February 24, 1992

Water Resources Department
3850 Portland NE
Salem, OR 97310

Dear Sir/Madam:

Enclosed please find a Surface Water Registration Statement for Teresa and James Foster. This reflects spring water usage from natural springs.

A previous surface water application has been filed on these springs under #S-71477. However, the owners believe they have Pre-1909 use of the springs. Therefore this registration is being submitted.

Sincerely,

Darryl Anderson, P.E., P.L.S.

DEC 23 1992

WATER RESOURCES DEPT.
SALEM, OREGON

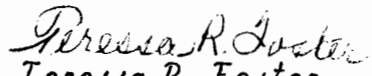

Dear Sirs:

Regarding surface water originating from 26 main springs used to flood irrigate 211.98+acres of native meadow prior to 1909 and used continuously. This water flows constantly from natural springs and is directed through ditches onto meadows of native grasses. If dammed up, underground pressure will force the water to emerge in another place.

These meadows are situated within a natural basin and the water flowing upon them cannot and does not leave this ranch property through any channel, but sinks into the ground. These meadows have been utilized for hay and pasture for cattle, sheep, and horses for more than 100 years. This ranch, in fact, was first homesteaded in 1887 and has been in the Foster family since 1907.

During the winter, the water from the springs often ices up and spreads out over the meadows. This results in excellent spring forage which is attractive to Canada geese.

Yours truly,

James H. Foster

Teresa R. Foster

RE: File# SWR-186

DEAR DARRYL J. ANDERSON,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

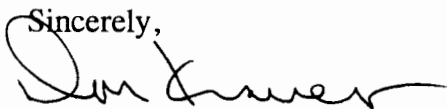

I am returning the map you prepared for James & Teresa R. Foster. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

conveyance	ORS 539.120 "...the location of and each ditch, canal, pipeline or other means of conveying the water..." The location of at least the main ditch or ditches must be shown.
diversion point size	OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems." A typical cross section of the ditch or ditches must be shown.

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,

Don Knauer
Adjudication Specialist

WATER RESOURCES DEPARTMENT

WATER RESOURCES DIVISION
SALMON, OREGON

Application for a Permit to Appropriate Surface Water

Applicant(s) James H. & Teressa R. Foster

(Please print or type - use dark ink)

Mailing Address: P. O. Box 5

Summer Lake
City

Oregon
State

97640
Zip

Daytime Phone No.

I (We) make application for a permit to appropriate the following described waters of the State of Oregon:

1. **SOURCE OF WATER** for the proposed use: 20 springs,
a tributary of (Area is within the Summer Lake Basin, however Springs rarely run
off the property.)
2. **TOTAL AMOUNT OF WATER** to be applied to beneficial use: 7.31 cubic feet per
second, OR gallons per minute. If water is to be used from more than one source,
give the quantity of water from each: Approximately .37 cfs from each spring.

3. **INTENDED USE(s) OF WATER:** Irrigation of crops

If for more than one use, give the quantity of water from each source for each use; _____

If for **DOMESTIC** use, state the number of households to be supplied; _____

If for **MUNICIPAL OR QUASI-MUNICIPAL** use, state the present population to be served,
and an estimate of the future requirements; (List population projections, water needs, anticipated areas
to be provided water.) _____

If for **MINING** use, state the nature (gold, silver, etc.) of the mines to be served; _____

If for **IRRIGATION**, or other land area use, state the **TOTAL** number of acres to be developed
under each use;

Irrigation 292.6

Other (describe) _____

296.6

4. **DESCRIPTION OF WATER DELIVERY SYSTEM:** Include dimensions and type of construction of diversion works, length and dimensions of supply ditches or pipelines, size and type of pump and motor. If for irrigation, describe the type of system (i.e., flood, wheel line, hand line, drip, other).

Springs are naturally flowing. Water is ditched from spring source across fields as required to cover the irrigated area.

Springs are sometimes intermittent. Well water will supplement. See application and map and application #G-12127.

Springs are used in conjunction with wells. See Application G-12127.

5. **PROJECT SCHEDULE:** (List month and year)

Proposed date construction work will begin April, 1991

Proposed date construction work will be completed July, 1991

Proposed date water use will be completed September, 1991

NOTE: A map prepared by a Certified Water Right Examiner (CWRE) and a complete legal description of the subject property are required under ORS 537.140 and OAR 690 as a part of your application. The legal description may be copied from your deed, title insurance policy, or land sales contract.

6. a) In the event any deficiencies are noted involving the application map enclosed herein, please return the map with instructions for correction to (check one):

 Applicant x CWRE Other (Identify in REMARKS section)

- b) In the event any deficiencies are noted involving the application, please return the application with instructions for correction to (check one):

 Applicant x CWRE Other (Identify in REMARKS section)

7. Are all lands involved (including the proposed diversion site, place of use, and access for conveying the water) under your ownership? Yes. If not, list in the REMARKS section below, or on an attached sheet, the names and mailing addresses of the legal owners of all property involved in the proposed development.

REMARKS: Please refer to map and accompanying application #G-12127.

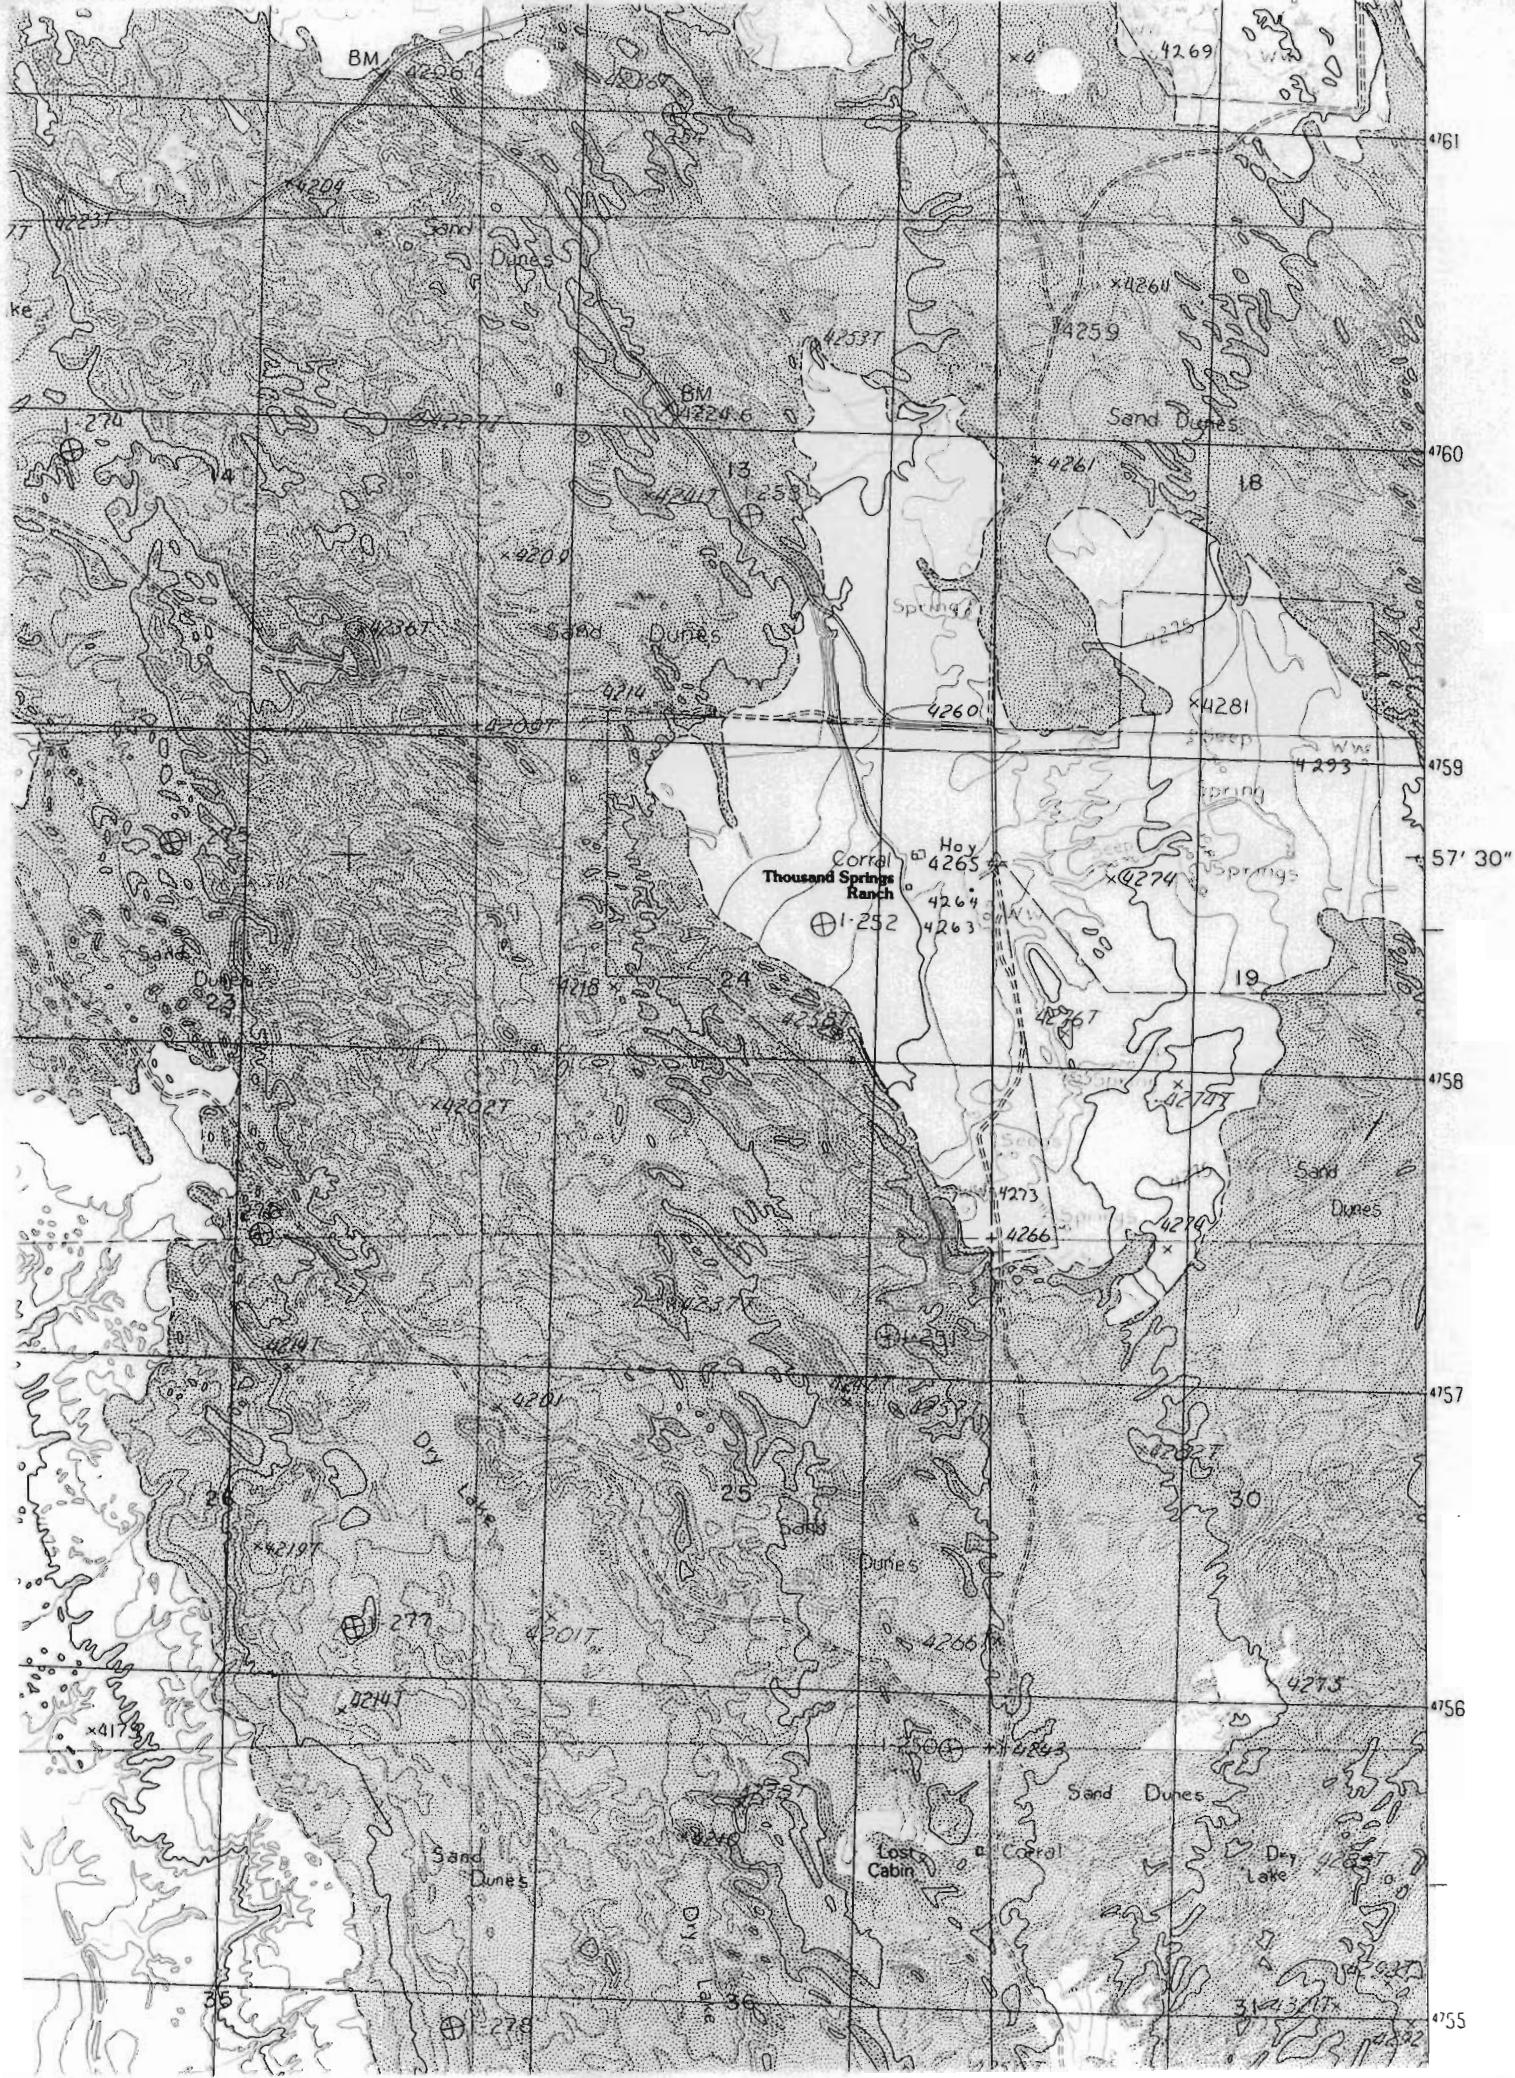

NOTE: The permit, when issued, is for the beneficial use of water without waste. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible the land use you propose may not be allowed if it is not in keeping with the goals and acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.
