Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated. Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when all of the water has been applied.

Application No. G-4986

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

Walter Waldkirch, the holder of Permit No. G-4704,
do hereby appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 10th day of June, 1970.

Remarks: _____

IN WITNESS WHEREOF, I have hereunto set my hand this 8th day of July, 1971.

SALEM, OREGON

of **Fields**
has applied beneficially the waters of
a well

, State of Oregon, 97710

a tributary of **Pueblo Creek**
irrigation of **100.0 acres**

for the purpose of

under Permit No. **G-4704** and that the use of said waters has been completed under the
terms of said permit; that the priority of the right dates from

September 10, 1969

that the amount of water for the purposes aforesaid, has been actually beneficially used in the
amount of

1.25 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the well.
The well is located in the **SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 25, T. 40 S., R. 35 E., W. M.; 1270 feet
North and 570 feet West from SE Corner, Section 25.**

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to **one-eightieth** of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further limited
to a diversion of not to exceed 3 acre feet per acre for each acre irrigated
during the irrigation season of each year,

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is
as follows:

40.0 acres NE $\frac{1}{4}$ SE $\frac{1}{4}$
20.0 acres NW $\frac{1}{4}$ SE $\frac{1}{4}$
40.0 acres SE $\frac{1}{4}$ SE $\frac{1}{4}$
Section 25
T. 40 S., R. 35 E., W. M.

I have read the above and foregoing proof of appropriation of water; I know the contents
thereof, and that the facts therein stated are true.

IN WITNESS WHEREOF, I have hereunto set my hand this 29th day of November,

File No. G-4986

Dear Mr. Estes:

We have received your letter of October 9, 1978 regarding our water right permit number G-4704.

Enclosed please find the signed, dated Proof of Appropriation of Water and our check No. 294 in the amount of \$2.00 for the recording fee.

We have decided to water only the 100 acres that we have applied for on this permit so no additional application will be made.

Very truly yours,

Walter Waldkirch

Dear Mr. Waldkirch,

We have not received the completed proof of appropriation of water form in connection with Permit No. G-4704 which was mailed to you on October 9, 1978. Unless it is received along with the \$2.00 certificate recording fee, the law requires the cancellation of the permit.

In the event you no longer own the property and have no further interest in this permit, you could assign it to the new owner. We will furnish the necessary form upon request.

Sincerely,

Thomas E. Shook
Water Rights Engineer

RE: G-4986

September 25, 1969

Walter Waldkirch
Andrews Star Route, Box 31
Burns, Oregon 97720

Dear Mr. Waldkirch:

This will acknowledge receipt of your application for a permit to appropriate 2500 gallons of water per minute from a well for the irrigation of 100.0 acres and a map. This application, which has been filed and numbered G-4986, requires an additional \$10.50 recording fee.

Item No. 3 on the application should clearly designate the use as being irrigation to be in agreement with the map submitted.

Item No. 4 on the application should be further completed to designate in which quarter-quarter section the well is located.

Would you please give us the name of the well driller who constructed the well and when it was drilled so that we could obtain a well log from him?

I am returning your application and map for completion. The application is endorsed so that in order to retain its date of priority, it must be returned to this office on or before November 25, 1969.

Very truly yours,

Larry W. Jebousek
Assistant

LWJ:cdc

July 29, 1969

Walter Waldkirch
Andrews Star Route, Box 31
Burns, Oregon 97720

Dear Mr. Waldkirch:

This will acknowledge receipt of your application for a permit to appropriate 2500 gallons of water per minute from a well for farming, a sketch map and the fee of \$20.00 for which our receipt No. 15653 is enclosed. This application cannot be filed because there is insufficient information to do so.

Item No. 1 on the application must be completed to designate the nearest named stream to the well.

If the well is to be used for irrigation purposes, item No. 3 on the application should clearly indicate this.

The specific land to be irrigated must be clearly designated on the map showing the number of acres of irrigation in each forty. Item No. 12 on the application must then be completed to describe the location of the land to be irrigated in agreement with the map.

The \$20.00 which you submitted has been placed in an open account in your name and will be applied to this application when returned.

Very truly yours,

Larry W. Jebousek
Assistant

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, WALTER WALDKIRCH
of Andrews Star Route Box 31, Burns, Oreg., county of HARNEY,
state of OREGON, do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is
situated
(Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is cubic
feet per second or 2.500 gallons per minute.

3. The use to which the water is to be applied is FARMING.

4. The well or other source is located 20 chgs. N and 8 chgs. + 15 ft. W from the S.E.
corner of section 25 Twp. 40 S RNG. 35 EWM.
(N. or S.) (E. or W.)
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the of Sec., Twp., R.,
W. M., in the county of

5. The to be miles
(Canal or pipe line)
in length, terminating in the of Sec., Twp.,
(Smallest legal subdivision)
R., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is MARY No. 1.

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the
supply when not in use must be described.

8. The development will consist of one having a
(Give number of wells, tunnels, etc.)
diameter of 14 inches and an estimated depth of 187 feet. It is estimated that 187
feet of the well will require Steel casing. Depth to water table is estimated 28
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line)
 feet; width on bottom feet; depth of water feet;
 grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft.
from intake in.; size at place of use in.; difference in elevation between
intake and place of use, ft. Is grade uniform? Estimated capacity,
..... sec. ft.

10. If pumps are to be used, give size and type

Give horsepower and type of motor or engine to be used

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

[illegible]

(If more space required, attach separate sheet)

Character of soil Sandy

Kind of crops raised Hay and grain

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$ 2430⁰⁰

15. Construction work will begin on or before 5/6/69

16. Construction work will be completed on or before 7/2/69

17. The water will be completely applied to the proposed use on or before 7/10/69

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Walter Waldkirch

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from

The use to which this water is to be applied is

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is

Actual construction work shall begin on or before and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19.....

Complete application of the water to the proposed use shall be made on or before October 1, 19.....
