re: SWR-210

Dear Mr Bryant,

This will acknowledge the receipt of the map you prepared for John Bigelow in support of his claim to a pre-1909 vested water right. I will add the map to the file. If you have any questions, please give me a call.

Sincerely,

Don Knauer
Adjudication Specialist

RE: File# SWR-210

DEAR DENNIS O. BRYANT,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for John H. Bigelow. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

diversion point size	OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems."
paper	OAR 690-14-170-1 "...in ink on permanent-quality linen or 0.003-inch mylar..."

I am enclosing a copy of the checklist and claim to beneficial use report information used by the adjudication section. You may find it useful in preparing the required map and information. Many Certified Water Right Examiners have seen these and are using them.

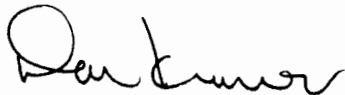

3850 Portland Rd NE
Salem, OR 97310
(503) 378-3739
FAX (503) 378-8130

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,

A handwritten signature in cursive script, appearing to read "Don Knauer".

Don Knauer
Adjudication Specialist

MCKENZIE BRIDGE OR 97413

Dear MR BIGELOW,

This will acknowledge that your Surface Water Registration Statement in the name of JOHN H has been received by our office. The fees in the amount of \$200.00 have been received and our receipt #95427 is enclosed. Your registration statement has been numbered SWR-210.

Our office will review your form and map in the near future. If necessary we will schedule a meeting with you that will include a site inspection. If there are problems with your form we are usually able to take care of them during our visit. We will be able to answer any questions you might have about the adjudication process at that time.

Please feel free to contact this office if you have any questions.

Sincerely,

Dwight French
Adjudication Section

Surface Water Registration - SWR-120

SOURCE: A cold spring located in Tax Lot 16-65-10-302 and is specifically located South 651 feet and West 257 feet from the Northeast One Sixteenth corner to Section 10, Township 16 south, Range 6 East, Willamette Meridian. It was located on an aerial photograph No. E124 79 which was provided by Mr. Bigelow. The spring is 160 feet in elevation above Mr. Bigelow's house, as determined from U.S.G.S. Map of the McKenzie Bridge Quadrangle.

The stream emitting from the spring is tributary to the McKenzie River.

IMPROVEMENTS: A one foot square by 3 in metal trash screen has been fitted to the end of a 2 inch PVC pipe and serves as the intake structure for this diversion point. A pipeline of 2 inch PVC pipe has been installed for a distance of 2250 feet to his residence.

USE: The spring is presently Mr. John Bigelow's domestic water source and is used for less than one half acre of lawn and garden irrigation, and cooling for water used in his swimming pool. It has been used for domestic use since the initial construction work at Belknap Springs.

QUANTITY: Mr. Bigelow states that the spring is capable of providing 30 gallons/minute of cold water to the system.
