Attention: Leonard B. Stafford, Assistant Vice President

Gentlemen:

This will acknowledge receipt of your application for a permit to appropriate 3000 gallons of water per minute from well No. 2 for irrigation and supplemental irrigation of 560 acres, a map, and the fee of \$55.50 for which our receipt No. 3813 is enclosed. This application has been filed and numbered G-3936.

Item No. 12 on the application describes the irrigation of 40 acres SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 19. The application map does not show any land to be irrigated in this forty.

The application map shows some land to be irrigated in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 30, which has not been entered into item No. 12 on the application.

All of the land shown to be irrigated in item No. 12 on the application now has existing rights or applications pending. Therefore, all of the land should be designated as supplemental irrigation.

Your application No. G-3848, which was filed on March 16, 1967, was for the irrigation of 80 acres in the West half of the SE $\frac{1}{4}$ of Section 19. This 80 acres is to be irrigated from well No. 2 and the maximum quantity of water allowed for the irrigation of 80 acres has been filed on. Therefore, this particular 80 acres should be deleted from the new application, as it is an exact duplication of your earlier one.

I am returning your application and the map for correction. The application is endorsed so that in order to retain its date of priority, it must be returned on or before August 14, 1967.

Very truly yours,

CHRIS L. WHEELER
State Engineer
