Dear Sir:

Enclosed is the water right information you requested in your letter dated December 17, 1986. Copying fees in the amount of \$19.90 have been deducted from your account leaving a balance of \$82.65 remaining.

While in most cases the rights described by the certificates will be valid, you are cautioned that the rights or any portion thereof may be lost through intentional abandonment or forfeited by five successive years of non-use. Our records will not show that any portion of a right has been lost until a cancellation proceeding has been completed.

I have enclosed an assignment form for the permits G-4789, G-3169, G-3624, and G-3691, which will need to be completed and signed by a representative of Victorio Company if it is the intention of INA Life Insurance Company to assume these permits.

If I can be of further assistance please don't hesitate to contact me.

Gentlemen,

We have applied your check in the amount of \$11.00 to assignment and copying fees. The \$4.00 previously submitted has been used as a filing fee for the certificates listed on the ground water assignment sheet.

The assignment of the following permits from Allied Properties to you have been recorded in the records of the Water Resources Department.

G-3169 G-3624
G-3691 G-4789
32944 22338

Our records have been changed accordingly, and the original is enclosed.

Any perfected right evidenced by a certificate of water right is appurtenant to the land upon which the right was established and travels with the land through change of ownership. The law does not provide for making a change of ownership of such a right a matter of record in our office, but we have shown Roaring Springs Associates as "Present Owner" on the files.

Sincerely,

Thomas E. Shook
Water Rights Engineer

Dear Mr. Freeland:

The only assignments needed from Allied Properties to be submitted to this office for recording are those for:

<u>Application</u>	<u>Permit</u>
G 3848	G 3624
G 3331	G 3169
G 5072	G 4789
G 3936	G 3691
32251	25441
28563	22338
44100	32944

You sent copies of these except for Permit No. G 4789 and I am enclosing a copy of this.

All the other rights appurtenant to the lands are perfected rights evidenced by certificates and are appurtenant to the lands described. There is no statutory provision for reissuing certificates to show subsequent owners of the land. They remain appurtenant to the lands regardless of ownership, but the owner of the lands can make application for approval of a change of place of use. The rights are subject to forfeiture for failure to use the water for five successive years.

The permits require further action. Notices of completion of use of water have been submitted but the usual final proof surveys for determination of extent of use have not been made. The permits are valid to the extent of use within the terms of the permits.

I have gone through the document copies you submitted and have stapled together those pertaining to a single right. You included some proof of appropriation copies, permits for which were issued and one I didn't find in the description but may have been mistaken. I am returning all of the copies rather than detailing which documents go together.

In addition to the permit copy, I am enclosing copies of 21 certificates. These include lands in the description furnished but may include adjoining lands not in the description. To meet your time request I am sending these prior to receipt of copying fees. The 33 pages require a fee of \$9.00.

If you need to refer to certificates the reference should be the page number at the bottom with reference to State Record of Water Right Certificates. The numbering is not repeated by volume so this number isn't necessary.

Sincerely,

Trevor Jones

Gentlemen:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit No. G-3624.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

Gentlemen:

This will acknowledge receipt of your application for a permit to appropriate 1 cubic foot of water per second from well No. 2 for the irrigation of 80 acres, a map, and the fee of \$16.50 for which our receipt No. 2970 is enclosed. This application has been filed and numbered G-3848.

Due to a recent change in the fees by legislature, this application requires an additional fee of \$11 to record the irrigation of 80 acres.

Your statement in the section provided for remarks indicates that well No. 2 will produce 3000 gallons of water per minute and requests that Permit No. G-3169 be amended to indicate this quantity. I am sorry, but once a permit is issued it cannot be enlarged. This will require another application for a permit to appropriate the additional quantity of water.
