutory and administrative requirements for the map to support a pre-1909 vested water right claim.

I am sending one of my cards and if there is anything you want to discuss please give me a call. The toll free number is 1-800-624-3199.

Sincerely,

A handwritten signature in black ink, appearing to read "Don Knauer", with a long horizontal flourish extending to the right.

RE: File# **SWR-163**

DEAR CHARLES GUILLE,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for L.C. Trudeau and Jeanne E. Trudeau. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

conveyance	ORS 539.120 "...the location of and each ditch, canal, pipeline or other means of conveying the water..."
place of use (¼ ¼)	ORS 539.240 (2) (d) (B) "The location of place of use by quarter-quarter section..." The claim form lists stockwater and domestic as beneficial uses but were not shown on the map. You must show all beneficial uses of surface water or explain the discrepancies.
diversion point size	OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems." Again, stockwater and domestic need to be included if there is a surface water use for them otherwise explain what is going on.

3850 Portland Rd NE
Salem, OR 97310
(503) 378-3739
FAX (503) 378-8130

paper

OAR 690-14-170-1 "...in ink on permanent-quality linen or 0.003-inch mylar..."

I am enclosing a copy of the checklist and claim to beneficial use report information used by the adjudication section. You may find it useful in preparing the required map and information. Many Certified Water Right Examiners have seen these and are using them.

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,

A handwritten signature in black ink, appearing to read "Don Knauer", with a long horizontal flourish extending to the right.

Dear MR & MRS TRUDEAU,

This will acknowledge that your Surface Water Registration Statement in the name of LC & JEANNE E TRUDEAU has been received by our office. The fees in the amount of \$430.00 have been received and our receipt #95313 is enclosed. Your registration statement has been numbered SWR-163.

Our office will review your form and map in the near future. If necessary we will schedule a meeting with you that will include a site inspection. If there are problems with your form we are usually able to take care of them during our visit. We will be able to answer any questions you might have about the adjudication process at that time.

Please feel free to contact this office if you have any questions.

Sincerely,

Don Knauer

CLAIM OF BENEFICIAL USE REPORT

SWR - 163

On November 26, 1992, my crew met with Mr. L. C. Trudeau and made the field survey of the existing place of use and tied the Point of Diversion No. 1. On October 21, 1994, I and my instrument man met with Mrs. Jeanne E. Trudeau and tied the Point of Diversion No. 2 and obtained the information for the Beneficial Use Report. The Trudeau's address of the property is 93740 Horton Road, Blachly, OR., 97412. Their phone number is 1-503-925-4137. The existing use appears to be the same as the pre-1909 use as Mrs. Trudeau showed me one of her affidavits from a neighbor.

The source of water for Diversion Point No. 1 is Lake Creek and the source of water for Diversion Point No. 2 is a shallow well.

The Diversion Point No. 1 is a 1 1/2 inch iron pipe connected to a 1 1/2 inch plastic pipe. This iron pipe is held in place in Lake Creek by two steel barrels which form a small raft and the iron pipe with a 90 degree elbow enters down into lake creek and has a screened foot valve. The plastic 1 1/2 inch plastic pipe is buried and runs to the pump at a bearing of South 18° 15' East some 178 feet. The Diversion Point No. 2 is a shallow well which has buried pipes to the three existing residences.

For the surface water from Lake Creek at Diversion Point No. 1, a 3/4 Horsepower General Electric Jet Pump motor is used, Model No. 5KC390n2001X, Serial No. TBG with a rated RPM of 3450. This motor is connected direct by a steel shaft to a Red Jacket Pump Quick Set Jet, Model No. 75RJ, Serial No. 30788. This pump has an 1 1/2 inch diameter intake with a 3/4 inch outlet to the pressure tank. At the well at Diversion Point No. 2, a buried pipe run's to a pump and then from the pump to the three residences. I forgot to obtain the information on this pump with motor on October 21, 1994. This morning I called Mrs. Trudeau and she told me that the motor was an electric 3/4 Horsepower Century Jet Pump Motor attached directly to the pump.

At this time of the year, the irrigation system was not in operation so no pressure readings were taken. A combination of 5/16th and 3/4 inch garden hoses with up to 3 sprinklers are used for the irrigation system. Up to three Nelson "Betta II" sprinklers are used having an 1/8th inch nozzle opening.

The use of the surface water from Diversion Point No. 1 is for irrigation (yards and gardens) and for domestic use after the ground water lowers so that the shallow well goes dry. The ground water from Diversion Point No. 2 is used for domestic as long as the well has water in it (The domestic use is for three residences). The livestock obtain their water from various places along Lake Creek for the entire length of the Trudeau's property. Mrs. Trudeau stated that the maximum number of livestock that they have had at any one time on the property was 17 head of beef cattle along with 43 head of sheep.

The ground elevation at the pump house for Diversion No. 1 is some 13.5 feet above the water surface of Lake Creek at the Point of Diversion on October 21, 1994. The area used for irrigation is basically flat ground.

Assuming that the pump was running at 75% efficiency with the 13.5 foot lift at 50 psi, I calculate the cfs to be 0.04.
$$\frac{7.04 \times 0.75}{13.5 + (50 \times 2.31)} = \frac{5.28}{105.9} = 0.04 \text{ cfs}$$

Using the sprinklers at 50 psi, I calculate the cfs to be 0.02.
$$\frac{3 \times 3.2}{449} = 0.02 \text{ cfs}$$

For the domestic use, I used 2.5 gpm for each residence and divided by 449 gpm which calculates the csf to be 0.02.
$$\frac{3 \times 2.5}{449} = 0.02 \text{ csf}$$

The Point of Beginnings are the Diversion Points which were tied by survey using a Total Station instrument. Bearings were based on Lane County Department of Public Works published bearings of the County Road running along the Trudeau's property. The Point of Diversion No. 1 computes to be 465 feet South and 30 feet West of the Brass Cap monument marking the Section Corner to Sections 2, 3, 10 and 11, Township 16 South, Range 7 West of the Willamette Meridian and the Point of Diversion No. 2 computes to be 642 feet South and 140 feet East of the same Section Corner.

On the front page of the application form, line 6, "Location of place of use", Mrs. Trudeau copied from her tax statement 16-07-11, not realizing that the County placed the Section Number last whereas you ask for the Section Number first. Therefore, the use of the water is in Section 11, Township 16 South, Range 7 West of the Willamette Meridian, in Lane County, Oregon.

The final proof survey and inspection of the use as found to be for SWR - 139 was completed by me on October 21, 1994 and the facts contained in this report and accompanying final proof map are correct to the best of my knowledge.

Charles W. Guile

Charles W. Guile

CWRE 166

I, Jeanne E. Trudeau agree to the findings of the CWRE and do submit this site report and map as my Claim of Beneficial Use of the water as provided for my application being SWR - 163.

RE: SWR-163

Dear Jeanne:

In regards to your Pre-1909 Vested Water Right Claim, Mr. Don Knauer of the State of Oregon Water Resources Department says that the Map I prepared for you is not right, that I should have prepared a **FINAL PROOF MAP AND A BENEFICIAL USE REPORT** for you to submit along with your claim. On May 29, 1991, Mr. Knauer did send out a memo stating this, of which I placed it in my water right's file along with numerous other mailings from the Department and forgot about receiving his memo when you contacted me to prepare the map.

I was not asked to do a map for a Pre-1909 claim until late in 1992 and early in 1993. The instructions to you that we discussed was only that a map prepared by a CWRE must be submitted along with your claim of use. The instructions to you did not specify that a final proof map and beneficial use report was require. If it had, I would have known what was needed and would have advised you differently and would have prepared the final proof map and the beneficial use report, if you still thought that you had a claim.

To prepare a Final Proof Map, I will need to survey the area of actual use and make a tie to a government corner. To prepare the Beneficial Use Report, I will need to get data from the motor, pump, sprinklers, etc., so to prepare the report. In case of springs, we will have to survey the spring and the lines to the place of use for the map.

For the maps that I prepared from records, I will have to charge for the field survey and the data collected for the beneficial use report, but will prepare the new final proof map at no charge. For the maps that I did do a field survey for, I will only charge for the time spent in gathering the data for and preparing the Beneficial Use Report.

The above four sentences are a form type letter for you and others. On December 22, 1992, the Water Resources Department received your application map and on June 29, 1993, Mr. Knauer wrote me that additional information was needed.

As we have discussed on the phone several times, I will need to come to your property and collect the data that we will need for the beneficial use report. The field survey that we did should be alright for the final proof map.

I would like to make an appointment towards the end of this month, at a time that I can visit with the owens on the same trip..

Please write or give me a call to set up a time for us to get together.

cc: Mr. Knauer

Sincerely,

Bill Guile

RE: Beneficial Use Permits and Final Proof Maps
For Adjudication

Dear Mr. Knauer:

I have misplaced your last letter but I remember by the tone of your letter it appears that I am not only the CWRE that has not responded to your request of submitting a Beneficial Use Report and a Final Proof Map for the various owners that I prepared a map for their adjudicated request's.

Again, I feel that the property owners were misled when the application only stated that a map by a CWRE was needed and did not explain to them that the above was needed.

I will begin contacting the clients that I was involved with. Some, I did not know they were applying for adjudication as they also applied for a Water Permit with the maps that I prepared. One I only revised the map as her first CWRE was sick not knowing the background. The City of Eugene had specialist Attorney's in Water Rights from Portland involved and they did not mention that the above was needed. Some I would have advised against if I knew the above was needed.

Anyway, I am now in the process of notifying my clients that additional data is needed. I cannot give you a precise time table, only that it will probably run into next year. I will concentrate first on the ones that are irrigating land. Some of them might not qualify.

I am enclosing a copy of my letter to you dated December 14, 1993 which shows the ones that I have to contact. I have already completed the field survey for the Bryan's.

Thank you.

Sincerely,

Charles W. "Bill" Guile

File # SWR-354 dated October 29, 1993 - City of Eugene	(92-89A)
File # SWR-355 dated October 29, 1993 - City of Eugene	(92-89B)

Dear Mr. Knauer:

I apologize for being so late in answering the above referred letters from you for the above referred File numbers.

When I began to receive your letters, I got so disgusted that I just threw them into a file as I could see that all would be returned. I think that all of the maps that I prepared for my clients who applied for Adjudicated Rights have now been returned. Also, I had many projects that had to be done by the end of 1993 which have now been completed. Therefore, I must take care of the above referred Files.

I guess what disturbs me the most is that I do not remember seeing anything that said the CWRE had to make a final proof map and a beneficial use report to be submitted along with my clients application for their Adjudicated Rights claims.

I have a copy of your pamphlet titled "Should I File a Pre-1909 Water Right Claim" dated April, 1990 which says that the claimant needs a map prepared by a CWRE and that the claimant needs to document their claims. I do not see where a beneficial use report from the CWRE is required.

Also, as I remember, the forms that my clients filled out with their application for their claim only said that a map by a CWRE was required. I told some of my clients who asked before they made application if they felt that they could document their proof of use, I would make the map.

RECEIVED

DEC 20 1993

WATER RESOURCES DEPT
SALEM, OREGON

Page 2

Therefore, I called my maps application maps and except for 5 of the maps, they were prepared from records and not from a field survey.

It appears that in all of the above referred File Numbers, you are asking me to prepare a Final Proof Map and a Beneficial Use Report for each. Please let me know by letter if this is what you expect for each and I will contact each client as to how I should proceed to meet your requirements as stated in your letters.

I have another client, Mr. Dale Carlson, who wants me to prepare the map for his claim. I want to do it correct the first time and I would appreciate hearing from you first. I told him I could do it in January, 1994.

Thank you for your understanding and promptness in replying.

Sincerely,

Charles W. "Bill" Guile

AFFIDAVIT

WATER AND POWER DISTRICT
SALEM, OREGON

I, Margaret I. Owens nee Wolf, make this statement regarding the water usage practices of the residents of the property known as 93740 and 93754 Horton Road, Blachly, OR 97412. Information following is based upon my personal knowledge or was told me by my parents.

I was born, as were my brothers and sisters, on the 80 acre property now known as 93740 Horton Road, Blachly. I was born on January 8, 1924. At that time there was no second house in the immediate vicinity of our farmhouse.

Our family came into the Lake Creek Valley early in this century. The facts are that my grandfather, Lucian J. Wolf, along with my grandmother, Harriet Wolf, and my father, Ervin M. Wolf, came west in 1890 and settled in the Lake Creek Valley just after the turn of the century.

On August 4, 1903, my grandfather and my father purchased the property at 93740 Horton Road, Blachly, from C. W. Washburne. My father and mother told me that they used water from Lake Creek from the time they settled on the farm. They used it to water stock, water a large garden, and for use in the house, too.

Our family kept dairy cattle and some pigs. When my brother, Harold, was in charge of the farm he raised beef cattle for a time. The cattle have always grazed the land on both sides of Lake Creek where it crosses the property, which is about a quarter-mile or more. And the cattle have always gone down to the creek to get their water, we never drew it out for them. They drink all along the full length of the creek on our property.

My Father later sunk a shallow well near the farmhouse. The well had a pitcher pump and the water was used for household use. The creek water was plumbed to a faucet with a sink on the back porch and was also plumbed into the milk-house. When the well went dry in the summer water from the creek was used for household use as well.

On November 29, 1911, my grandfather sold his interest in the property to my father, Ervin M. Wolf. Then on August 6, 1941, my father sold my mother, Clara J. Wolf, an undivided one half interest in the property.

After my father died my mother, Clara J. Wolf, conveyed title to my brother, Harold W. Wolfe and Peville J. Wolfe on March 6, 1964. When my brother decided to get married he tore down the old farmhouse, put up a new, smaller home for mother, and then added a second home immediately next door for himself and his wife. My brother, Harold, continued using the land and the water as my father had done. He used well water for household use and water from Lake Creek to water stock, water a large garden, and for household use as well.

My brother died on December 26, 1976, and left the property to his wife, Phyllis J. Wolfe. No change was made in land or water usage while she held the property.

Then, on February 15, 1984, my sister-in-law, Phyllis J. Wolfe, sold the property to L. C. Trudeau and Jeanne E. Trudeau. From my personal knowledge they have continued to use the land and the water from the well and from Lake Creek exactly as my family had used it. They have raised cattle, sheep and pigs. And they use the water from the well and from Lake Creek for household use, and to water the lawns and garden. Their cattle and sheep go down to the creek to drink water.

MEMORANDUM OF CONTRACT

16 07 11 00 00200

Memorandum is made that under the terms of a land sale contract dated 2-15, 1984, Phyllis J. Wolfe, Seller, has contracted with L. CHRISTIAN TRUDEAU & JEANNE E. TRUDEAU, husband and wife, Buyers, to sell that real property situated in Lane County, Oregon, described as follows:

The Northeast 1/4 of the Northeast 1/4 of Section No. Ten (810); and the Northwest 1/4 of the Northwest 1/4 of Section No. Eleven (811), all in Township No. Sixteen (816) South, Range No. Seven (7) West of the Willamette Meridian, in Lane County, Oregon. EXCEPT therefrom that portion of the above described premises conveyed to Melvin A. Shrove as shown by instrument recorded in Volume 202, Page 243, Deed Records of Lane County, Oregon, and subsequently conveyed to Edwin Owens as shown by instrument recorded in Volume 337, Page 494, Lane County Oregon Deed Records. Also EXCEPTING therefrom that portion lying within High Pass Road right of way.

The contract between the parties is now a valid and subsisting contract, and Buyers are entitled to possession of the described property. The true and actual consideration for this transfer is \$100,000.

This Memorandum is not a conveyance of or a contract to convey the described property, but is a memorandum only and subject to all of the terms and provisions of the contract itself.

Dated this 3 day of February, 1984.
