WATER RIGHT EXAMINER REPORT

WATER RESOURCES DEPT.
SALEM, OREGON

File: SWR-160

On December 15, 1993, I inspected the water system and site of beneficial use as per SWR-160., in the name of George B. and William B. Camp. The owners of the property are the same George B. and William B. Camp. The address of the owners is:
12117 Highway 126
Mapleton, Or. 97453

SOURCE

The source of water is an unnamed creek tributary to Knowles Creek, which is tributary to the Siuslaw River.

DIVERSION

The point of diversion is located 240 ft. south and 50 ft. west of the center of section 1, Township 18 South, Range 10 West. The diversion consists of a wood headwall of 2"x12" plank used to raise the creek water in order to empty fill a 1 1/4" pipe that extends through the headwall. The creek is approximately 2 feet wide at high flow at the point of diversion. A wood flume approximately 11 inches wide is used to carry the normal flow of creek water over the headwall. The creek has a waterfall located near the house that prevents passage of fish above that point. The capacity of the diversion is approximately 20 gpm. The elevation head from the reservoir to the house is approximately 130 feet.

RESERVOIR

A 1350 gallon plastic above ground reservoir is located at shown on the Final Proof Map. Overflow from the reservoir is piped back into the creek. The inlet, outlet, and overflow are 1 1/2" diameter.

APPLICATION OF BENEFICIAL USE

Remains of old intake and settling basins were found at various places along the creek. Fenced yards, gardens, fields and old orchards were areas irrigated. Fields, gardens, and orchard area

have been irrigated with up to 3 impulse type sprinklers operating at approximately 4 gpm per each, with the sprinklers connected to standpipes.

RE: SWR-160

Dear Mr McAllister,

This will acknowledge the receipt of the map and report you prepared to support the pre-1909 vested water right claim of George and William Camp. The map and report appear to be in satisfactory form and I will add them to the file. Thank you for your prompt attention to my request.

Sincerely,

Don Knauer

RE: File# **SWR-160**

DEAR MICHAEL N. MCALLISTER,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for George B. and William B. Camp. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

conveyance	ORS 539.120 "...the location of and each ditch, canal, pipeline or other means of conveying the water..."
place of use (1/4 1/4)	ORS 539.240 (2) (d) (B) "The location of place of use by quarter-quarter section..." You need to identify the 1/4 1/4 or government lot on the map.
diversion point size	OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems."
beneficial use title	This is a map to support a claim to a pre-1909 vested water right. The application for permit process is not involved.

I am enclosing a copy of the checklist and claim to beneficial use report information used by the adjudication section. You may find it useful in preparing the required map and information. Many Certified Water Right Examiners have seen these and are using them.

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

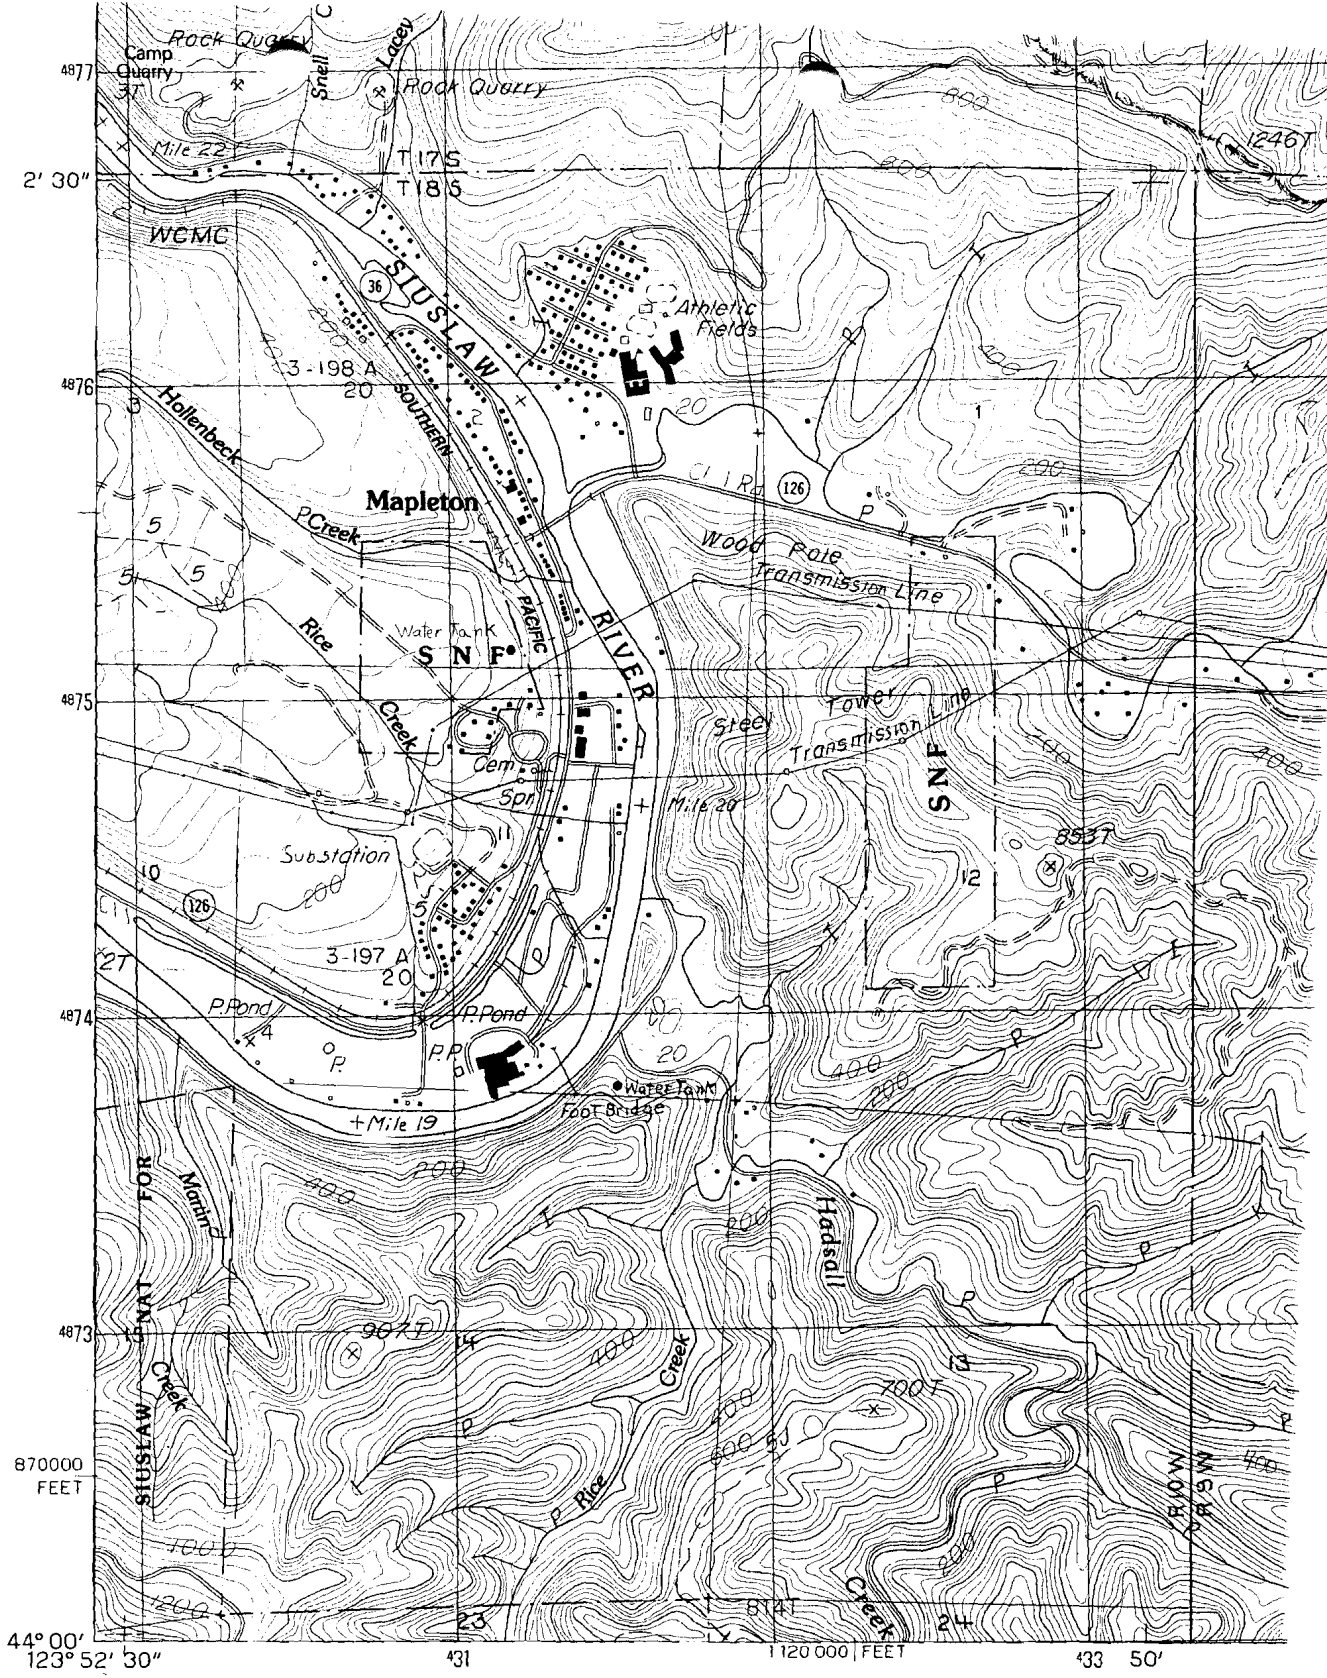

As always, if you have any questions, please give me a call.

Sincerely,

A handwritten signature in black ink, appearing to read "Don Knauer", with a long horizontal flourish extending to the right.

Don Knauer

GEORGE B & WILLIAM B CAMP
12117 HWY 126
MAPLETON OR 97453

Dear MR CAMP,

This will acknowledge that your Surface Water Registration Statement in the name of GEORGE B & WILLIAM B CAMP has been received by our office. The fees in the amount of \$230.00 have been received and our receipt #95273 is enclosed. Your registration statement has been numbered SWR-160.

Our office will review your form and map in the near future. If necessary we will schedule a meeting with you that will include a site inspection. If there are problems with your form we are usually able to take care of them during our visit. We will be able to answer any questions you might have about the adjudication process at that time.

Please feel free to contact this office if you have any questions.

Sincerely,

Don Knauer
Adjudication Specialist
