WATER RESOURCES DIRECTOR

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

Dear Mr. Sutton:

REFERENCE: Files R-68193 and 68125

We received the additional fees in the amount of \$116 which have been credited to your Files R-68193 and 68125. Our Receipts 45191 and 45192 are enclosed.

Both of your applications now appear to be in satisfactory form and will be placed with the group to be considered for approval.

Dear Mr. Sutton:

REFERENCE: Files R-68193 and 68125

This is to acknowledge return of your secondary Application 68125. This is also to acknowledge the additional \$100 fee you submitted in the early part of November and the additional \$100 fee submitted recently. Our Receipts 44531 and 44994 are enclosed.

To date, a total of \$700 has been credited to your files. An additional \$116 will be needed to bring the total up to the required \$816.

As mentioned in my earlier correspondence, your reservoir application now indicates that you will be using the stored water only for irrigation purposes. If so, your secondary application should note that only water from Porter Creek will be used for the domestic purposes and that waters from Porter Creek and the five reservoirs will be used for irrigation purposes. Rather than return your application, I can add this information to your application upon receipt of your written authorization.

We will continue to hold further action on your applications for a reasonable length of time pending your reply.

Sincerely,

WAYNE J. OVERCASH Senior Water Rights Examiner

Dear Mr Sutton:

REFERENCE: Files R-68193 and 68125

This is to acknowledge return of your application 68125 along with the four prints of the supporting map.

We also received your application for a permit to construct the five unnamed reservoirs and to store therein 2.0 acre-feet of water from Porter Creek for irrigation purposes. The separate sheet accompanying the reservoir application notes that 0.5 acre-feet will be stored in reservoir 1, 0.4 acre-feet will be stored in reservoir 2, 0.4 acre-feet to be stored in reservoir 4, and 0.3 acre-foot to be stored in reservoir 5. This reservoir application has been filed and for reference numbered R-68193.

We also received the additional fees in the amount of \$200 for which our Receipts 43964 and 44243 are enclosed.

You have deleted the domestic use of the stored water from your reservoir application. However, your secondary application 68125 still indicates that stored water will be used for domestic use. If you only intend to use natural flow water from Porter Creek for domestic and use water from both Porter Creek and the reservoir for irrigation purposes, this should be further noted in Item 5 of your secondary application 68125.

As mentioned in my earlier correspondence, your applications will require total fees in the amount of \$816. To date, \$500 has been credited to your applications. Therefore, an additional \$316 will be needed.

So that you may clarify the uses to be made from each source, I am returning your secondary Application 68125 for completion. The application is endorsed so that in order to retain its priority date it must be received in this office on or before December 28, 1984.

Sincerely,

WAYNE J. OVERCASH Senior Water Rights Examiner

Elmer R. Sutton Route 2, Box 2 Days Creek, OR 97429

Dear Mr. Sutton:

REFERENCE: File 68125

Your Application 68125 describing the proposed use of 0.464 cubic foot per second of water from Porter Creek and five unnamed reservoirs, being 0.449 cfs for the irrigation of 35.9 acres and 0.015 cfs for domestic supplies for three families, together with the four prints of a map, has been reviewed.

Insufficient fees were submitted, so your Reservoir application describing the proposed construction of five unnamed reservoirs and storage of 2.0 acre-feet of water therein, from Porter Creek for irrigation and domestic supplies, could not be filed.

Each of your applications require an examination fee of \$200. Also, your secondary application, if for domestic supplies for three families and irrigation of 42.9 acres as indicated on the supporting map, requires permit recording fees in the amount of \$316. The Reservoir application requires recording fees in the amount of \$100. Therefore, total fees for the two applications amount to \$816. To date, \$300 has been credited to your secondary Application 68125. Therefore, an additional \$516 will be needed. We will be able to file your Reservoir application upon receipt of an additional \$100 fee. However, we will not be able to issue to permits approving your applications until the balance of the fees are received. Our Receipt 43686 covering the fees of \$100 you recently submitted is enclosed.

According to the map supporting your application, 27.0 acres will be irrigated in the NE 1/4 SE 1/4 of Section 10 instead of the 20.0 acres presently noted in Item 3 of your application. Either your map or the application will need to be corrected to be in agreement.

You will also need to further note in Item 7 of your Reservoir application the amount of water to be stored in each reservoir for each of the two uses listed.

Elmer R. Sutton August 17, 1984 page two

There are proposed minimum streamflows and policy statements affecting use of the waters of the South Umpqua River. These have a tentative effective date of November 3, 1983. The use of water under the terms of permit approving your application will be subject to these minimum streamflows, if adopted; there will be several months each year when water from the streamflow will not be available for rights with a priority after November 3, 1983. We will be able to advise you further after adoption of a policy by the Water Policy Review Board.

I am returning your secondary Application 68125 and the four maps for correction and completion. I am also enclosing your Reservoir application. This reservoir application should not be resubmitted until you have sufficient fees to file it.

The secondary application is endorsed so that in order to retain its priority date it must be received in this office on or before October 17, 1984.

Sincerely,

WAYNE J. OVERCASH Senior Water Rights Examiner

We have received your application for use of water for irrigation and domestic use along with the supporting data and fees. Our Receipt 43550 is enclosed. Your application has been filed and assigned number 68125.

Applications which are received in proper form for a permit, including maps, supporting data and fees, will be considered for approval shortly after the mandatory 30-day waiting period. Applications which are defective, conflict with existing rights or require additional information will be reviewed in detail and will be returned for completion or correction within 45 days.

If your application is approved, the project described in the application will be subject to the Water Policy Review Board's Basin Program statements, existing minimum flows and demands of prior rights during periods of low water.
