Description of Water Use

Note to Applicant: This sheet will provide local planning staff with a basic description of your proposed water use. Please fill out this sheet before bringing the attached land use form to your local planning office. It will help local planning offices complete your land use information form quickly.

Note to Local Planning Officials: Please initial this sheet. Do not separate it from the land use information form. If needed, please make a separate copy for your records.

REGISTRATION STATEMENT CLAIM OF BENEFICIAL USE AND SITE REPORT

Field Survey 12/8/92 by Keith Jehnke, C.W.R.E.

Information:

Permittee Owner: Loon Lake Camp
Address: Board of Camp & Retreat Ministries
Oregon-Idaho Conference of the United Methodist Church
1581 West Shore Road
Reedsport, Oregon 97467

Contact: Dan Wilson-Fey 836-2462

The original pre-1909 use was for domestic, irrigation and some stock watering. The pre-1909 method of procuring the water consisted of carrying the water from the lake in buckets and also a large bucket on a sled pulled by horses.

Dan Wilson-Fey was contacted on the site.

Source

The source is Loon Lake, which drains into Mill Creek, a tributary of the Umpqua River.

Diversion Point

The diversion point is located approximately 55 feet off the shore and 40 feet south of the rock headwall adjacent to the dock. The pump and motor are cylindrical and the pump intake is approximately 4 inches of the length of the 4 inch diameter cylinder.

Motor/Pump

Lake Pump:

Brand - Fairbanks Mors Submersible
Type - Submersible Electric, 5 amp, 230 volts
HP - 1/2
Max RPM's - 3450
Pump Discharge - 1-1/4 inch diameter

Booster Pump:

Brand - Gould Model J05N
Type - Jet Pump 8.6/4.3 amp, 115 volts
HP - 1/2
Max RPM's - 3450
Pump Discharge - 1 inch diameter

DEC 20 1992

RECEIVED
FEB 11 1993

Pipe

The water is transferred from the lake to a 1400 gallon storage tank through 315 lineal feet of 1-1/4 inch diameter black poly pipe. The water travels 40 feet from the storage tank to the booster pump and a hydropneumatic tank (which maintains a working pressure from 38 to 46 psi), which is located underneath the lodge building.

There is a 1 inch line off of the 1-1/4 inch line that serves a hose bib. This line comes off before reaching the 1400 gallon storage tank. The 1 inch line travels 360 feet and serves a 1/2 inch diameter hose bib that is gravity fed.

Heads: There are no irrigation uses for this system.

Head: The lake itself is at elevation 100.0. The storage tank is at elevation 142.5. The lodge building is at elevation 133.0. The hose bib is at elevation 107.5 and is gravity fed with a difference in elevation of $142.5 - 107.5 = 35$ feet. As previously stated the lodge building system is maintained at between 38 to 46 psi by a booster pump and hydropneumatic tank system.

Uses

The water is used for domestic uses by a church camp. There is a staff of six that stays in the lodge for the season. The season runs from the beginning of June until the end of August. Up to 140 campers utilize the lodge facilities and the 1/2 inch hose bib during the season.

Calculations

See attached.

Survey Tie

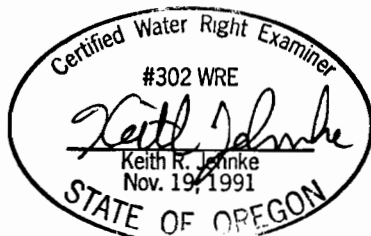

Detailed topographic and subdivision maps were provided by the client. The shoreline and a rock wall near the P.O.D. were clearly defined on the topographic map and this was used to locate the P.O.D. The P.O.D. is located 1255 feet east and 258 feet south of the Center North 1/16 of Section 11, T.23S., R.11W., W.M., Douglas County, Oregon, in the SW1/4 of the NE1/4.

Conclusion

This final proof survey and inspection of the use as found to be completed by me on December 8, 1992, and the facts contained in this report and accompanying Vested Water Rights Application Map are correct to the best of my knowledge.

I, DAN WILSON-FEY, agree to the findings of the C.W.R.E. and do submit this site report and map as my Claim of Beneficial use of the water.

HOW MUCH WATER IS NEEDED?

In making estimates of quantity of water which would be needed, the following approximations are offered for various purposes around homes or farms. It is always well to exceed rather than cut down on these quantities, so that the equipment you install for your customer will meet all emergencies when several outlets are used at once.

Approximate Flow of Water per Minute Through Average Fixtures

Shower Bath	5 gallons per minute
Tub Bath	10 gallons per minute
Lavatory	5 gallons per minute
Tank Closet	5 gallons per minute
Valve Closet	30 gallons per minute
Kitchen Sink	10 gallons per minute
Laundry Tub	10 gallons per minute
Flowing Drinking Fountain	1½ gallons per minute
Garden Hose, 3/4" nozzle	5 gallons per minute

Average Quantity of Water Required for Different Services Supplied by Water Supply Systems

Each member of family	50 gallons per day
Each horse	12 gallons per day
Each dry cow or steer	12 gallons per day
Each milk cow	35 gallons per day
Each hog	4 gallons per day
Each sheep	2 gallons per day
Chickens, per 100	4 gallons per day

PRESSURE TABLES, WEIGHTS AND MEASURES

USEFUL INFORMATION

A U. S. gallon of water weighs 8½ pounds and contains 231 cubic inches. A cubic foot of water weighs 62½ pounds and contains 1728 cubic inches or 7½ gallons. To find English tons, deduct 1/6.

Doubling the diameter of a pipe increases its capacity four times. Friction of liquids in pipes increases as the square of the velocity.

The mean pressure of the atmosphere is usually estimated at 14.7 pounds per square inch, so that with a perfect vacuum it will sustain a column of mercury 29.9 inches, or a column of water 33.9 feet high.

To find the pressure in pounds per square inch of a column of water, multiply the height of the column in feet by .434. Approximately, we say that every foot of elevation is equal to one-half pound of pressure per square inch.

To find the diameter of a pump cylinder to move a given quantity of water per minute (100 feet of piston being the standard speed), divide the number of gallons by four, then extract the square root, and the result will be the diameter in inches of the pump cylinder.

To find the quantity of water elevated per minute, running

100 feet of piston, square the diameter of the pump cylinder in inches and multiply by four; the product will be approximately the number of gallons.

To find the horsepower necessary to elevate water to a given height, multiply the total weight of water in pounds by the height in feet and divide the product by 33,000 (approximately).

To find the capacity of a cylinder in gallons, multiply the area in inches by the length of the stroke in inches and divide by 231. The quotient is the capacity in gallons.

To find the number of gallons in a tank, multiply the inside bottom diameter in inches by the inside top diameter in inches, then this product by .34, point off four figures, and the result will be the average number of gallons to one inch in depth of tank.

For the circumference of a circle, multiply diameter by 3.1416.

For the diameter of a circle, multiply circumference by .31831.

For the area of a circle, multiply square of diameter by .7854.

For size of an equal square, multiply the diameter by .8852.

For surface of a ball, multiply square of diameter by 3.1416.

For cubic inches in a ball, multiply cube of diameter by .5236.

FRICTION OF WATER IN PIPES

Friction loss, in pounds pressure per square inch, for each 100 feet of length of various sizes of clean iron pipe, discharging given quantities of water per minute.

ASH VALLEY, DOUGLAS COUNTY, OREGON

CHARLES L. PARKER named Ash Valley after 'the Ash trees growing in the valley. Few Ash trees remain in the valley now as they were cut down by the settlers as they cleared their land.

Loon Lake was named after the Loons found living on the lake.

Job Hatfield and another explorer were the first people to discover Loon Lake.

The first school held in Ash Valley was in a small house built by Russel Snider for ~~him~~ and his wife ~~to live in~~. This was in 1903.

The first school district was formed in 1901.

The first settlers in Ash Valley ^{were} JACK BAKER, HENRY LAIRD and RICHARD DICKERSON

They were followed by Mr. Colby and family, Mr. and Mrs. Judy, Kundig, Lirksinger, Upton, Butterfield, Frank Keuhn, Matsons ~~and~~ Wilhoets and John Selander.

The first teachers to teach school in the little house were:

Miss M. Stuart	- June 18, 1903	-- 12 weeks	\$30.00
Ida E. Rodine	- May 16, 1904	-- 20 weeks	66.66
Nannie Haines	- May 11, 1905	-- 12 weeks	- 33.33
Eunice Andrews	- Oct. 26, 1905	-- 8 weeks	- 33.33 and board
Ida Rodine	- Oct. 1, 1906	-- 8 weeks	- 35.00
Helena Wessela	- May 8, 1907	-- 12 weeks	@35.00
Jane Porters	- April 15, 1908	-- 12 weeks	@35.00
Mrs. Alta Schaaf	- 1909	- 5 months	40.00
Jessie Gardiner	- 1910	- 12 weeks @	50.00

N. S. Bunch was the first Clerk 1902 thru 1911

Hugo Carlson was the Clerk from 1912 until 1964

PEARL COLBY was the first baby born in Ash Valley.

The Ash Post Office was established in 1890 at Jack Baker's residence with Alice Baker as Postmistress. The mail was carried by horseback from Hedden's Post Office Scottsburg over a trail thru Camp Creek to Ash Valley.

Mrs. Alberta Mayberry

Three Oaks, Mi. 49128To whomever this may concern regarding
"water-Rights and/or usage of water," dates, etc.

I hereby declare to the best of my knowledge and calculations this history of the property in Douglas Co., Ore. Lots 2, 3, 6, 7... Sec. 11; Township 23 S, Range 10 W. of the Willamette Meridian as being acquired by John Salander through Federal Homesteading Law. The Law stated He must live on that property seven months of every year; make visible improvements, for seven consecutive years. (I am not in error on this last statement?) which ^{time} evidently ended in May, 1913. So in order to count back seven years, his Residing upon this property started in May - 1906.

He built a barn, house and fences. Planted a small fruit orchard. He raised and bred Race-horses which he delivered to ships in Marshfield sailing to San Francisco, Ca. He also raised sheep there up to 1916.

Never was there a long period of time that farm animals were not pastured there. In 1912 my parents moved us up the valley about 4 Mi. to live on a larger farm that was owned by my Mother, formerly, Alberta Salander Sasson - Mayberry Nov. 1992

Mr. Dan Wilson-Jay:

Continuing on with the afore-mentioned property on page one, on the south and west shores of Loon Lake, more details are given in the history of "water-use" history by my parents and by me and Joseph H. Sasson, my husband, in the years from 1930 to 1938 Spring's during our residing thereupon. This my Father's Homestead.

My father carried water from a natural Spring deep beneath rocks around the bluff which is below where the house sits. The Sasson's too must carry water from here, via: a bucket! In the years we lived there Joe Sasson found that the hill we'd built our house on had many signs or evidences of underground water springs. So as we were selling this property to Nourse, he was shown one spot definitely on the side of the hill. Later, after purchasing the land there Mr. Nourse dug a hole & got gravity-flow water to the house! I must say that that was the first time the water RAN, minus a pair of arms and legs to carry it. The year 1941.

Thanks for your patience. I hope this long detail suffices for your purpose.

Sincerely & honestly given and signed by me: 1992

John Salander, whose post office address is Ash, Douglas County, Oregon, being first duly sworn depose and say, that I am the identical John Salander, who this day filed Homestead Application for Lots 2, 3, 6 and 7, Sec. 11 Tp. 23, S. R. 10 West Willamette Meridian. I further depose and say that I am a single man of the age of 58 years, and that I established my residence on said tract of land Nov. 10, 1891 prior to the withdrawal of said land from entry.

On Jan. 10, 1892, I had a cabin built containing, bed, bedding, stove, cooking utensils, dishes, tools, food, clothing, table and chairs and also had one fourth acre of land cleared. It was not necessary to build a trail at this time as my place was accessable by water.

On March 2, 1907 my improvements were as follows,

One	shake house	18X14 ft.	
"	"	barn	26X34 ft.
"	"	"	18X 16 "
"	"	"	24X24 " in course of construction.
"	Chicken house	8X8 Ft.	
18	Acres of land cleared		
2	boats		
1	scow for moving stock		
22	Orchard trees		
	Small fruits		
$\frac{3}{4}$	acres garden		

House was completely furnished with bed bedding tools food cooking outfit, two stoves, clothing and all of my personal effects. Also five horses, sixteen cows.

At this time I had no chickens as they had been killed shortly prior to this date.

At the present date I have the same improvements as mentioned above and seven horses, six cows, fourteen chickens, ten hogs, and forty sheep.

From June 1892 up to September 1899, I left my place

05588

each summer from one to three months in order to go out and earn money to buy provisions and supplies for my farm.

Since September 1899, I have not been away from my place except on trips of a few days duration to sell my products and buy provisions.

and the Lots 2, 3, 6, and 7

TOWNSHIP 23 S. RANGE 11 E. MERIDIAN 2

Range 11 E. Meridian 2

the land embraced in Homestead Entry, No. 05538, made at the

ROSEBURG, Oregon

ANSWER. I have known him and the land for about 16 years.

(b) Is claimant married? ANSWER. Yes, he is married.

QUESTION 3. Is said tract within the limits of an incorporated town, or used in any way for trade or business?

ANSWER. It is not.

QUESTION 4. (a) When did claimant settle upon the homestead?

ANSWER. About 16 years ago, when I first became acquainted with him.

(b) At what date did claimant establish actual residence thereon?

ANSWER. About 16 years ago.

(c) Have claimant and family resided continuously on the homestead since thus establishing residence thereon?

ANSWER. He has.

(d) Have claimant and family ever been absent from the homestead since thus establishing residence thereon?

ANSWER. He has not been absent from said homestead for the past five years, previously he was absent some.

(e) If there have been any such absences, give the dates covered by such absences, stating who was absent and for what reason.

ANSWER. For the past five years claimant has not been absent, but before that he used to work several months each year in saw mills for a living in this county and the county.

QUESTION 5. Describe the land embraced in above entry by legal subdivisions, showing fully the character of same, and kind and amount of timber, if any.

ANSWER.

Subdivision.	Acres cultivable.	Acres timbered.	Feet timber.
I have no knowledge as to the subdivisional lines of this claim, but on the entire 138.37 acres, I believe he could cultivate about 60 acres, and I estimate the timber to be about 100,000 ft.			

QUESTION 6. State by subdivisions the number of acres cultivated, kind of crop planted, and amount harvested, each year. How many acres of the claim are now cleared, or broken, and under cultivation? If used for grazing only, state number and kind of stock grazed each year and by whom owned.

ANSWER. On Lot 6 he has about 1 A. under cultivation, and has

about 20 acres cleared. He has raised a garden for his own use

for the past 15 years, besides raising 25 ton of hay for his

stock. He has an orchard of about 25 trees, all bearing.

He uses this land principally for grazing. He has 7 horses,

15 cattle, about 35 sheep, and about 7 hogs, which he owns.

QUESTION 7. Describe fully and in detail the amount and kind of improvements on each subdivision. State total value of improvements on the claim.

ANSWER.

Subdivision.	Character of improvements.
On Lot 6 he has a house 1½ story, built of clap-boards, of 2 rooms and a lean-to front kitchen. He has two barns built of clap-boards, and a third barn partially completed. He has a smoke house, chicken house, dog house, and a mile of fence partly pickets and partly rails. He has a road of 200 to 300 years, and ½ mile trail; 25 fruit trees, and 3 or 4 black berry vines. He also has one row boat. Improvements are worth, \$2,000.00	

QUESTION 8. Are there any indications of coal, salines, or minerals of any kind on the land? If so, describe what they are.

ANSWER. Not to my knowledge.

QUESTION 9. Have you any knowledge or information that claimant has sold or contracted to sell, optioned, mortgaged, or agreed to option or mortgage this land? If so, give full details as to whom, for what purpose, and in what amount.

ANSWER. Not to my knowledge.

QUESTION 10. (a) Have you personal knowledge, from your own observation, that claimant and his family (if any) actually resided upon and cultivated this land each year in accordance with your above testimony?

ANSWER. I have.

(b) How many times each year have you seen this land, and the claimant and his family residing thereon; and what other personal knowledge have you upon which your answers are based?

ANSWER. Five or six times a year. I live about 12 miles from him.

QUESTION 11. Are you interested in this claim, or related to the claimant? If so, how?

ANSWER. I am not.

I am not.

Subdivision.	Acres cultivated.	Acres timbered.	Feet timber.
Lot 1	0.20	Only about 25	100
Lot 2			
Lot 3			
Lot 4			
Lot 5			
Lot 6			
Lot 7			

QUESTION 7. State by subdivisions the number of acres cultivated, kind of crop planted, and amount harvested, each year. How many acres of the claim are now cleared, or broken, and under cultivation? If used for grazing only, what number, and kind of stock grazed each year and by whom owned. I have had a small garden every year for the past

ANSWER. 17 years. I have now about 1/2 A. and raise potatoes principally. This year I raised 200 bushels of potatoes. I have raised potatoes sufficient for my own use for the past 17 years. I have now 20 acres cleared, and 1/2 A. plowed. I ran stock every year for the past 16 years, from nine to 34. I now have 7 horses, and nine head of cattle, 40 sheep, 15 hogs, which I own myself. I have 1/2 mile of picket fence, and 100 panels of rail fence.

QUESTION 8. Describe fully and in detail the amount and kind of improvements on each subdivision. State total value of improvements on the claim.

ANSWER.

Subdivision.	Character of improvements.
On Lot 6 I have all my improvements, viz. 20 acres cleared, and 1/2 A. garden; a shake house, 14 x 18 ft., with an upstairs and a downstairs, 5 windows, 2 doors, shake roof, split cedar floor, and comfortably furnished. I have a shed for a kitchen, 10 x 18 ft. I have a shake barn, 24 x 32 ft.; a barn 18 x 20 ft., of shakes; stable 24 x 14 ft. 2 cow sheds to house 16 cattle each. I have a barn started 24 x 24 ft.; chicken house 9 ft. sq. I have built 1 1/2 mile trail. I have a scow, on Loon Lake, 11 x 34 ft.; 2 row boats.	Value, \$600.00

QUESTION 9. Is your present claim within the limits of an incorporated town or selected site of a city or town, or used in any way for trade or business?

ANSWER. It is not.

QUESTION 10. Are there any indications of coal, salines, or minerals of any kind on the land? If so, describe what they are.

ANSWER. I know of none.

QUESTION 11. Have you ever made any other homestead entry? If so, describe the same.

ANSWER. I have not.

QUESTION 12. Have you sold, conveyed, or agreed to sell or convey any portion of the land; if so, to whom and for what purpose?

ANSWER. I have not.

QUESTION 13. Have you optioned, mortgaged, or agreed to option or mortgage, or convey this land, or any part thereof; if so, when, to whom, and for what purpose and in what amount?

ANSWER. I have not.

QUESTION 14. Have you any personal property of any kind elsewhere than on this claim? If so, describe the same, and state where the same is kept.

ANSWER. I have not.

QUESTION 15. Describe by legal subdivisions, or by number, kind of entry, and office where made, any other entry or filing (not mineral) made by you since August 30, 1890.

ANSWER. I have made none.

that my post-office address is Ash, Douglas Co., Oregon;
that this application is honestly and in good faith made for the purpose of actual settlement and cultivation, and not for the benefit of any other person, persons, or corporation; that I will faithfully and honestly endeavor to comply with all the requirements of law as to settlement, residence, and cultivation necessary to acquire title to the land applied for; that I am not acting as agent of any person, corporation, or syndicate in making this entry, nor in collusion with any person, corporation, or syndicate to give them the benefit of the land entered, or any part thereof, or the timber thereon; that I do not apply to enter the same for the purpose of speculation, but in good faith to obtain a home for myself, and that I have not directly or indirectly made, and will not make, any agreement or contract, in any way or manner, with any person or persons, corporation, or syndicate whatsoever, by which the title which I may acquire from the Government of the United States will inure in whole or in part to the benefit of any person except myself. I further swear that, since August 30, 1890, I have not entered and acquired title to, nor am I now claiming, under an entry made under any of the nonmineral public-land laws, an amount of land which, together with the land now applied for, will exceed in the aggregate 320 acres; and that I have not heretofore made any entry under the homestead

20 laws (except);
(Here describe former homestead entry by section, township, range, land district and number of entry; how perfected or if not perfected, state that fact)

that I am well acquainted with the character of the land herein applied for and with each and every legal subdivision thereof, having personally examined same; that there is not to my knowledge within the limits thereof any vein or lode or quartz or other rock in place bearing gold, silver, cinnabar, lead, tin, or copper, nor any deposit of coal, placer, cement, gravel, salt spring, or deposit of salt, nor other valuable mineral deposit; that no portion of said land is claimed for mining purposes under the local customs or rules of miners, or otherwise; that no portion of said land is worked for mineral during any part of the year by any person or persons; that said land is essentially nonmineral land, and that my application therefor is not made for the purpose of fraudulently obtaining title to mineral land; that the land is not occupied and improved by any Indian.

Department of the Interior,

UNITED STATES LAND OFFICE,

ROSEBURG, Oregon.

December 11, 1909.

John Salander, being duly sworn according to law, deposes and says that he is the identical John Salander who is an applicant for Government title to the Lots 2, 3, 6, and 7, Sec. 11, Tp. 23 S., R. 10 W. Will. Mer.

that he is well acquainted with the character of said described land, and with each and every legal subdivision thereof, having frequently passed over the same; that his personal knowledge of said land is such as to enable him to testify understandingly with regard thereto; that there is not, to his knowledge, within the limits thereof, any vein or lode of quartz or other rock in place, bearing gold, silver, cinnabar, lead, tin, or copper, or any deposit of coal; that there is not within the limits of said land, to his knowledge, any placer, cement, gravel, or other valuable mineral deposit; that the land contains no salt spring, or deposits of salt in any form sufficient to render it chiefly valuable therefor; that no portion of said land is claimed for mining purposes under the local customs or rules of miners or otherwise; that no portion of said land is worked for mineral during any part of the year by any person or persons; that said land is essentially non-mineral land, and that his application therefor is not made for the purpose of fraudulently obtaining title to the mineral land, but with the object of securing said land for agricultural purposes; that the said land is not occupied and improved by any Indian, and that his post-office address is Ash, Douglas County, Oregon.

John Salander

I hereby certify that the foregoing affidavit was read to affiant in my presence before he signed his name thereto; that said affiant is to me personally known (~~or has been satisfactorily identified before me by~~), and that I verily believe him to be a credible person and the person he represents himself to be, and that this affidavit was subscribed and sworn to before me at my office in ROSEBURG, Oregon., within the ROSEBURG, Oregon. land district, on this 11th. day of December, 1909.
