SECTION 2: PROPERTY OWNERSHIP Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used. YES, there are no encumbrances. YES, the land is encumbered by easements, rights of way, roads or other encumbrances. NO, I have a recorded easement or written authorization permitting access. NO, I do not currently have written authorization or easement permitting access. NO, written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040). NO, because water is to be diverted, conveyed, and/or used only on federal lands. Affected Landowners: List the names and mailing addresses of all owners of any lands that are not owned by the applicant and that are crossed by the proposed ditch, canal or other work, even if the applicant has obtained written authorization or an easement from the owner. (Attach additional sheets if necessary). Wallowa Lake Irrigation District Legal Description: You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map. **SECTION 3: SOURCE OF WATER** A. Proposed Source of Water Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into (if unnamed, say so), and the locations of the point of diversion (POD): Source 1: Wallowa Lake Reservoir Tributary to: Wallowa River TRSQQ of POD: T3SR45E Sec5 NENW

If any source listed above is stored water that is authorized under a water right permit, certificate, or decree, attach a copy of the document or list the document number (for decrees, list the volume, page and/or decree name).

Tributary to:

Permit R347, Certificate 9310

For Department Use: App. Number:

Source 2:

TRSQQ of POD:

Received MAR 0 3 2025

B. Applications to Use Stored Water							
Do you, or will you, own the reservoir(s) described in Section 3A above?							
Yes. No. (Enclose a copy of your written notification to the operator of the reservoir of your intent to file this application, which should have been mailed or delivered to the operator.)							
If <i>all</i> sources listed in Section 3A are stored water, the Department will review your application using the expedited process provided in ORS 537.147, unless you check the box below. Please see the instruction booklet for more information.							
By checking this box, you are requesting that the Department process your application under the standard process outlined in ORS 537.150 and 537.153, rather than the expedited process provided by ORS 537.147. To file an application under the standard process, you must enclose the following:							
 A copy of a signed non-expired contract or other agreement with the owner of the reservoir (if not you) to impound the volume of water you propose to use in this application. 							
 A copy of your written agreement with the party (if any) delivering the water from the reservoir to you. 							
SECTION 4: SENSITIVE, THREATENED OR ENDANGERED FISH SPECIES PUBLIC INTEREST							
INFORMATION							
This information must be provided for your application to be accepted as complete. The Water Resources Department will determine whether the proposed use will impair or be detrimental to the public interest with regard to sensitive, threatened or endangered fish species.							
To answer the following questions, use the map provided in Attachment 3 or the link below to determine whether the proposed point of diversion (POD) is located in an area where the Upper Columbia, the Lower Columbia, and/or the Statewide public interest rules apply.							
For more detailed information, click on the following link and enter the T,R,S,QQ or the Lat/Long of a POD and click on "Submit" to retrieve a report that will show which section, if any, of the rules apply: https://apps.wrd.state.or.us/apps/misc/lkp trsqq features/							
If you need help to determine in which area the proposed POD is located, please call the customer service desk at (503) 986-0900.							
Received							
<u>Upper Columbia - OAR 690-033-0115 thru -0130</u> MAR 0 3 2025							
Is the POD located in an area where the Upper Columbia Rules apply?							
If yes, you are notified that the Water Resources Department will consult with numerous federal, state, local and tribal governmental entities so it may determine whether the proposed use is consistent with the "Columbia River Basin Fish and Wildlife Program" adopted by the Northwest Power Planning Council in 1994 for the protection and recovery of listed fish species. The application may be denied, heavily conditioned, or if appropriate, mitigation for impacts may be needed to obtain approval for the proposed use.							

If yes,

- I understand that the proposed use does <u>not</u> involve appropriation of direct streamflow during the time period April 15 to September 30, <u>except as provided in OAR 690-033-0140</u>.
- I understand that I will install, operate and maintain a fish screen and fish passage as listed in ORS
 498.301 through 498.346, and 509.580 through 509.910, to the specifications and extent required by
 Oregon Department of Fish and Wildlife, prior to diversion of water under any permit issued pursuant to
 this application.
- I understand that the Oregon Department of Environmental Quality will review my application to determine if the proposed use complies with existing state and federal water quality standards.
- I understand that I will install and maintain water use measurement and recording devices as required by the Water Resources Department, and comply with recording and reporting permit condition requirements.

<u>Lower Columbia - OAR 690-033-0220 thru -0230</u> Is the POD located in an area where the Lower Columbia rules apply?	
Yes No	
If yes, you are notified that that the Water Resources Department will determine the Columbia River Basin Fish and Wildlife Program, and regional restoration proposed use is detrimental to the protection or recovery of a threatened or enwhether the use can be conditioned or mitigated to avoid the detriment.	ograms applicable to threatened appropriate, whether the
If a permit is issued, it will likely contain conditions to ensure the water use confederal water quality standards; and water use measurement, recording and re Resources Department. The application may be denied, or if appropriate, mitigate obtain approval of the proposed use.	porting required by the Water
If yes, provide the following information (the information must be provided we considered complete).	ith the application to be
Yes No The proposed use is for more than one cubic foot per second (4) the requirements of OAR 690, Division 86 (Water Management and Conservation	
If yes, provide a description of the measures to be taken to assure reasure:	onably efficient water
	Received
Statewide - OAR 690-033-0330 thru -0340	MAR 0 3 2025
Is the POD located in an area where the Statewide rules apply? Yes No	OWRD

If yes, the Water Resources Department will determine whether the proposed use will occur in an area where endangered, threatened or sensitive fish species are located. If so, the Water Resources Department, Department of Fish and Wildlife, Department of Environmental Quality, and the Department of Agriculture will recommend conditions required to achieve "no loss of essential habitat of threatened and endangered (T&E) fish species," or "no net loss of essential habitat of sensitive (S) fish species." If conditions cannot be identified that meet the standards of no loss of essential T & E fish habitat or no net loss of essential S fish habitat, the agencies will recommend denial of the application unless they conclude that the proposed use would not harm the species.

SECTION 5: WATER USE

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):

(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

SOURCE	USE	PERIOD OF USE	AMOUNT		
R347	Irrigation	May1 — Sep30	293		
			cfs gpm af		
			cfs gpm af		
			cfs gpm af		

Please indicate the number of p	orimary, supplemental and/or	r nursery acres to be irrig	gated.	
Primary: <u>117.3</u> Acres	Supplemental: _ Acres	Nursery Use:	Acres	
If supplemental acres are listed	, provide the Permit or Certif	icate number of the und	erlying primary water	
right(s):				
Indicate the maximum total nur	mber of acre-feet you expect	to use in an irrigation se	eason: <u>351.9</u>	

- If the use is municipal or quasi-municipal, attach Form M
- If the use is **domestic**, indicate the number of households:
- If the use is mining, describe what is being mined and the method(s) of extraction:

SECTION 6: WATER MANAGEMENT

A. Diversion and Conveyance What equipment will you use to pump water from your source? Pump (give horsepower and type): Other means (describe): OPEN EARTHEN DITCHES Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water. FLOOD DITCHES WITH TARPS AND LATERAL DITCHES

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler) FLOOD

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to public uses of affected surface waters. WATER IS DIVERTED, WATER IS APPLIED. THEN WATER IS RELASED AT THE HEADGATE.

Surface Water	-	-	Page 5	5
	R	le	v. 07/2	1

SECTION 7: RESOURCE PROTECTION

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires,
careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of
possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to
protect water resources:

pio	teet water resources.
\boxtimes	Diversion will be screened per ODFW specifications in ORS 498.301 through 498.346 to prevent uptake of fish and other aquatic life. Describe planned actions: Local ODWF office review
	Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas. Note: If disturbed area is more than one acre, applicant should contact the Department of Environmental Quality to determine if a 1200C permit is required – no excavation is needed for this project. Describe planned actions and additional permits required for project implementation: no excavation of ditch banks will be needed.
	Operating equipment in a water body will be managed and timed to prevent damage to aquatic life. Describe planned actions and additional permits required for project implementation: N/A
	Water quality will be protected by preventing erosion and run-off of waste or chemical products. Describe planned actions: N/A
	List other federal and state permits or contracts to be obtained, if a water right permit is granted. N/A
SEC	CTION 8: PROJECT SCHEDULE
2011/09/02	Deceloral

a) Date construction will begin: already started Completed

b) Date construction will be completed: already installed

c) Date beneficial water use will begin: once permit is issued

Land Use Information Form

Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 503-986-0900 www.oregon.gov/OWRD

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; OR
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or groundwater registration modification, <u>and all</u> of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; <u>and</u>
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land use form and return it to the WRD. If no land use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the Received WRD's Customer Service Group at 503-986-0900.

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land use plan. Do not include approval for activities such as building or grading permits.

DUARD T. SCOTT and HARRIET SCOTT, husband and wife, and GORDON L. WOLFE, Grantors, convey and dedicate to WALLOWA COUNTY, a political subdivision of the State of Oregon, Grantee, the following property as a road and bridge way:

A strip of land, variable in width, located in the Southwest one-quarter and the Southeast one-quarter of Section 21, Township 1 North, Range 43 East, Willamette Meridian, Wallowa County, Oregon, said strip of land being more particularly described as follows:

BEGINNING at a point which bears South 61° 53' 26" East 9,085.37 feet from the section corner common to Sections 17, 18, 19 and 20, Township 1 North, Range 43 East of the Willamette Meridian, and at said Point of Beginning, said strip of land being 35.00 feet in width on the left (easterly) side of the following described centerline, and being 35.00 feet in width on the right (westerly) side of said centerline;

THENCE from said Point of Beginning and along said centerline of said strip of land South 0° 04' 44" West 102.76 feet to the beginning of a 1,041.74 foot radius tangent circular curve;

THENCE 195.71 feet along the arc of said 1,041.74 foot radius circular curve, concave westerly, the long chord of which bears South 5° 27' 39" West 195.42 feet;

THENCE South 10° 50' 34" West 701.54 feet along said centerline to a point at which said strip of land increases in width on the left (easterly) side of said centerline from 35.00 feet in width to 40.00 feet in width, and decreases in width on the right (westerly) side of said centerline from 35.00 feet in width to 30.00 feet in width;

THENCE, continuing along said centerline South 10° 50' 34" West 77.59 feet to the beginning of a 1,041.74 foot radius tangent circular curve, from which said section corner common to Sections 17, 18, 19 and 20, Township 1 North, Range 43 East of the Willamette Meridian, bears North 55° 45' 12" West 9,494.59 feet;

THENCE continuing along said centerline 147 feet, more or less, along the arc of said 1,041.74 foot radius circular curve, concave easterly, to the Point of Intersection of said centerline with the South line of Section 21, Township 1 North, Range 43 East of the Willamette Meridian, said Point of Intersection being the terminus of said strip of land.

FEB 2 5 2022

OWRD

At said Point of Intersection, the width of said strip of land is 40.00 feet on the left (easterly) side of said centerline, and 30.00 feet on the right (westerly) side of said centerline.

For purposes of this description; the widths of said strip of land are measured along lines which are perpendicular to said centerline.

The edges of said strip of land at said Point of Intersection are to be modified as necessary, either northerly or southerly along lines parallel to said centerline, to their respective intersections with said South line of Section 21.

The bearing recited in this description are referenced to a bearing of North 71° 35' West along the centerline of the existing tracks of the OWR & N Railroad Company located in Sections 20 and 21, Township 1 North, Range 43 East of the Willamette Meridian.

Grantors have conveyed the above property for public use as part of the county road system and more particularly a bride as a part of such road system.

The consideration for this conveyance is \$450.00 to Grantor Scott and \$1,120.00 to Grantor Wolfe.
