PERMIT No. 10921

14011  
15018  
15774  
16474

March 7, 1961

Mr. F. C. Mullen  
P. O. Box 223  
Albany, Oregon

Dear Mr. Mullen:

In response to your letter of February 21 and following our recent telephone conversation, I conducted a brief search of our records and came up with the following data:

The certificate recorded at Volume 13, page 15380, State Record of Water Rights Certificates, was issued in the name of H. E. Mullen on July 15, 1948 in evidence of the right established under permit No. 12278, to appropriate not to exceed 0.38 cubic foot per second of water from Mill Creek, with the priority date of July 17, 1936, for the irrigation of a total of 30 acres in Section 9, Township 11 South, Range 2 West, W.M. The application for permit leading to the issuance of the certificate was filed on July 17, 1936. Reports from the file indicate that 9 acres were irrigated in 1936 and 8 acres were irrigated in 1937. Irrigation of the entire 30 acres as proposed in the application was not accomplished until 1944.

The certificate recorded at Volume 10, page 11299, State Record of Water Rights Certificates, was issued in the name of F. D. Kropf on November 20, 1935, in evidence of the right established under permit No. 10082, to appropriate not to exceed 0.63 cubic foot per second of water from Muddy Creek with the priority date of March 27, 1931 for the irrigation of 50 acres of land within sections 1, 2 and 11, Township 15 South, Range 4 West, W.M. The records indicate that the application was filed in March of 1931 and that completion of the project was accomplished during the summer of 1935.

The certificate recorded at Volume 11, page 12331, State Record of Water Rights Certificates, was issued on April 2, 1940, also in the name of F. D. Kropf, in evidence of the right established under permit No. 10921 to appropriate not to exceed 0.40 cubic foot per second of water from Muddy Creek, with the priority date of June 30, 1933, for the irrigation of 31.4 acres of land in Section 33, Township 15 South, Range 4 West, W.M. The records

March 7, 1961

indicate that the application was filed on June 30, 1933 and that completion of the project was accomplished during the summer of 1938.

On April 2, 1935, the permit No. 11623 was issued to J. G. Medler in approval of application No. 15774 and granted to him the right to appropriate 0.41 cubic foot per second of water from the South Santiam River for the irrigation of 33 acres of land in Section 24, Township 12 South, Range 2 West, W.M. The date of filing which is the same as the date of priority was April 2, 1935.

It appears that under the time limits of the permit, as extended several times, Mr. Medler attempted to accomplish the completion of the irrigation project. It appears that the property was sold to Mr. C. M. Price and that the permit was assigned to Mr. Price on February 21, 1946. In the document dated April 29, 1948, Mr. Price stated that he had no further interest in the permit and, therefore, authorized the cancelation of it.

While going through the records I notice there are some rights of record for irrigation projects in Linn County that go back to around 1927. I will be glad to go over these records with you when you have the opportunity to come in, as we discussed in our telephone conversation.

Very truly yours,

LEWIS A. STANLEY
