DAVID MCCOY
25254 LAWRENCE RD
JUNCTION CITY, OR 97448

GW

The Department has reviewed the status of your pump test and any requests for extension(s) or exemption(s) for the following permitted well(s). The results are summarized in the table below:

Application	Water Right	Permitted Well	Pumped Well	Test Date	Request Status	Exemption	Well Name
G 17742	Permit: G 17228 *	LANE0060445	LANE0060445	04/17/2019	REJECTED	None	WELL 1 (L-41812)

The test(s) was/were rejected for the following reason(s):

- ☐ The discharge rate was not held constant.
- ☐ The pump was turned off for a portion of the pumping phase.
- ☐ The discharge was not measured at the specified time intervals during the pumping phase of the test.
- ☐ Water levels were not measured to an accuracy of 0.1 feet.
- ☐ Pre-test static water levels or shut in pressures were not measured at the specified intervals.
- ☐ Water levels or shut in pressures were not measured at the specified time intervals during the test.
- ☐ Water levels or shut in pressures were not measured during the recovery phase of the test.
- ☐ Airline measurements are not allowed if the depth to water is less than or equal to 300 feet.
- ☒ Airline or sonic measurements were not verified by an electric tape measurement.
- ☒ Test data and the supporting documentation were not reported on the Department's forms.
- ☒ A graph indicates that the data is probably corrupt.
- ☐ Rising water levels during some or all of the pumping phase of the test indicate that the pumping rate was not held constant or that water-level measurements are inaccurate.

The test was rejected for the following reason(s):

- o In accordance with OAR 690-217-0045 (3), the discharge from the pump must be physically measured by a standard and acceptable method. The pump test does not indicate an acceptable method was used.
- o In accordance with OAR 690-217-0055, results of pump tests shall be reported on the pump test report form supplied by the Water Resources Department. The results were not included on the Department's form.
- o Acoustic recording device measurements were not verified by an electric tape measurement. There was no measured drawdown of water levels when the well was pumped, indicating that the water-level measurements are inaccurate or the pumping rate was substantially lower than reported.

The following pump test related materials can be found on our web site at:

Pump test administrative rules: <https://secure.sos.state.or.us/oard/displayDivisionRules.action?selectedDivision=3186>
A booklet explaining pump tests: https://www.oregon.gov/owrd/WRDFormsPDF/pump_test.pdf
Pump test data forms: https://www.oregon.gov/owrd/WRDFormsPDF/pump_test_coverF.pdf
Multiple well exemption request: <https://www.oregon.gov/owrd/WRDFormsPDF/pumptestexemptionform.pdf>
Unreas. burden exemption request: <https://www.oregon.gov/owrd/WRDFormsPDF/pumptestexemptionunreasburden.pdf>

Without an approved pump test, the Department may not be able to process the Claim of Beneficial Use submitted for this permit. The person or persons conducting the test need to be thoroughly familiar with all the test requirements, which are described in the Water Resources Department's administrative rules OAR 690-217.

Approved pump test letters will be digitally posted to the water right in WRIS; all other pump test letters will be mailed to

permit holder.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in cursive script, appearing to read "Stacey Garrison".
