RE: File# SWR-214

DEAR KEITH R. JEHNKE,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for Benjamin Thomas Carter. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

✓ scale	OAR 690-14-170-1 "The map scale shall be 1" = 1320', 1" = 400', or the scale of the county assessor map..."
✓ CWRE requirement	ORS 539.240 (2) (d) "A map from a survey prepared by a water right examiner..." Your stamp must legible.
✓ diversion point size	OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems."
✓ paper	OAR 690-14-170-1 "...in ink on permanent-quality linen or 0.003-inch mylar..."

On your map you show under DATE SURVEYED "TBA", I wonder what that means. You have shown a lawn and garden area around the house. If irrigation is included in this claimed use, you must show the acreage to the nearest 1/10th acre.

I am enclosing a copy of the checklist and claim to beneficial use report information used by the adjudication section. You may find it useful in preparing the required map and information. Many Certified Water Right Examiners have seen these and are using them.

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,

It is understood and agreed between the parties hereto that the spring located in the northwest corner of the above described property serves the residence upon the above described property as well as Seller's residence, which is located southerly from the above described property and immediately across on the south side of the Oregon State Highway Right-of-way. A pipe line extends from said spring southerly to serve the dwelling house on the above described property as well as Seller's property hereinbefore described.
