RE: City of Prineville – Application G-19263

Response to Notice of Mitigation Obligation and Proposed Municipal Incremental
Development Plan

Dear Adam,

In response to the Department's letter dated October 24, 2024, GSI Water Solutions, Inc. is providing this response on behalf of the City of Prineville (the City).

Table 1 below describes the timelines and increments for the City's proposed Incremental Development Plan. The City intends to satisfy its mitigation obligation through permanent mitigation credits. The City understands it has a Crooked River Zone of Impact obligation. The City has access to 5,100 permanent mitigation credits from Mitigation Project (MP) 222. The City intends to use credits from MP 222 to satisfy its mitigation obligation for Application G-19263.

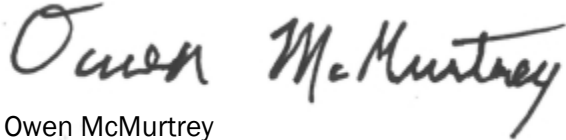

Table 1. City of Prineville Proposed Timelines and for Increments Incremental Development Plan (Application G-19263)			
Increment	Year	Estimated Annual Volume Appropriated (acre- feet) per Increment	OWRD's estimated consumptive use (mitigation obligation)
1	2025-2029	400	160
2	2030-2033	400	160
3	2034-2038	400	160
4	2039-2042	400	160
5	2042-2045	626	250.4
Total		3,226	1,290.4

This proposed Incremental Development Plan assumes that the City's permit will be issued in 2025. To the extent this date varies, the City would request to modify the dates accordingly. In addition, to the extent that projected water demand is greater or lesser than outlined in Table 1, the City will propose to update its Incremental Development Plan.

Enclosure: Response to Notice of Mitigation Obligation Credit or Project Option

Response to Notice of Mitigation Obligation Municipal or Quasi-Municipal Incremental Development Plan

**RESPONSE TO NOTICE OF MITIGATION OBLIGATION
MUNICIPAL OR QUASI-MUNICIPAL INCREMENTAL DEVELOPMENT PLAN**

Municipal or Quasi-Municipal groundwater permit applicants may satisfy a mitigation obligation by incrementally obtaining and providing mitigation to coincide with the incremental development of the permit, provided mitigation is provided prior to each stage of development of the permit, in accordance with the standards under OAR 690-505-0610(2)-(5). A mitigation obligation may be satisfied by obtaining mitigation credits, providing for implementation of a mitigation project, or both (OAR 690-505-0610(2)). Please read and complete this acknowledgment of mitigation obligation and return it to the Department at the address above.

Applicant(s): CITY OF PRINEVILLE

Applicant's agent (*if applicable*): GSI WATER SOLUTIONS, INC.

Application number: G-19263

Proposed Use: MUNICIPAL USE

Period of Use requested: JANUARY 1 THROUGH DECEMBER 31

Rate requested: 4.46 CUBIC FEET PER SECOND

Volume requested: 3,226.0 ACRE-FEET

Mitigation Obligation: 1,290.4 ACRE-FEET

Zone of Impact: Crooked River Zone of Impact (located anywhere in the Crooked River Basin above river mile 13.8)

Please read and initial the following statements:

X We intend to provide incremental mitigation.

X We understand that mitigation must be provided prior to each stage of development of the permit and that the mitigation must meet the requirements of OAR 690-505-0610(2)-(5).

X We understand that the first increment of mitigation must be obtained, submitted to the Department and legally protected instream prior to a permit being issued. **MP-222 is already complete.**

X We understand that after receiving the water right permit, I (we) may not increase water use without providing the corresponding required mitigation.

X We understand that we will be required to submit a new or update Water Management and Conservation Plan under OAR Chapter 690, Division 86 within 2 years of the Department issuing a permit.

X We understand that may we modify the incremental development plan and related mitigation obligation only with prior written Departmental approval.

(over)

Please estimate the time schedule for development of the water right permit and the proposed source of mitigation that may be obtained and used prior to each stage of development (this proposed development schedule must describe 100% of the requested volume). **Please see attached incremental mitigation plan.**

For the first increment of permit development we will need approximately _____acre-feet of the _____acre-feet requested in the application. The first increment of mitigation will be required by _____ (date).

The proposed source of mitigation water for this increment of use will be (please check):

_____Purchase mitigation credits and / or _____A mitigation project resulting in credits

Please describe the type of project (e.g., transfer, etc.) and any associated water-right certificate, if known:

See Attached Cover Letter.

By _____(approximate year), for the second increment of permit development, I (we) will need approximately _____additional acre-feet of the _____total volume requested in the application.

The proposed mitigation source for this increment of use will be: (please check)

☒Purchase mitigation credits and / or _____A mitigation project resulting in credits

Please describe the type of project (e.g., transfer, etc.) and any associated water-right certificate, if known:

See Attached Cover Letter.

Please complete a section for each subsequent stage of Incremental Development beyond the first two using the additional pagebelow.
