CERTIFICATE OF WATER RIGHT

This Is to Certify, That **GEORGE SHROYER**

of Route 2, Box 99, Philomath, State of Oregon, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of Well No. 2

a tributary of Mary's River (Willamette River) for the purpose of irrigation of 107.7 acres

under Permit No. G-2373 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from March 7, 1963

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 1.24 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, as projected within Hartless DLC 51, Section 13, T. 12 S., R. 6 W., W. M. Well located: 2660 feet North and 1780 feet West from SE Corner, Hartless DLC 51.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed $2\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

2.4 acres NE $\frac{1}{4}$ SW $\frac{1}{4}$
4.2 acres SE $\frac{1}{4}$ SW $\frac{1}{4}$
4.9 acres NE $\frac{1}{4}$ SE $\frac{1}{4}$

POD-ID	Well	Application	Permit	Certificate	Status

We have reviewed your request for an exemption from the pump test requirements. In your letter, you indicate that:

[X] the pump on your well is not currently working.

Although we cannot exempt you from testing the well because of this condition, we can grant you a time extension, subject to the following conditions:

1. The time extension is good for one year. Your new due date is December 6, 1994. If a pump is installed or if your pump is repaired before that time, the extension ends and the test is due.
2. Prior to the expiration of the extension you will receive a notice that the test is due. If there is still no pump on the well, or if your installed pump is still not working, you must send us a written request for another extension.
3. A representative of the Water Resources Department may visit your well to verify that there is no pump installed or that your pump is not working.

Please be advised that under Oregon law, a water right is considered forfeited if it is not used in the manner specified under the right for five consecutive years.

We appreciate your cooperation in this program. If you have any questions, please contact Mike Zwart or Bill Ferber at the address below or by calling 378-8455.

Dear Mr. McKelvie:

I do not understand your application for additional time to complete the irrigation of land under your permit No. G2372. If in the upper part of the application where you have written "completed" you mean that you have completed the installation of the necessary facilities to make use of water you should more clearly state. Also it would be well to include a brief list of the quantity of equipment obtained, including the well pump.

The same information applies to permit No. G2373. If these extensions are completed you should ignore the certified letter we recently sent you.

Our receipt 7262 covering fees of \$4 is enclosed.

Dear Mr. McKelvie:

According to the terms of your permit No. G-2373, for appropriation of 1.24 cubic feet per second from Well No. 2 for irrigation of 110.0 acres, complete application of water was to have been made by October 1, 1965.

Complete application of water means the application of water to beneficial use under the permit to the full extent intended. In the case of irrigation, it means beneficial irrigation of all the lands the permittee intends to cover under the terms of the permit. If water has been used, you should promptly submit notice describing the extent of completion as set forth in the letter accompanying your permit and also in our postal card of

ORS 537.260 provides that: "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the State Engineer proof of completion of the appropriation as required by ORS 537.230 and 537.250, the State Engineer may, after 60 days' notice by registered mail, order the cancelation of the permit.****"

In accordance with the provisions of ORS 537.260, you are hereby notified that unless proof of beneficial use is received within 60 days from the date of this letter, the permit(s) may be canceled without further notice.

If for any reason you are no longer interested in the project described by the permit, we would appreciate it if you would so advise. If the property involved has changed hands and any part of the project has been completed, you should immediately assign the permit to the new owner and advise us of his name and address. An assignment form will be furnished upon request.

This will acknowledge receipt of your notices of completion of construction under permits G-2372 and G-2373.

You are reminded that the time limit for complete application of water to beneficial use under both permits is also October 1, 1965. If you have irrigated all of the land you intended to under these permits on or before October 1, 1965, you should submit notices to that effect. Enclosed please find two notices of complete application of water to beneficial use for your convenience. If you have not irrigated all of the land you intend to under these permits, you should make application for an extension of time.

This will acknowledge your application for an extension of the time limits in which to complete construction and make complete application of water under the terms of your permit No. G-2373 and your check in the amount of \$2 for which our receipt No. 7262 was handed to you.

The application indicates reasonable diligence has been exercised toward completion of the proposed project; therefore, the time limits to complete construction and make complete application of water are being extended to October 1, 1966.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Application for Extension of Time

To the State Engineer of Oregon:

I, R. C. McKelvie, of RR-2 Box 204 Philomath,
state of Ore, am the owner and holder of Permit No. G-2373, to
appropriate the public waters of the state of Oregon.

Under the terms and conditions of said permit, construction work is required to be completed on or
before Oct 1, 1965, and complete application of water is required to be
made on or before Oct 1, 1966.

I have heretofore done the following work described under said permit during the past year:

I HAVE THE FOLLOWING EQUIPMENT TO APPLY WATER TO THE
LAND COVERED BY THE ABOVE PERMIT, 40 HP. BRUSE ELECTRIC MOTOR
WITH MATCHING TURBINE SHAFT DRIVEN PUMP, & 5 IN. MAIN LINE & 3 IN.
and did the following work prior to last year: LATERALS ABOUT 3000 FT.

costing \$....., and I estimate the cost of completion to be \$

I have heretofore used water under said permit to the following extent:

I am unable to { ~~complete construction work~~
make complete application of water } within the required time, for the following

Proof of Appropriation of Water

GEORGE SHROYER

of Route 2, Box 99, Philomath, State of Oregon,
has applied beneficially the waters of
Well No. 2

a tributary of Mary's River (Willamette River) for the purpose of
irrigation of 107.7 acres

under Permit No. G-2373 of the State Engineer, and that the use of said waters has been
completed under the terms of said permit; that the priority of the
right dates from March 7, 1963

that the amount of water for the purposes aforesaid, has been actually beneficially used in the
amount of
1.24 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream.
The point of diversion is located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, as projected within Hartless DLC 51,
Section 13, T. 12 S., R. 6 W., W. M. Well located: 2660 feet North and 1780
feet West from SE Corner, Hartless DLC 51.

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further limited
to a diversion of not to exceed 2 $\frac{1}{2}$ acre feet per acre for each acre irrigated
during the irrigation season of each year,

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is
