Form C (690-9-77)

IMPORTANT—This form is a notice to the Water Resources Director that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

Dear Permit Holder:

The Water Right Services Division received your written progress report for Permit S-42778. Receipt of the progress report was published on the Department's weekly Public Notice, dated November 8, 2016. The Department did not receive any public comment on the progress report.

After reviewing your Progress Report, the Department determined that diligence toward completion of the project and compliance with the terms and conditions of the permit and extension has been demonstrated.

Your next written progress report for Permit S-42778 is due no later than **October 1, 2021**. The report must be received by the Department no sooner than 30 days prior to the due date. You also have (a) future report(s) that will be due by October 1, 2026, 2031, 2036, and 2041.

For your convenience, I have enclosed your next *Progress Report Form*. Please calendar this October 1, 2021 due date, as no further reminders will be sent.

As per your most recent extension, the date by which water must be applied to full beneficial use within the terms and conditions of your permit is October 1, 2041. *Failure to submit a written progress report will most likely result in any future extensions being denied.*

If you have any questions, please feel free to contact me by telephone at (503) 986-0825.

Sincerely,

Corey Courchane
Adjudication & Extension Specialist

OCHOCO WEST WATER AND SANITARY AUTHORITY
ORDINANCE NO. 14-8-12W
RELATING TO
INCREASE IN WATER RATES

WHEREAS, pursuant to Oregon Revised Statutes ("ORS") 450.685 and ORS 264.310 and by and through Ordinance No. 2011-023 "Relating to Rules and Regulations of the Ochoco West Water and Sanitary Authority (Water Service), the Board of Directors ("Board") of the Ochoco West Water and Sanitary Authority has the authority to fix fees and charges for services provided; and

WHEREAS, the Board has determined that an increase in water service charges is required in order to meet operating expenses for the coming budget year;

NOW, THEREFORE, IT IS HEREBY ORDAINED AS FOLLOWS:

Water rates will increase from \$25.00 per month to \$40.00 per month for the base rate which includes 4500 gallons of water.

In addition to the base rate above, water in excess of 4,500 gallons will be billed at the following rates:

- (1) \$1.50 for each 750 gallons consumed over 4500 up to 10,000 gallons.
- (2) \$2.50 for each 750 gallons consumed between 10,000 and 20,000 gallons.
- (3) \$3.00 for each 750 gallons consumed in excess of 20,000 gallons.

As required by ORS 450.685 and ORS 264.310, a public hearing was duly held on September 9, 2014 prior to the effective date of this Ordinance.

This Ordinance shall take effect 30 days after its adoption.

OCHOCO WEST WATER AND SANITARY AUTHORITY
ORDINANCE 14-8-12W: INCREASE IN WATER RATES

- If the system has not recovered by Monday morning the subdivision automatically goes to Level 3.
- The following regulations are to be put into effect for protocol during "water emergencies".
- Level 3: Restricted water use. Landscape watering will not be allowed and the pool will be closed.
- In addition to the normal schedule outlined above, additional water restrictions may be necessary. The restrictions listed here are based on order of importance:
 1. No car washing.
 2. No pressure washing.
 3. No watering of crops or gardens.

Authority customers will be advised what type of emergency we are experiencing and what level of water restrictions are to be in place. In the event an emergency situation arises.

Dear Permit Holder:

On October 13, 2009, the Department issued a Final Order approving an Extension of Time for Permit S-42778. The Final Order contained a condition to submit a progress report to the Department by October 1, 2016.

This letter is being sent to you as a reminder the progress report is due on October 1, 2016.

For your convenience, I have enclosed a **Progress Report Form** for you to fill out and submit. In order to maintain the ability to continue developing water under this permit, you should submit your progress report no later than October 1, 2016.

As per your most recent extension, the date by which water must be applied to full beneficial use within the terms and conditions of your permit is October 1, 2041.

Failure to submit written progress reports will most likely result in any future extensions being denied.

If you have any questions concerning this matter, you may contact me by telephone at (503) 986-0825.

Sincerely,

Corey A Courchane

Water Rights Application
Number S-49681

Final Order
Extension of Time for Permit Number S-42778

Appeal Rights

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. A request for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either file for judicial review, or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Application History

Permit S-42778 was issued by the Department on April 3, 1978. The permit called for completion of construction by October 1, 1980 and complete application of water to beneficial use by October 1, 1981. On February 23, 2009 Ochoco West Water District submitted to the Department an Application for Extension of Time for Permit S-42778. In accordance with OAR 690-315-0050(2), on August 18, 2009 the Department issued a Proposed Final Order proposing to extend the time to complete construction and fully apply water to beneficial use to October 1, 2041. The protest period closed October 2, 2009 in accordance with OAR 690-315-0060(1). No protest was filed.

At time of issuance of the Proposed Final Order the Department concluded that, based on the factors demonstrated by the applicant, the permit may be extended subject to the following conditions:.

CONDITIONS

2. Checkpoint Condition

The permit holder must submit a completed Progress Report Form to the Department by **October 1, 2011**. Subsequent Progress Reports will be due in 2016, 2021, 2026, 2031, 2036 and 2041. *Forms are enclosed with your Final Order.*

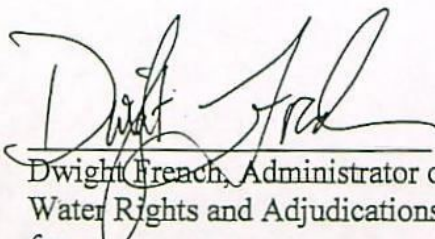

- (a) At each checkpoint, the permit holder shall submit and the Department shall review evidence of the permit holder's diligence towards completion of the project and compliance with terms and conditions of the permit and extension. If, after this review, the Department determines the permit holder has not been diligent in developing and perfecting the water use permit, or complied with all terms and conditions, the Department shall modify or further condition the permit or extension to ensure future compliance, or begin cancellation proceedings on the undeveloped portion of the permit pursuant to ORS 537.260 or 537.410, or require submission of a final proof survey pursuant to ORS 537.250;
- (b) The Department shall provide notice of receipt of progress reports in its weekly notice and shall allow a 30 day comment period for each report. The Department shall provide notice of its determination to anyone who submitted comments.

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.230, 539.010(5) and OAR 690-315-0040(2).

Order

The extension of time for Application S-49681, Permit S-42778, therefore, is approved subject to conditions contained herein. The deadline for completing construction is extended to October 1, 2041. The deadline for applying water to full beneficial use is extended to October 1, 2041.

AUTHORITY

Generally, see ORS 537.230 and OAR Chapter 690 Division 315.

ORS 537.230(3) provide in pertinent part that the Oregon Water Resources Department (Department) may, for good cause shown, order an extension of time within which irrigation or other works shall be completed or the right perfected. In determining the extension, the Department shall give due weight to the considerations described under ORS 539.010(5) and to whether other governmental requirements relating to the project have significantly delayed completion of construction or perfection of the right.

ORS 539.010(5) provides in pertinent part that the Water Resources Director, for good cause shown, may extend the time within which the full amount of the water appropriated shall be applied to a beneficial use. This statute instructs the Director to consider: the cost of the appropriation and application of the water to a beneficial purpose; the good faith of the appropriator; the market for water or power to be supplied; the present demands therefore; and the income or use that may be required to provide fair and reasonable returns upon the investment.

OAR 690-315-0040 provides in pertinent part that the Water Resources Department shall make findings to determine if an extension of time may be approved to complete construction and/or apply water to full beneficial use.

OAR 690-315-0050(6) allows the Department, for extensions exceeding five years, to establish checkpoints to determine if diligence is being exercised in the development and perfection of the water use permit. Intervals between checkpoints will not exceed five year periods.

FINDINGS OF FACT

Background

1. Permit S-42778 was granted by the Department on April 3, 1978. The permit authorizes the use of up to 0.50 cfs of water from two unnamed springs in the Lytle Creek basin, for domestic use. The permit specified construction of the water system was to be completed by October 1, 1980 and complete application of water was to be made on or before October 1, 1981.
2. Three prior permit extensions have been granted for Permit S-42778. The most recent extension resulted in the completion dates for construction being extended to October 1, 1991 and full application of water being extended to October 1, 1991.
3. The permit holder submitted an "Application for Extension of Time" to the Department on February 23, 2009 requesting the time to complete construction of the water system extended from October 1, 1991 to October 1, 2041 and the time to apply water to full beneficial use under the terms of Permit S-42778 be extended from October 1, 1991 to October 1, 2041.
4. Notification of the Application for Extension of Time for Permit S-42778 was published in the Department's Public Notice dated August 18, 2009. No public comments were received regarding the extension application.

Review Criteria [OAR 690-315-0040]

The time limits to complete construction and/or apply water to full beneficial use may be extended if the Department finds that the permit holder has met the requirements set forth under OAR 690-315-0040. This determination shall consider the applicable requirements of ORS 537.230¹, 537.248² and/or 539.010(5)³.

Complete Extension of Time Application [OAR 690-315-0040(1)(a)]

5. On February 23, 2009 the Department received a completed Application for Extension of Time and the fee specified in ORS 536.050 from the permit holder.

Start of Construction [OAR 690-315-0040(1)(b) and 690-315-0040(5)]

6. Actual construction of the water system began prior to the April 3, 1979 deadline specified in the permit.

¹ ORS 537.230 applies to surface water permits only.

² ORS 537.248 applies to reservoir permits only.

³ ORS 539.010(5) applies to surface water and ground water permits.

Duration of Extension [OAR 690-315-0040(1)(c)]

Under OAR 690-315-0040(1)(c), in order to approve an extension of time for water use permits the Department must find that the time requested is reasonable and the applicant can complete the project within the time requested.

7. As of February 23, 2009 the remaining work to be completed consists installing 21,100 ft of 6 inch mainline, 356 water meters with check valves, completing construction of the water system and applying water to full beneficial use.
8. Given the amount of development left to occur, the Department has determined that the permit holder's request to have until October 1, 2041 to complete construction of the water system and to accomplish the application of water to beneficial use under the terms and conditions of Permit S-42778 is both reasonable and necessary.

Good Cause [OAR 690-315-0040(1)(d)]

The Department's determination of good cause shall consider the requirements set forth under OAR 690-315-0040(2).

Reasonable Diligence of the Appropriator [OAR 690-315-0040(2)(a)]

The Department's determination of reasonable diligence shall consider the requirements set forth under OAR 690-315-0040(3)(a-d). In accordance with OAR 690-315-0040(3), the Department shall consider, but is not limited to, the following factors when determining whether the applicant has demonstrated reasonable diligence in previous performance under the permit:

Amount of Construction [OAR 690-315-0040(3)(a)]

9. Work was accomplished within the time allowed in the permit or previous extension as follows:
 - a. Construction of the water system began prior to the April 3, 1979 deadline specified in the permit.
 - b. Work was completed (specified in the Application for an Extension of Time) during the original development time frame under Permit S-42778.
 - c. During the most recent extension period, being October 1, 1986 to October 1, 1991, the permit holder has installed 5000 ft of six inch mainline pipe.
 - d. Since the most recent extension period, being October 1, 1991 to February 23, 2009 the permit holder has installed 170 double check valve water meters and 7400 ft of six inch mainline

Beneficial Use of Water [OAR 690-315-0040(3)(b)]

10. The following beneficial use was made of the water during the permit or previous extension time limits:

- a. Since the issuance of Permit S-42778 on April 3, 1978 the permit holder has use 0.102 cfs of water from two unnamed springs in the Lytle Creek Basin for Domestic use.
- b. Delay of full beneficial use of water under Permit S-42778 was due in part to the large number of buildable lots in the subdivision. Construction has proceeded at the 3% projected growth rate and will take until approximately 2041 to reach build-out.

Compliance with Conditions [OAR 690-315-0040(3)(c)]

- 11. The water right permit holder's conformance with the permit or previous extension conditions.

- a. The Department has considered the permit holder's compliance with conditions, and did not identify any concerns.

Financial Investments [OAR 690-315-0040(3)(d)]

- 12. Financial investments made toward developing the beneficial water use.

- a. As of February 23, 2009 the permit holder has invested approximately \$757,900 which is approximately 28 percent of the total projected cost for complete development of this project. The permit holder anticipates an additional \$1,912,700 investment is needed for the completion of this project.

Cost to Appropriate and Apply Water to a Beneficial Purpose [OAR 690-315-0040(2)(b)]

- 13. As of February 23, 2009 the permit holder has invested approximately \$757,900 which is approximately 28 percent of the total projected cost for complete development of this project. The permit holder anticipates an additional \$1,912,700 investment is needed for the completion of this project.

Good Faith of the Appropriator [OAR 690-315-0040(2)(c)]

- 14. The Department has found good faith of the appropriator under Permit S-42778.

The Market and Present Demands for Water [OAR 690-315-0040(2)(d-e)]

The Department's determinations of market and present demand for water or power to be supplied shall consider the requirements set forth under OAR 690-315-0040(4)(a-f). In accordance with OAR 690-315-0040(4), the Department shall consider, but is not limited to, the following factors when determining the market and the present demand for water or power to be supplied:

- 15. The amount of water available to satisfy other affected water rights and scenic waterway flows; special water use designations established since permit issuance, including but not limited to state scenic waterways, federal wild and scenic rivers, serious water management problem areas or water quality limited sources established under 33 U.S.C. 1313(d); or the habitat needs of sensitive, threatened or endangered species, in

consultation with the Oregon Department of Fish and Wildlife [OAR 690-315-0040(4)(a-c)].

- a. The amount of water available to satisfy other affected water rights and scenic waterway flows was determined at the time of issuance of Permit S-42778; furthermore, water availability for other affected water rights and scenic waterway flows after the permit was issued is determined at such time that such application for a new water right is submitted. The points of diversion are two unnamed springs in the Lytle Creek Basin. The two unnamed springs are located above The Deschutes Scenic Waterway, are located within an area ranked "highest" for stream flow restoration needs as determined by the Department in consultation with the Oregon Department of Fish and Wildlife, and are located within a Sensitive, Threatened or Endangered Fish Species Area as identified by the Department in consultation with Oregon Department of Fish and Wildlife. Lytle Creek is listed by the Department of Environmental Quality as a water quality limited stream.
16. Economic investment in the project to date [OAR 690-315-0040(4)(d)].
 - a. As of February 23, 2009 the permit holder has invested approximately \$757,900
17. Other economic interests dependent on completion of the project [OAR 690-315-0040(4)(e)].
 - a. None have been identified.
18. Other factors relevant to the determination of the market and present demand for water and power [OAR 690-315-0040(4)(f)].
 - a. None have been identified.
19. OAR 690-315-0050(6) requires the Department to place a checkpoint condition on this extension of time in order to ensure diligence is exercised in the development and perfection of the water use permit. A "Checkpoint Condition" is specified under Item 1 of the "Conditions" section of this PFO to meet this condition.

Fair Return Upon Investment [OAR 690-315-0040(2)(f)]

20. Use and income from the permitted water development results in reasonable returns upon the investment made to date.

Other Governmental Requirements [OAR 690-315-0040(2)(g)]

21. Delay in the development of this project was not caused by any other governmental requirements.

Unforeseen Events [OAR 690-315-0040(2)(h)]

22. None have been identified.

CONCLUSIONS OF LAW

1. The applicant is entitled to apply for an extension of time to complete construction and/or completely apply water to the full beneficial use pursuant to ORS 537.230(3).
2. The applicant has submitted a complete extension application form and the fee specified in ORS 536.050, as required by OAR 690-315-0040(1)(a).
3. The applicant complied with begin actual construction timeline requirements pursuant to ORS 537.230 as required by OAR 690-315-0040(1)(b) and OAR 690-315-0040(5).
4. Completion of construction and full application of water to beneficial use can be accomplished by October 1, 2041⁴, as required by OAR 690-315-0040(1)(c).
5. The Department has considered the reasonable diligence and good faith of the appropriator, the cost to appropriate and apply water to a beneficial purpose, the market and present demands for water to be supplied, the financial investment made and fair and reasonable return upon the investment, the requirements of other governmental agencies, and unforeseen events over which the permit holder had no control, whether denial of the extension will result in undue hardship to the applicant and whether there are no other reasonable alternatives for meeting water use needs, any other factors relevant to a determination of good cause, and has determined that the applicant has shown that good cause exists for an extension of time to apply water to full beneficial use pursuant to OAR 690-315-0040(1)(d).
6. As required by OAR 690-315-0050(6) and as described in Finding 19 above, the Department has established, as specified in the "Conditions" section of this PFO (Item 1), progress checkpoints in order to ensure future diligence is exercised in the development and perfection of Permit S-42778.

Proposed Order

Based upon the foregoing Findings of Fact and Conclusions of Law, the Department proposes to issue an order to:

- Extend the time for complete construction of the water system under Permit S-42778 from October 1, 1991 to October 1, 2041.
- Extend the time to apply water to beneficial use under Permit S-42778 from October 1, 1991 to October 1, 2041.

⁴Pursuant to ORS 537.230(3), upon the completion of beneficial use of water allowed under the permit, the permittee shall hire a certified water rights examiner to survey the appropriation. Within one year after the complete application of water to a beneficial use (or by the date allowed for the complete application of water to a beneficial use), the permittee shall submit a map of the survey and the claim of beneficial use.

Subject to the following conditions:

CONDITIONS

1. Checkpoint Condition

The permit holder must submit a completed Progress Report Form to the Department by **October 1, 2011**. Subsequent Progress Reports will be due in 2016, 2021, 2026, 2031, 2036 and 2041. *Forms will be enclosed with your Final Order.*

- (a) At each checkpoint, the permit holder shall submit and the Department shall review evidence of the permit holder's diligence towards completion of the project and compliance with terms and conditions of the permit and extension. If, after this review, the Department determines the permit holder has not been diligent in developing and perfecting the water use permit, or complied with all terms and conditions, the Department shall modify or further condition the permit or extension to ensure future compliance, or begin cancellation proceedings on the undeveloped portion of the permit pursuant to ORS 537.260 or 537.410, or require submission of a final proof survey pursuant to ORS 537.250;
- (b) The Department shall provide notice of receipt of progress reports in its weekly notice and shall allow a 30 day comment period for each report. The Department shall provide notice of its determination to anyone who submitted comments

phone numbers.*

Proposed Final Order Hearing Rights

- 1. Under the provisions of OAR 690-315-0100(1) and 690-315-0060, the applicant or any other person adversely affected or aggrieved by the proposed final order may submit a written protest to the proposed final order. The written protest must be received by the Water Resources Department no later than **October 9, 2009**, being 45 days from the date of publication of the proposed final order in the Department's weekly notice.
- 2. A written protest shall include:
 - a. The name, address and telephone number of the petitioner;

- If you have any questions about statements contained in this document, please contact Scott Kudlemyer at 503-986-0813.
 - If you have questions about how to file a protest or if you have previously filed a protest and you want to know the status, please contact Patricia McCarty at 503-986-0820.
 - If you have any questions about the Department or any of its programs, please contact our Water Resources Customer Service Group at 503-986-0801.
 - Address any correspondence to : Water Rights and Adjudications Division

Before submitting your Application for Extension of Time, make sure the following items are included:

- This completed Application for Extension of Time.
- Statutory fee of \$350.
- Signature page (last page of this Application for Extension of Time).
- All supporting documentation and/or evidence referenced in the Application for Extension of Time.

MAIL COMPLETED APPLICATION

along with the \$350

STATUTORY FEE TO:

Water Resources Department
Attn: Water Right Permit Extensions
725 Summer Street NE, Suite A
Salem, Oregon 97301

GENERAL TIPS:

- Permit holders of municipal or quasi-municipal water use permits DO NOT use this form. The correct form is *Application for Extension of Time for Municipal and Quasi-Municipal Water Use Permits*, available at the following link:
http://www1.wrd.state.or.us/pdfs/muni_quasi_ext_app_form_6_20_08.pdf
- Request the reasonable amount of time necessary to fully complete the water construction project and/or to fully use the permitted quantity of water under the terms and conditions of your permit. Should this request be approved, it will be OWRD's expectation that you will complete your project within the new time period allowed. Future extensions may not be granted.
- A separate Application for Extension of Time must be submitted for each permit. OAR 690-315-0020(2).
- An instruction sheet (Instructions for Filling Out Extension of Time Application for Permits) provides details that will help you answer each question on the application. Permit extensions are evaluated under OAR Chapter 690, Division 315. These rules may be viewed at:
<http://www.wrd.state.or.us/OWRD/LAW/index.shtml>.

- You may provide OWRD with any additional information or evidence that will aid us in making our decision. Please note that OWRD may require other information that is necessary to evaluate the application. OAR 315-0020(3)(n).
- After careful review of the Application for Extension of Time, you may contact OWRD at (503) 986-0900, to ask questions and request assistance from a Permit Extensions Specialist in the Water Rights and Adjudications Division.
- Once an Application for Extension of Time is received by OWRD, it will be reviewed for completeness. OWRD will return any incomplete or deficient applications to the applicant. OAR 690-315-0040(1)(a).

Reference Materials Needed to Complete this Application:

- The water right permit. If needed, a copy of the water right permit can be downloaded from the Department's Website at <http://www.wrd.state.or.us> (find the link to the Water Rights Information System (WRIS). Or, a copy of the permit (or other documents) may be requested by water right application number from the Water Rights Division at 503-986-0900 (copy fees will apply).
- Documentation which demonstrates compliance with permit conditions (for example, well construction logs; static water level measurement reports; annual water use reports; ODFW fish screen certification; a plan to monitor the effect of water use on ground water aquifers utilized under the permit; etc.).

Answer the Following Questions to Complete this Application for Extension of Time

- [OAR 690-315-0020(3)(d)]
1. Did the actual construction of the water system/well drilling begin within the time specified in the permit? ☒ Yes ☐ No

TIP: *Not all permits specify a date by which construction was to begin.*

Date construction began is: June, 1972

Details of construction:

Dug out 2 springs and weir house location, installed (2) spring manholes, formed and poured weir house box. Constructed building, with lockable door, on top of weir house box. Installed 1,100 lin. ft. of 4" schedule 40 PVC pipe to 12,000 gallon cistern.

RECEIVED

FEB 23 2009

WATER RESOURCES DEPT
SALEM, OREGON

2. Permits typically contain standard or special conditions that must be satisfied to lawfully develop and use permitted water. In the development of this water right, have you satisfied the conditions contained in your permit? [yes/no]

- A) Describe how you have complied with each condition contained in the original permit [and, if applicable, each condition contained in any order approving a permit amendment and/or a final order approving a prior extension of time]. Include the date when the condition was satisfied.

TIP: The instruction sheet for the Application for Extension of Time provides an explanation of the typical conditions that must be addressed in this question.

CHART-A

Condition No. **	Date Satisfied	Describe How Permit Condition Has Been Satisfied
		N/A

-- Condition No: Hand-number each condition on a copy of your permit (and, if applicable, permit amendment and prior extension).

- B) If you have NOT complied with all applicable conditions, explain the reasons why and indicate with a date certain (in the near future) when compliance will occur.

CHART-B

Condition No. **	Date Will Comply	Explain Why Each Permit Condition Has NOT Been Satisfied
		N/A

-- Condition No: Hand-number each condition on a copy of your permit (and, if applicable, permit amendment and prior extension).

3. Provide evidence of physical progress made toward completion of the water system, and of progress made toward making beneficial use of water within the permitted time period (CHART-C); and if applicable, within the time period of the most recent extension granted (CHART-D).

A) CHART-C (below) must be completed for all Application for Extension of Time requests. Use chronological order.

CHART-C

DATE	WORK ACCOMPLISHED BEFORE PERMIT WAS ISSUED <i>List any work done before the permit was issued - eg. well drilled.</i>	COST*
1972	Springs dug out, weir house built, placed 1100 feet of 4" PVC, const. 12,000 gal. cistern.	\$5,500

DATE	WORK ACCOMPLISHED AFTER PERMIT WAS ISSUED and PRIOR TO DATE SPECIFIED IN PERMIT FOR COMPLETE APPLICATION OF WATER <i>List work/actions done during the permitted time period.</i>	COST*
4/3/78	The permit was signed - find date above signature on last page of permit.	
4/78 to 10/81	Install 5000 ft. 6" mainline	\$125,000
4/3/79	The permit specified "Actual Construction Work" shall begin ("A-Date") - not all permits contain this date.	
10/1/81	The permit specified complete application of water to the use shall be made ("C-Date")- all permits contain this date.	

CHART-C (continued)

DATE	WORK ACCOMPLISHED AFTER "C-DATE" <i>COMPETE ONLY IF THIS IS YOUR 1st APPLICATION FOR EXTENSION OF TIME. List work done after the date specified in the permit for complete application of water up to the date of this Application for Extension of Time.</i>	COST*
	This is the 4th extension.	
	Total cost for Chart-C	\$130,500

* If exact cost is not known, you must provide your best estimate.

- B) If this is not your 1st Application for Extension of Time request, fill out CHART-D below (in addition to CHART-C above). *Use chronological order.*

CHART-D

DATE	WORK ACCOMPLISHED DURING THE LAST EXTENSION PERIOD <i>List all work done during the last authorized extension period.</i>	COST*
10/1/86	"Extended From" date for complete application of water used in the 1st (or the most recent) Application for Extension of Time.	
10/86 to 10/91	Installed 5000' feet 6" mainline.	\$200,000
10/1/91	"Extended To" date for complete application of water resulting from the 1st (or the most recent) Application for Extension of Time.	

CHART-D (Continued)

DATE	WORK ACCOMPLISHED AFTER THE LAST EXTENSION PERIOD EXPIRED <i>List all work done after the last authorized date for complete application of water up to the date of this Application for Extension of Time.</i>	COST*
10/91 to date	installed 170 meters with double check valves.	\$ 20,400
	Installed 7,400 feet of 6" mainline.	407,000
Total Cost of Chart-D		\$ 627,400

* If exact cost is not known, you must provide your best estimate.

[OAR 690-315-0020(3)(f)]

4. Cost of project to date: \$ 757,900
(The total combined cost from CHART-C and CHART-D)

RECEIVED

FEB 23 2009

WATER RESOURCES DEPT
SALEM, OREGON

5. Provide the maximum rate, or duty, of water diverted for beneficial use under this permit, made to date.

TIP: Report the rate in the same units of measurement as specified in the permit, being cfs (cubic feet per second), gpm (gallons per minute) or AF (acre-feet - usually only specified on a reservoir water right). Do not provide daily, monthly or annual water volume totals.

Maximum rate used to date = 0.102 cfs (cubic feet per second) or,

Maximum rate used to date = _____ gpm (gallons per minute) or,

Acre-feet to date = _____ AF

6. Provide the total number of acres irrigated to date under this permit (if applicable).

Total acres irrigated to date: _____

7. Provide a summary of your future plans and schedule to complete the construction of the water system, and/or apply water to full beneficial use under the terms and conditions of the permit.

CHART-E

APPROXIMATE DATE RANGE (projected)	WORK OR ACTION TO BE ACCOMPLISHED (projected)	ESTIMATED COST (projected)
2009-2020	Install 6000' 6" mainline, install 100 meters & check valves.	\$463,500
2020-2030	Install 6000' 6" mainline, install 100 meters & check valves.	\$525,000
2030-2041	Install 9100' 6" mainline, install 156 meters & check valves.	\$924,200
Year:	Intend to apply water to full beneficial use under the terms and conditions of this permit.	
Total Cost		\$1,912,700

8. Estimated remaining cost to complete the project: \$1,912,700
(The total cost from CHART-E)

RECEIVED

FEB 23 2009

 WATER RESOURCES DEPT
 SALEM, OREGON

9. List the reasons why the project was not constructed, and/or water was not beneficially used within permit time limits. *Provide supporting information for the reason(s) that best fits your circumstances (A, B, C or D).*

- A) The project is of a size and scope that was originally planned to be phased in over a time frame longer than the one allowed in the permit.

This subdivision grew at a rate of 3% per year from 1972 to 2000. From 2000 to 2007 the growth rate was 3.7% per year compared to the growth rate of Crook County in general of 19.3% for the same time period. Therefore it would seem to be prudent to use a projected growth rate of 3% from this point forward. As the population is currently at 170 dwellings, and the max at build out will be 522, using a projection of 3% growth per year will place build out at approximately 2046. As 3% is a conservative estimate for growth, 2041 is reasonable for an extension date. (See data attached)

- B) The financial resources needed to develop the project precluded completion of the project within authorized time frames.

- C) Good faith attempts to comply with permit conditions and/or acquire permits from other agencies, or otherwise comply with government regulations, delayed completion of the project.

RECEIVED

FEB 23 2009

WATER RESOURCES DEPT
SALEM, OREGON

- D) Acts of God or other unforeseen events delayed full development of the water system and use of water within the authorized time frames.

10. Justify the time requested to complete the project and/or apply the water to full beneficial use. Your justification should combine information from your answers from Questions 2, 3-A, 3-B, 7 and 9 of this Application for Extension of Time, and should also include any other information or evidence to establish that the requested amount of time is sufficient and that you will be able to complete the project within the amount of time requested.

The requested time is justified as the subdivision is at 32.3% of buildout, and is using 43% of the water allotted by the permit. This water use and water allotted is based on this permit as well as permit # 42780 (three additional springs, the extension request for which accompanies this one). There is an emergency backup well (permit # G-12739) that will have to come on line at some time in the future, as the demand for water at buildout will exceed the primary and secondary spring permits max Q.

11. Provide any other information you wish OWRD to consider while evaluating your Extension of Time Application.

I am the permit holder, or have authorization from the permit holder, to apply for an extension of time under this permit. I understand that false or misleading statements in this extension application are grounds for OWRD to suspend processing of the request and/or reason to deny the extension.

Footnote regarding Claim of Beneficial Use. Choose the appropriate language below and insert as a footnote in the PFO:

☐ COBU Requirement - Surface/Ground Water - on or prior to July 9, 1987

"For permits applied for or received on or before July 9, 1987, upon complete development of the permit, you must notify the Department that the work has been completed and either: (1) Hire a water right examiner certified under ORS 537.798 to conduct a survey, the original to be submitted as required by the Water Resources Department, for issuance of a water right certificate; or (2) Continue to appropriate water under the water right permit until the Water Resources Department conducts a survey and issues a water right certificate under ORS 537.250 or 537.625."

☒ COBU Requirement - Surface Water - post July 9, 1987

"Pursuant to ORS 537.230(4), upon the completion of beneficial use of water allowed under the permit, the permit holder shall hire a certified water rights examiner to survey the appropriation. Within one year after the complete application of water to a beneficial use (or by the date allowed for the complete application of water to a beneficial use), the permit holder shall submit a map of the survey and the claim of beneficial use."

☐ COBU Requirement - Ground Water - post July 9, 1987

"Pursuant to ORS 537.630(4), upon the completion of beneficial use of water allowed under the permit, the permit holder shall hire a certified water rights examiner to survey the appropriation. Within one year after the complete application of water to a beneficial use (or by the date allowed for the complete application of water to a beneficial use), the permit holder shall submit a map of the survey and the claim of beneficial use."

REFERENCE: Application for Extension of Time

Dear Extension of Time Applicant:

The Water Rights Section has received your application for an extension of time for **APPLICATION FILE # S-49681 (PERMIT # S-42778**. Your application will be reviewed in the near future. Following the review, you will receive a Proposed Final Order either approving or rejecting the extension of time request. A 45-day protest period begins upon issuance of the Proposed Final Order. After the protest period closes, a Final Order is issued.

If you have questions concerning your extension of time application, please contact Scott Kudlemyer at (503) 986-0813. For general information about the Water Resources Department, you may contact the Water Resources' Customer Service Group at (503) 986-0801 or you may access the Department's Internet home page at: "www.wrd.state.or.us".

*APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, Ochoco West Water District
(Name of applicant)
of Rt. 1 Box 1227, Prineville
(Mailing address)
State of Oregon, 97754, do hereby make application for a permit to appropriate the
following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Two (2) springs, about 100 feet apart
(Name of stream)
a tributary of

2. The amount of water which the applicant intends to apply to beneficial use is 0.50
cubic feet per second.
(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Domestic
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located N 03°00'E 1900 feet
from the S.E. corner of Section 27, T13S, R15E, W.M., Crook County, Oregon
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)
being within the N.W. 1/4 of the S.W. 1/4 of Sec. 26, Tp. 13S
(Give smallest legal subdivision) (N. or S.)
R. 15E, W. M., in the county of Crook
(E. or W.)

5. The main pipe line to pumping station to be 2200 feet
(Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the SE 1/4 of the SE 1/4 of Sec. 27, Tp. 13S
(Smallest legal subdivision) (N. or S.)
R. 15E, W. M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam feet, length on top feet, length at bottom feet;
material to be used and character of construction (Loose rock, concrete, masonry,
rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of Springhouse — Concrete foundation and timber house
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description 10 horsepower 50 gal per min. 365
(Size and type of pump)

T.D.H. vertical turbine wet well booster pump
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Sec. Tp. (No. N. or S.) R. (No. E. or W.) W. M.

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

Municipal or Domestic Supply—

10. (a) To supply the city of Ochoco West Water District,
Crook County, having a present population of 12
(Name of)
 and an estimated population of 1200 in 1982

(b) If for domestic use state number of families to be supplied 600

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 40,000
 12. Construction work will begin on or before September 1972
 13. Construction work will be completed on or before September 1973
 14. The water will be completely applied to the proposed use on or before September 1973

Vernon Dixon
(Signature of applicant)

Vernon Dixon, President
 Ochoco West Water District

Remarks:

The property upon which the water is to be used is described as "Golden
 Horseshoe Ranch Homes Unit 1", a subdivision filed in the records of Crook County,
 Oregon, and is located in the N 1/2 of Section 34 and the S 1/2 of Section 27,
 T 13 S., R 15 E., W.M.

STATE OF OREGON, }
 County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying
 maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with correc-
 tions on or before, 19.....

WITNESS my hand this day of, 19.....

STATE ENGINEER

By ASSISTANT

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.5 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from two springs.

The use to which this water is to be applied is group domestic for 600 families

If for irrigation, this appropriation shall be limited to _____ of one cubic foot per second or its equivalent for each acre irrigated _____

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is September 6, 1972

Actual construction work shall begin on or before April 3, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980

Complete application of the water to the proposed use shall be made on or before October 1, 1981 EXT 10-1-81

WITNESS my hand this 3rd day of April, 1978.

James E. Skerson
Water Resources Director

Application for
Extension of Time
for **Municipal and Quasi-Municipal**
Water Use Permits

Superseded by 154 3/23/09 SA

Make use of this form, *Application for Extension of Time for Municipal and Quasi-Municipal Water Use Permits*, only if the permit uses the word "Municipal" or "Quasi-municipal" in the description of the purpose or use to which water is to be applied.

TO THE DIRECTOR OF THE OREGON WATER RESOURCES DEPARTMENT

A separate extension application must be submitted for each permit as per OAR 690-315-0070(2). This page, with an original signature by the permit holder of record, must accompany any application for extension of time.

This application and a summary of review criteria and procedures that are generally applicable to this application are available at <http://www.wrd.state.or.us/OWRD/PUBS/forms.shtml>

GENERAL TIPS:

- A separate Application for Extension of Time must be submitted for each permit. OAR 690-315-0070(2).

- request the reasonable amount of time necessary to fully develop the permit and complete the project. If you don't request enough time, OWRD may be unable to find that you can complete the project within the time requested.
- permit extensions for municipal and Quasi-municipal permits are evaluated under OAR Chapter 690, Division 315. Except under limited circumstances (see OAR 690-315-0090), upon issuance of an order approving an extension of time, the permit holder will be required to submit a Water Management and Conservation Plan (WMCP) under OAR Chapter 690, Division 80 within 5 years. Diversion of water beyond the maximum rate currently diverted under the permit shall only be authorized upon approval of a WMCP. These rules may be viewed at: <http://www.wrd.state.or.us/OWRD/LAW/index.shtml>.
- The Application for Extension of Time includes more detailed tips and instructions to help you respond to each item of the application. Oregon water law and administrative rules require the OWRD to consider each of these items when reviewing a Municipal or Quasi-Municipal water use Application for Extension of Time. However, please feel free to provide OWRD with any additional information or evidence that will aid us in making our decision. Please note that OWRD may require other information that is necessary to evaluate the application. OAR 315-0070(3)(p).
- After careful review of the Application for Extension of Time, you may contact OWRD at (503) 986-0900, to ask questions and request assistance from a Permit Extensions Specialist in the Water Rights and Adjudications Division.
- Once an Application for Extension of Time is received by OWRD, it will be reviewed for completeness. OWRD will return any incomplete or deficient applications to the applicant. OAR 690-315-0080(1)(a).

Reference Materials Needed to Complete this Application

Below is a listing of the items that must be reviewed and considered when completing an Application for Extension of Time for a municipal or Quasi-municipal water use permit:

- The subject water right permit. If needed, a copy of the water right permit can be downloaded from the Department's Website at <http://www.wrd.state.or.us> (find the link to the Water Rights Information System (WRIS). Or, a copy of the permit (or other documents) may be requested by water right application number from the Water Rights Division at 503-986-0900 (copy fees will apply).
- water management and Conservation Plan (OAR Chapter 690, Division 80), *if applicable*, per OWRD.
- Water System Master Plan, *if applicable*, per Oregon Health Division.
- Documentation which demonstrates compliance with permit conditions (for example, well construction logs; static water level measurement reports; annual water use reports; a long-term alternative water supply plan; a plan to monitor the effect of water use on ground water aquifers utilized under the permit, etc.).
- All other water rights (certificates, permits, permit amendments, transfers, and/or new applications) held by the applicant.

RECEIVED

JAN 23 2009

Definitions Pertinent to this Application for Extension of Time

WATER RESOURCES DEPT
SALEM, OREGON

Actual Construction - any physical work performed toward completion of the water system which demonstrates the water right permit holder's good faith and intention to complete the project with reasonable diligence. Actual construction does not include planning a diversion system, formulating a business plan, securing financing, letting contracts, purchasing but not installing equipment, or surveying. This definition applies to quasi-municipal permit holders, required under the applicable statute, and for municipal water use permits issued on or after June 29, 2005. OAR 690-315-0070(3)(c) and (d), and OAR 690-315-0020(3)(A) and (B).

C-Date - the date specified in the permit for complete application of water.

Permitted Time Period - period of time between the date when the permit was signed *and* the date specified in the permit for complete application of water

Time Period of the Previous Extension - For 2nd Application for Extension of Time - period of time between the date specified in the permit for complete application of water and the new "extended to date" for complete application of water specified in the 1st approved extension.

For 3rd or Application for Extension of Time - period of time between the "extended from date" for complete application of water and the "extended to date" for complete application of water specified in the most recently approved extension.

Undeveloped Portion of the Permit - the portion of the permit that is the difference between the maximum rate, or duty if applicable, specified in the permit and the maximum rate, or duty if applicable, diverted for beneficial use before the extension. OAR 690-315-0010(6)(g).

Work and Actions Accomplished - includes both physical work and other activities associated with the development of the water right, such as: water management planning; conservation planning; development of a water master plan for the Oregon Health Division; planning of a diversion system; demand forecasting; flow or water quantity monitoring; source evaluation; entry into intergovernmental agreements for water delivery; property acquisition; engagement in governmental permitting or project financing; procurement of planning, design or construction services; surveying; and any physical work performed toward completion of the system and development of the right (e.g., pumps; pipes; well construction; treatment plant/facilities; transmission systems; distribution systems; and/or intake structures). OAR 690-315-0080(4).

Completing the Extension of Time Application for Quasi-Municipal or Municipal Use Permits

On separate sheets of paper, please provide the information requested by item numbers 1-15. OWRD will use this information to evaluate your Application for Extension of Time. *This is not meant to be a fill-in-the-blank type of application.* A Microsoft Office Word template (.dot) for this Application for Extension of Time (For Quasi-Municipal and Municipal Water Use Permits) may be available from the Extension Specialist at OWRD.

TIP: When making a reference to any document, report, and/or plan:

RECEIVED (1) reference the source document along with any page number(s), table(s) and/or chart(s) used in the response, and

JAN 23 2009 include a copy of the source document (or appropriate pages) with the extension application.

WATER RESOURCES DEPT
SALEM, OREGON

OAR 690-315-0070(3)

1. **Submit the appropriate extension of time fee (\$550), as specified under ORS 536.050.**
If the extension application fee has already been paid, please provide indicate why and when it was paid.
The statute for this fee may be viewed at www.leg.state.or.us/ors/536.html.

[OAR 690-315-0070(3)(c)]

2. **For Quasi-Municipal water use permit holders, provide evidence of the actions taken to begin actual construction on the project if required under the applicable statute.** All Quasi-Municipal permits issued prior to October 23, 1999, are generally required to begin actual construction within one (1) year.

Preferred format for item 2:

Begin Date 5-72 . Construction of Springs began.
(month/year) (details)

[OAR 690-315-0070(3)(d)]

3. **For Municipal water use permits issued on or after June 29, 2005, evidence of the actions taken to begin actual construction on the project.**

[OAR 690-315-0070(3)(e)]

4. **Provide evidence of actions taken to develop the water right permit within the permitted time period and/or within the time period of the previous extension.**

INSERT DATES	ALL WORK AND ACTIONS ACCOMPLISHED BEFORE PERMIT WAS ISSUED <i>List work/actions done before the permitted was issued – eg. Well drilled.</i>	COST ¹
1972	Springs dug out, weir house built, placed 1100 feet of 4" PVC, const. 12,0000 Gallon cistern	\$5,500
INSERT DATES	ALL WORK AND ACTIONS ACCOMPLISHED DURING PERMITTED TIME PERIOD (after permit was issued and prior to permit "C-date") <i>List work/actions done during the permitted time period.</i>	COST
4/3/78	The permit was signed - find date above signature on last page of permit.	
4-78 to 10-81	Install 5000' 6" mainline	125,000
4/3/79	The permit specified "Actual Construction Work" shall begin ("A-Date") -not all permits contain this date.	
10/1/81	The permit specified complete application of water to the use shall be made ("C-Date") - all permits contain this date.	

INSERT DATES	ALL WORK AND ACTIONS ACCOMPLISHED AFTER PERMIT "C-Date" and PRIOR TO ANY EXTENSION OF TIME REQUEST <i>For the 1st Application for Extension of Time: List work/actions done after the permit "C-date" up to the date of this extension request.</i> <i>For Other than the 1st Application for Extension of Time: List any work/actions done after the permit C-Date but prior to the most recent extension.</i>	COST
10-81 to 10-86	Install 5000' 6" mainline	150,000
	Maint. @ \$200/yr	1,000
INSERT DATES	ALL WORK AND ACTIONS ACCOMPLISHED DURING THE MOST RECENT EXTENSION OF TIME GRANTED <i>For Other than 1st Application for Extension of Time: List any work/actions done during the time period most recent extension.</i>	COST
10/1/86	Last "Extended From Date" for complete application of water (used on the most recently approved extension of time).	
10-86 to 10-91	Install 5000' 6" mainline	200,000
	Maint @ \$300/yr	1,500
10/1/91	Last "Extended To" date for complete application of water (resulting from the most recently approved extension of time).	
INSERT DATES	ALL WORK AND ACTIONS ACCOMPLISHED AFTER THE MOST RECENT EXTENSION OF TIME GRANTED <i>List work/actions done after the last authorized date for complete application of water has passed.</i>	COST
10-91 to 10-2007	Put springs 3, 4, & 5 on line	28,500
	Install 170 meters with double check valves	20,400
	Install 7,400 ' 6" mainline	407,000
	Maint. @ \$600/yr	9,600
Total Cost to Date		\$ 948,500

¹ In combination with Item 8

[OAR 690-315-0070(3)(1)]

5. Provide evidence of compliance with conditions contained in the original permit, and any previous extension(s), or the reason the condition was not satisfied.

A. The only reason that all permit conditions have not been complied with, is the much slower than anticipated rate of growth of the subdivision.

RECEIVED

JAN 23 2009

WATER RESOURCES DEPT
SALEM, OREGON

B. N/A

[OAR 690-315-0070(3)(g)]

6. Provide evidence of the maximum rate, or duty if applicable, of water diverted for beneficial use under the permit and/or prior extensions of time, if any, made to date.

Preferred format for item 6:

Maximum instantaneous rate used to date = SEE ATTACHED SHEET_0.074_cfs (cubic feet per second) or,

Maximum instantaneous rate used to date = _____ gpm (gallons per minute) or,

Acre Feet stored to date= _____ AF

[OAR 690-315-0070(3)(h)]

7. Provide an estimate of the population served under this permit and a description of the methodology(ies) used to make the estimate.

According to the US Census of 2006, the average household in Crook County contains 2.36 persons. There are 170 households in the subdivision. The estimated population would therefore be 400 persons in the subdivision.

[OAR 690-315-0070(3)(i)]

8. Provide a description of the financial expenditures made toward completion of the water development under this permit.

Preferred Format for Item 8: Answer in conjunction with Item 4

DATE	WORK OR ACTIONS ACCOMPLISHED	COST
1981-2007	Install 22,400 feet 6" mainline Springs 3,4, & 5 put online	\$882,000 \$ 28,500
	maintenance	\$ 12,100
	Install 170 meters	\$ 20,400
Total Cost		\$943,000

WATER RESOURCES DEPT
SALEM, OREGON

[OAR 690-315-0070(3)(j)]

9. Provide an estimate of the cost necessary to complete the water development.

APPROXIMATE DATE RANGE (projected)	WORK AND ACTIONS TO BE ACCOMPLISHED (projected)	ESTIMATED COST (projected)
2009 - 2020	Install 6000' 6" mainline Install 100 Meters & check valves	\$450,000 13,500
2020 - 2030	Install 6000' 6" mainline Install 100 Meters and check valves	\$510,000 15,000
2030 - 2040	Install 6000' 6" mainline Install 100 Meters and check valves	\$570,000 17,500
2040 - 2045	Install 3100' 6" mainline Install 56 Meters and check valves	\$325,500 11,200
Total Cost		\$1,912,700

[OAR 690-315-0070(3)(k)]

10. Provide a summary of any events that delayed completion of the water development or application of water to full beneficial use, including other governmental requirements (if any), relating to the project that have significantly delayed completion of construction or perfection of the right.

As mentioned above, the slower than anticipated rate of growth is the limiting factor in perfection of the right.

[OAR 690-315-0070(3)(l)]

- 11-A. Provide an estimated demand projection and a description of the methodology(ies) used for the subject water right permit, considering the other water rights held by the municipal or quasi-municipal water use permit holder, and a date by which the water development is anticipated to be completed and water put to full beneficial use.

In developing your estimated demand projections for the permit being extended, you should include the following items:

- a) Inventory of Water Rights Held
See "Attachment A"
- b) Water Supply Contracts and/or Agreements
N/A
- c) Current Peak Water Demands
0.224 cfs (See sheet 6)

RECEIVED

JAN 23 2009

WATER RESOURCES DEPT
SALEM, OREGON

- d) Projected Population
This subdivision grew a rate of 3%± from 1972 to 2000. From 2000 to 2007 the growth rate was 3.7%± as opposed to the growth rate of Crook County in general of 19.3% or the same time period. (See census data attached) 3% would therefore seem a reasonable projection for future growth.
- e) Future Peak Water Demands

future peak water demands should parallel the growth rate. By 2048 the population should approach build out at 526 homes by applying the 3% growth rate, and by extrapolating the future demand based on present use, the future water use should be approximately 182700 gal/day or a constant use of 0.28 cfs. We can't calculate the future max instantaneous rate as we don't know what type of pump will be in use at that time.

1) Potential Growth

There is little that would change the 3% projected rate. If Deschutes and Jefferson Counties both become saturated some of the overflow would perhaps come this way.

g) Completion Date

Based on the 3% growth rate, max build out and therefore completion of water development should occur in approximately 2048.

[OAR 690-315-0070(3)(l)]

- 11-B. Application for Extension of Time requests for greater than 50 years must include documentation that the demand projection is consistent with the amount and types of lands and uses proposed to be served by the permit holder.

N/A

[OAR 690-315-0070(3)(m)]

12. Provide a summary of the future plan and schedule to complete construction and/or perfect the water right.

APPROXIMATE DATE RANGE	WORK AND ACTIONS TO BE ACCOMPLISHED	ESTIMATED COST ¹
2009-2020	Install 6000' 6" mainline Install 100 meters and check valves	\$450,000 13,500
2020-2030	Install 6000' 6" mainline Install 100 meters and check valves	\$510,000 15,000
2030-2040	Install 6000' 6" mainline Install 100 meters and check valves	\$570,000 17,500
2040-2045	Install 3100' 6" mainline Install 56 meters and check valves	\$325,500 11,200
Total Cost		\$1,912,700

¹ In combination with Item 8

RECEIVED

JAN 23 2009

WATER RESOURCES DEPT
SALEM, OREGON

[OAR 690-315-0070(3)(n)]

13. Justify the time requested to complete the project and/or apply the water to full beneficial use.

The slow growth rate over the years is the prime reason for the need for an extension of time to allow the need arise before applying water to full beneficial use.

[OAR 690-315-0070(3)(o)]

14. Provide any other information you wish OWRD to consider while evaluating the Application for Extension of Time

[OAR 690-315-0070(3)(q)]

15. For Municipal water use permits issued before November 2, 1998, for the first extension issued after June 29, 2005, provide a copy of any agreements regarding use of the undeveloped portion of the permit between the permit holder and a federal or state agency that include conditions or required actions that maintain the persistence of listed fish species in the portions of the waterways affected by water use under the permit.

*APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Oregon

I, Ochoco West Water District
(Name of applicant)
of Rt. 1, Box 1227, Prineville
(Mailing address)
State of Oregon, 97754, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Two (2) springs, about 100 feet apart
(Name of stream)
a tributary of

2. The amount of water which the applicant intends to apply to beneficial use is 0.50
cubic feet per second.
(If water is to be used from more than one source, give quantity from each)

*3. The use to which the water is to be applied is Domestic
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located N 03°00'E 1900 feet
ft. and ft. from the S.E.
(N. or S.) (E. or W.)
corner of Section 27, T13S, R15E, W.M., Crook County, Oregon
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)
being within the N.W. 1/4 of the S.W. 1/4 of Sec. 26, Tp. 13S
(Give smallest legal subdivision) (N. or S.) (E. or W.)

R. 15E, W.M., in the county of Crook
(N. or S.) (E. or W.)

5. The main pipe line to pumping station to be 2200 feet
(Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the SE 1/4 of the SE 1/4 of Sec. 27, Tp. 13S
(Smallest legal subdivision) (N. or S.) (E. or W.)

R. 15E, W.M., the proposed location being shown throughout on the accompanying map.
(N. or S.) (E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam feet, length on top feet, length at bottom feet; material to be used and character of construction
(Give rock, concrete, masonry, loose rock, etc., waterway over or around dam)

(b) Description of Springhouse Concrete foundation and timber house
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description 10 horsepower, 50 gal. per min., 365
(Give and type of pump)

T.D.H. vertical turbine wet well booster pump
(Give and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity with the extension of transmission lines to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions to the State Engineer, Salem, Oregon.

We have received the notice that complete application of water has been made under Permits 42778, 42779, and 42780.

It is my understanding that you will make an inspection and survey of the project. If that is not correct, our staff will make the survey.

We will mail proposed certificates of water right covering the actual use of water as found by the survey. Any use described in the permits that was not made will not be included in the certificates.

In the meantime, the permits are valid evidence of the right so long as water is used.

If you have any questions, please contact the Water Rights Section at 378-3739.

Sincerely,

Thomas E. Shook
Water Right Specialist

REFERENCE: File 49681

According to the terms of your Permit 42778 complete application of water was to have been made by October 1, 1991.

Complete application of water means use of the water for the beneficial purpose described in the permit to the full extent intended. (In the case of irrigation, it means beneficial irrigation of the lands the permittee intends to cover.) This may be a smaller amount than the permit allowed. If the water has been used, you should promptly submit notice describing the extent of completion as set forth in the letter accompanying your permit and also in our postal card of October 28, 1991.

ORS 537.260 provides that: "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the Water Resources Director proof of completion of the appropriation as required by ORS 537.230 and 537.250, the Water Resources Director may, after 60 days notice by registered mail, order the cancellation of the permit."

You are hereby notified that, unless proof of beneficial use is received within 60 days from the date of this letter, the permit may be canceled without further notice.

If you are no longer interested in the project described by the permit, we would appreciate being advised. If the property involved has been sold and any part of the project was completed, you should assign the permit to the new owner. An assignment form will be furnished upon request.

If additional information is needed, please contact the Water Rights Section.

Prineville, OR 97754

Dear Mr. Cruzen:

REFERENCE: Files 49681, 50254 and 50255

Pursuant to your phone call on August 26, 1981, I inspected the three Permits 42778, 42779, 42780 in the name of Ochoco West Water District. All three of these permits were issued for group domestic for 600 families. Evidently the information you had regarding a limitation of 50 home sites must have come from some other department.

Since the information you gave me was that further extensions will be necessary to allow all the homes to be included that are intended to be built within the project, I'm taking the liberty of sending extension forms with this letter. Please fill each form out giving us as much information as you have available, and submit it to this office along with the statutory fee in the amount of \$20 for each permit. If I can be of any further help please let me know.

Sincerely,

BRUCE A. ESTES, Supervisor

Prineville, OR 97754

Reference File # 49681

According to the report submitted by our field engineer, you have not made use of water to the extent intended within the limits of your permit number 42778, although the notices of completion of construction and complete application of water were submitted.

Under the terms of your permit, the dates for completion of construction work and for complete application of water are October 1, 1980, and October 1, 1981, respectively; therefore you have more time to complete the construction work and to complete the group domestic use. We will mark the notices previously submitted as premature.

I am enclosing another Form B and C for your use in reporting to us completion of construction work and complete use of water when applicable.

Sincerely,

Larry Toll
Water Rights Engineer

**WATER RESOURCES DEPT.
SALEM, OREGON**

Dear Mr. Smart:

On September 6, 1972, a water right application was received by this office in the name of the Ochoco West Water District. On April 3, 1973, two additional filings were received. After some correspondence regarding the applications, they were completed and put in line for issuance of permits.

At this point they were apparently returned to the files without further action having been taken towards issuing the permits, where they have remained to this date.

The applications are in good order and the only problem at the moment is that we have not known with whom to correspond. Your name was given to me by Mr. Robert Main, the Watermaster, as being the person with whom we should correspond.

Would you please tell us if you are in fact designated to serve as agent for the Ochoco West Water District. If so, we will communicate with you in our future correspondence regarding these rights.

Very truly yours,

Ralph H. Jackson

WATER RESOURCES DEPT.
CLERK, OREGON

TO: Ralph Jackson

DATE: Feb. 28, 1978

FROM: Bob Main

SUBJECT: Files #49681, 50254, 50255

The man in charge of Ochoco West Water District is:

Quentin Smart
Rt 1 Box 1229
Prineville, Ore.
97754

Two springs are presently being used, water is pumped to a storage tank from which it is distributed to about 18 lots.

STATE OF OREGON

INTEROFFICE MEMO

TO: Bob Main, Watermaster, Dist. #11

DATE: February 21, 1978

FROM: Ralph H. Jackson, Water Rights Engineer

SUBJECT: Files No. 49681, 50254, 50255

The most recent of these applications, in the name of Ochoco West Water District, was received April 3, 1973. No permits have yet been issued, and the reason for this escapes me.

At any rate, I am having some difficulty contacting any of the people whose names appear in the application and subsequent correspondence. I would appreciate it if you would check county records and/or discuss with people who live in the area, who presently has the responsibility for the operation of the District. I am enclosing a copy of one of the maps; the area of use is identical for all three.

I am going to have to have the name of some person with whom to communicate and to whom we may send the permit. If you can come up with a name and address of such person, please let me know.

Prineville, OR 97754

Gentlemen:

This will acknowledge your application for a permit to appropriate 0.5 cubic foot of water per second from two springs for domestic use for 600 families. Also acknowledged is a reproducible map, a spring description sheet, and the fees of \$25 for which our receipt numbered 30528 is enclosed. This application has been filed and numbered 49681.

The waters of Lytle Creek, which includes flows from all tributaries, is fully appropriated during the irrigation season and we do not believe there will be water available from your proposed sources to furnish an adequate supply for your intended uses.

We will write at a later date advising you of any additional information that may be required to complete your application.

Very truly yours,

WAYNE J. OVERCASH
Assistant

Ochoco Irrigation District
Box 6
Prineville, OR 97754

ATTENTION: LASELLE E. COLES

Gentlemen:

The Ochoco West Water District has submitted an application for a permit to appropriate 0.5 cubic foot of water per second from 2 springs located North 03°00' East 1900 feet from the Southeast corner of Section 27, being within the NW 1/4 SW 1/4 of Section 26, Township 13 South, Range 15 East, W. M. in the county of Crook for domestic use for 600 families. Enclosed is a notice of their filing.

According to their map and the spring description sheet submitted with their application, the springs are tributaries of Lytle Creek which flows through your district.

Our records indicate that the springs and their proposed place of use are outside of your district boundary, but since the project is relatively close to your district boundary and they propose the use of water from a tributary of Lytle Creek, you are being notified of their filing.

Very truly yours,

WAYNE J. OVERCASH
Assistant
