CERTIFICATE OF WATER RIGHT

(For rights perfected under original, enlargement or secondary permits)

This is to Certify, That CHAS BLACK AND ALVA N. FISHER

of Halfway, State of Oregon, has made proof to the satisfaction of the STATE WATER BOARD of Oregon, of a right to the use of the waters of Main Pipe Creek, a tributary of Snake River

, for the purpose of the irrigation of 150 acres of land, and domestic use.

under Enlargement Permit No. 69 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon and duly confirmed by order of the STATE WATER BOARD of Oregon, made and entered

of record in the Record of Proceedings of said Board, at Salem, in Volume 1,

at page 182, on the 7th day of April, 1915; that the priority of

the right hereby confirmed dates from May 13, 1910; that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not

exceed 1.98 cubic feet per second, or its equivalent in case of rotation. The use hereunder shall conform to any reasonable rotation system ordered by the proper state officer.

A description of the lands under such right, and to which the water hereby confirmed is appurtenant, or, if for other purposes, the place where such water is put to beneficial use, is as follows:

40 acres in the NW $\frac{1}{4}$ of SE $\frac{1}{4}$; 40 acres in the NE $\frac{1}{4}$ of SE $\frac{1}{4}$; 40 acres in the SE $\frac{1}{4}$ of SE $\frac{1}{4}$; 30 acres in the NE $\frac{1}{4}$ of SW $\frac{1}{4}$; Section Thirty-five (35), Township Seven (7) South, Range Forty-five (45) East of Willamette Meridian, in Baker County, Oregon.

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described.

Rights to the use of water for power purposes are limited to a period of forty years from the date of priority of the right, as herein set forth, subject to a preference right of renewal under the laws existing at the date of the expiration of the right for power purposes, as hereby confirmed and limited.

Witness the seal and signature of the STATE

WATER BOARD affixed this 6th day

of May, 1915.

THIS AGREEMENT, Made and entered into this May 23 day of May, 1910,
by and between John E. Irwin, Clark Grubb, A. R. Curry, J. V. Martin, Herman Davis,
Charles Zimmerman and J. F. Irwin of Baker County, Oregon, owners of what is known
as the "Curry Irrigation Ditch", parties of the first part, and John F. Garrett,
Charles Black, J. V. Martin, Herman Davis, of Baker County, Oregon, parties of
the second part, WITNESSETH:

That the said parties of the first part for and in consideration of the
covenants and agreements herein contained to be kept and performed by the parties
of the second part, hereby consent to the enlargement or extension of said Curry
Irrigation Ditch to sufficient size to carry the additional water which may be
appropriated, and for which permission has been obtained from the State Engineer
to appropriate, to second parties.

In consideration of this agreement or consent by first parties, second
parties hereby agree to pay all the expense of the survey, of enlarging and of
re-grading said ditch from Carson Creek to the head.

Said expense to be paid by second parties in proportion to the amount of
water each applicant applies for and obtains.

It is also agreed between the parties hereto that both first and second
parties are to share the expense of rebuilding flumes in proportion to the
amount of water used by each individual consumer.

This agreement to be binding upon the heirs, executors, administrators and
assigns of the parties hereto.

NOTICE TO PERSON MAKING INSPECTION

Determine if use of water as described above is being made.

If use of water is being made, make survey and report, describing the use and system with particular attention to those items noted above as probable errors.

Secure the name and address of the owner of the property and if no use of water is made, also secure the name and address of the occupant of the property.

If the location of the place of use is in error, secure the name and address of the owner of the property described in the certificate.

The 40 in question is the $SE\frac{1}{4}$ $NE\frac{1}{4}$ and some of our records show it this way. The water certificate shows the $SE\frac{1}{4}$ $SE\frac{1}{4}$ and is no doubt wrong in this respect.

Dear Dave:

We need a little more information to take action regarding Certificate 853. Did you inspect the land described in this certificate, particularly the SE $\frac{1}{4}$ NE $\frac{1}{4}$, and do you believe the map is accurate, or should a survey be made?

We also need the name of the present owner of the property if we are to issue a correction certificate to him. If we do issue a correction certificate, we will need the name and address of the owner of the SE $\frac{1}{4}$ SE $\frac{1}{4}$, as a right exists on paper for this forty, and we will have to furnish proper notice before making a change.

I am returning the form for the balance of the information. Would you also put your name at the bottom of the report, instead of just your initials.

Very truly yours,

Dear Sir:

Enclosed please find my official receipt for \$1.00, which amount was transmitted with your letter of recent date together with assignment of permit No. 269 under application No. 682. This assignment has been entered upon the miscellaneous records of this office and is returned herewith.

Very respectfully,

John H. Lewis,

Mr. Charles Black,

Halfway, Oregon.

Dear Sir,-

Acknowledgement is made of the receipt of proof of appropriation of Zimmerman and Martin under Enlargement Permit No. 69, together with assignment of right from Garrett to Fisher, and check for \$2.00. I am returning such check herewith, since the \$3.00 check which you sent sometime ago will cover the \$1.00 recording fee for each certificate, and the \$1.00 recording fee for the recording of the assignment in the office of the State Engineer.

Two certificates will be issued under this permit, one to yourself and Mr. Fisher, and one to Mr. Zimmerman and Mr. Martin. The two proofs will be presented to the State Water Board for approval at its next meeting, and certificates when issued will be sent to the office of the County Clerk of your county for recording. The County Clerk will thereafter send certificates to you.

Very respectfully,

Secretary.

January 22, 1915.

Mr. Earl Zimmerman,
Carson, Oregon.

Dear Sir,-

I am enclosing blank upon which you may submit proof of appropriation of water under Permit No. E 69.

Mr. Black has already made proof on the following lands, listing them as irrigated: NW $\frac{1}{4}$ SE $\frac{1}{4}$, 40 acres; NE $\frac{1}{4}$ SE $\frac{1}{4}$, 40 acres; SE $\frac{1}{4}$ SE $\frac{1}{4}$, 40 acres; NW $\frac{1}{4}$ SW $\frac{1}{4}$, 30 acres; all in Sec. 35, Tp. 7 S. Rg. 45 E.

If you have knowledge that the balance of the appropriation, or 15 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 35 Tp. 7 S. R. 45 E., and 15 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 23, Tp. 7 S. R. 43 E. are irrigated, you should fill in the number of acres actually irrigated, in the column on the right under question 7, which has been left blank for this purpose. If you can state that these lands are irrigated, and secure the affidavit of two witnesses to that effect, it will be unnecessary for Mr. Martin to make a separate proof, and this blank, together with the one submitted by Mr. Black, will cover the entire appropriation. The instructions contained in the printed letter enclosed, should be carefully followed. The \$1.00 recording fee for certificate has been paid by Mr. Black.

Very respectfully,

Secretary.

Mr. Charles Black,

Halfway, Oregon.

Dear Sir,-

I am in receipt of your proof of appropriation of water under Enlargement Permit No. 69, together with check for \$3.00. I am returning herewith the warranty deeds. I enclose blank for assignment of water right, which should be signed by Mr. Garrett, whose rights in this permit have been transferred to Alva H. Fisher. The law provides that an assignment of rights in a permit shall be recorded in the State Engineer's office, the fee being \$1.00 for recording such an instrument. \$1.00 of the amount sent today will be applied as such fee, upon receipt of the blank properly filled out.

I am writing Mr. Martin and Mr. Zimmerman relative to the completion of their rights, today. If you desire separate certificates of water right, the fees sent today will cover the recording of assignment above mentioned, and the recording of your certificate, and that of Mr. Fisher. If you desire but one certificate for the lands covered by the permit, \$1.00 of the amount you have sent will be returned. Kindly advise this office at once relative to your wishes in this matter.

Very respectfully,

Secretary.

Gentlemen:-

Blanks for final proof of appropriation of water under Enlargement Permit No. 69, in the name of Chas. Black, J. F. Garrett, and yourselves, were mailed to Mr. Black for filling out and filing in this office. Final water right certificate will be based upon the information contained in such proof. Mr. Black has made proof upon the land owned by himself and Mr. Garrett, but states that he knows nothing about the work which has been done by you. If you wish to have your lands included in this certificate, I will send blanks, or if you wish to have a separate certificate, you should so state, and proper papers will be mailed to you, with instructions. The lands upon which no proof has been made, and which are covered by this permit, are as follows: 15 acres in the SE $\frac{1}{4}$ of SW $\frac{1}{4}$, Sec. 35, Tp. 7 S. R. 45 E.; and 15 acres in Sec. 43, T. 7 S. R. 43 E. W. E.

Mr. John H Lewis State Engineer
Salem Oreg.

Dear Sir:

Cl will write to enquire
what you have done in regards
to the permit to use water for
irrigation by John F. Garrett, Val
Martin, Chas Black and others.
and especially my interest as Cl
finished the construction of the
ditch and put the water to
beneficial use in June 1912.

Cl was to get my permit
and final adjudication by Jan.
1, 1915 Cl believes.

There was one of your
representatives here to see me over a
year ago the promised to call and
see me after he had went and
made a personal examination of
the ditch but he failed to

to put in his appearance.

I have complied
with Law now when will I
get my permanent permit.

Please let me know
as soon as convenient.

Dear Sir,-

I am in receipt of your inquiry of the 5th inst. relative to your Permit No. E 69, Application No. 682. After the complete application of water to beneficial use, a certificate is issued by the Board of Control to the permit holder, or the owner of the land, as the case may be, which corresponds to a patent from the U. S. Government. This certificate will be issued under any permit for any land which may have been irrigated thereunder, even though only a part of the land as originally applied for is irrigated. If all your neighbors drop out and refuse to enlarge the ditch, you can go ahead and do so, and secure a certificate from the Board for the land which you irrigate.

Trusting you will find this satisfactory, I remain,

Very respectfully,

John H. Lewis

State Engineer.

Salem Oreg,

Dear Sir:

I desire to ask you for information in regards to the enlargement of the Curry Ditch in Twp 8 S R. 45 E. W. M. I have forgotten the number of the Permit

I and J. A. Garrett, Val Martin, Carl Zimmerman and others.

Now I and several farmers that live and own land along the above ditch. Jointly applied to have the ditch enlarged got permission from the original owners, and all of us agreed verbally to at once prosecute the work there was no incorporation or Co. formed just a verbal agreement that all would share their part of the expense of building out

Maintaining the ditch after it was completed.

After C had the ditch surveyed C found it hard work to get all the party interests together and get all to put up their share of money. C wanted to finish the work last spring but some of the party claimed they could not possibly raise their part of the money to go ahead therefore the ditch is not quite completed yet and C find it is worth more to get all the party together and get them to raise the money than it would be worth to finish the ditch.

Now C would like to know if C could go ahead and enlarge the ditch and finish it (over)

So the ditch will carry the amount of water I asked for in the application and will the State give me a permit for my part of the water separate. If I go ahead and ~~you~~ enlarge the ditch so it will carry the amount of water that I want to use.

I do not want to go to the expense of making a separate application by my self and pay the extra fees as I have complied with the law and am ready to prosecute the work with diligence and comply with the law.

If I should drop this permit and apply by my self I would lose my previously appl. this I want to avoid.

Thank you in advance for the desired information.
Very truly

Dear Sir:

I have been living in Wallburg for some time until recently and I had depended upon others to fill out the proper papers for the annual statement of work performed.

Enclosed please find the notice of beginning of construction and notice of prosecution of work with diligence you understand that the work is the enlarging of a ditch and we can only work usually a very few days in the spring and a while in the fall when the ditch is not being used for irrigation.

All these papers is not filled out proper please correct if you can and if not please return for correction.

August 30, 1910.

Mr. John Garrett,
Carson, Oregon.
Dear Sir:-

Your letter of the 26th inst. has been received. In reply permit me to say that the application for enlargement of the Carson irrigation ditch from Pine Creek, which was filed in this office on May 13, 1910, being application No. 682, has just been approved as enlargement permit No. 69. It will be recorded in a few days and returned to you. This application calls for the irrigation of 185 acres. The map shows certain lands colored green under this ditch which are already irrigated, and colored brown, which it is proposed to irrigate. Of these lands, which it is proposed to irrigate, Zimmerman apparently will irrigate 15 acres, Black 120 acres, and Martin 15 acres, Garrett 30 acres. There is five additional acres given in the application, which can not be located on the map. I presume in contributing to the expense for enlargement of this ditch, the four applicants will assist in proportion to the area of land owned, or for which water right is secured, and that each will then secure his proportion of water allowed under the permit as granted.

No permits have been granted for a greater amount of water than at the rate of one cubic foot per second for 80 acres, and accordingly your application has been limited to 2.32 cubic feet per second. You can compute the amount for each owner in the ditch by multiplying the number of acres which he proposes to irrigate by 1/80 of one cubic foot per second.

With respect to taking in another party, this can be done by filing another enlargement application, the same as you have already done. I therefore inclose herewith blank enlargement application in case you find it necessary to use the same, also copy of instructions and township plat. If you will mark on this township plat the number of acres which each additional person proposes to irrigate in each and every forty acre tract which he owns and refer him to the map on file in this office in connection with application 682, I believe we can save you the expense of having another survey and map prepared.

It will of course be necessary for Mrs. Groll to pay the \$3.00 examination fee, and the graduated irrigation and recording fee beginning with \$.15 per acre up to 100 acres.

Very respectfully,

Mrs Elsie W. Gross & as we do not wish
to reject her & as we do not know exactly
how to put her in we want your advice in
regard to how to take action (En. per)
First = would she have to have ditch resurveyed

Second = can she be recorded in now without
changing the date of our filing our application
we are not satisfied to have our date changed

Third = What will her total cost be at your
Office for recording, out side of acreage

Fourth will she need to pay 15¢ per acre
her amount being less than 100 acres

Please inform us & greatly oblige

Mr. W. E. Blackeslee,

Halfway, Oregon.

Dear Sir:

I am enclosing herewith a check for \$65.00, made in your favor by Charles Black, on account of surveys and maps in connection with application No. 682, the maps having this day been approved. The forwarding of this check is in accordance with the instructions of Mr. Black, dated May 4, 1910.

You asked some time ago that I make suggestions in regard to your maps which have been filed here and I take the liberty of stating that a scale of two inches to the mile is much preferable to any other, owing to the fact that all our records are on that scale and when maps of any other scale are filed it necessitates reducing such maps to the office scale. I would also call your attention to the fact that the ownership of the land to be irrigated is of no consequence in filing an application and would suggest that the names of the owners be not marked on the map.

Trusting that you will find this satisfactory, I remain

Very respectfully,

State Engineer.

Hon' John H. Lewis,
State Engineer,
Salem, Oregon;

Hon' Sir:-

I Received those blanks all O.K. much Obligated.

I wish you would kindly inform me in regard to that Survey of Charles Black you stated in your letter about a month ago that you had returned the papers to Mr. Black for correction, and you thought that the matter would be adjusted in a few days, I have written to Mr Black twice in regard to the matter but can get no answer.

now I wish you would kindly inform me if there was anything wrong with the Survey, that you wished corrected, the Application Mr Black insisted on filling out ~~the Application~~ himself, so that he could collect the money from the different parties that were interested in the ditch, and if there is anything wrong with that, I dont see why my money should be held back, and if there is any thing wrong with my part of the work I dont see why I am not notified?

I am very sorry to bother you so much in this matter, but I am needing the money very badly.

Yours respectfully,

Dear Sir:

In reply to your favor of June 9
I have figured out the size
of the Ditch as near as possible and have
answered questions therein.

Mr. Carl Zimmerman wants
water for 15 acres or 15 inches of water
to use. Now if the amendment to the application
affects the priority of the ones that have
already got in our application I will
have him make a separate application.

Enclosed please find map and

Mr. Charles Black,

Halfway, Oregon.

Dear Sir:

Upon taking up for approval your application, No. 682, I find that the number of acres to be irrigated in each forty-acre tract has not been indicated in your answer to question 7. I shall also be glad for additional information in the answer to question 6. I am, therefore, returning the same herewith, together with the maps.

In order to retain its original date of priority, this application, corrected, must be received in this office on or before July 10th. The fee as provided by law for filing and recording an application for one hundred and seventy acres is \$18.50, which amount is in addition to the \$3.00 examination fee already received.

Very respectfully,

State Engineer.

Mr. John H. Lewis,
Salem, Oregon.

Dear Sir:

Enclosed please find field notes of a ditch survey and a check for \$3.00 to pay the fee for examining the application.

Mr. Blakeslee of Pine, Oregon, did the surveying for this ditch, but he refused to turn the maps over to me unless I paid him for his work in advance. I did not care to pay for the work until I knew that it was correct and would pass your inspection.

I am enclosing a check for \$65.00 drawn to the order of Mr. W. B. Blakeslee and request that you turn this check over to him when he furnishes a map on tracing linen and field notes of the above survey, that will pass your inspection, in order that I and other parties can secure a permit to appropriate water and enlarge a ditch to carry the same for the purpose of irrigating the following described lands:

SE/4 NE/4, SE/4 NE/4 SW/4 Sec. 35, Twp. 7 S., R. 45 E.,
W. M.

There are several applicants for an interest in the enlargement of the ditch. Upon receipt of notice from you that Mr. Blakeslee's work has been accepted by you, applications will be filed without delay.

Hoping that you will not be troubled too much in this
