REPORT OF PERSON MAKING INSPECTION

Description of works:

Only two pieces of Land involved in
This App. & Permit.
That piece of Land South of the Main Levee
in sec 11 12 13 & 14. Div. Pt from Levee is
4 ft wide x 3 ft dp. There is no ditch system
The water Just runs where it will.
Grass among the Sage.

The other piece is due west from the 1600 A.F.
Res. This Land is Grass among the Sage also.
also No ditch system, simply overflow among the Sage.

The first land gets water from Cuany Canyon & Black Canyon
Creeks & from Roaring Springs That is caught by Levee's
& then disposed. The second gets its water from
3 mile Cr.

These lands under Cuany Canyon & Black Canyon Cr. &
Roaring Springs are not irrigated. Also there was no
ditch found from Home Cr. that could irrigate
that piece of Land 4 miles away.

I, Thomas R. Lauer, do hereby certify that I have made
an inspection of the works described herein and in Permit No. 24495, on the 12th day
of Sept, 1967, and found the foregoing statements and descriptions of works to
be accurate. In my opinion the appropriation has been completed to the extent of
(Quantity of water in second-feet or acre-feet)
and I recommend the issuance of water right certificate for this amount.

NOTICE TO INSPECTORS

If conditions do not justify the above report by you, please return this form without your signature, with a full report by letter.

The principal diversion for lands in section 30 Twp. 33 S. Range 32 E.W.M. and section 25 Twp. 33 S. Range 31 E.W.M. is located 1200 feet S. and 100 feet W. from the N. $\frac{1}{4}$ corner of section 31 Twp 33 S. Range 32 E.W.M. being in the SE NW of section 31 and dams and ditches from Black Canyon and Cueny Canyon Creeks.

The principal diversion for lands in sections 11, 12, 13 and 14 Twp. 34 S. Range 31 E.W.M. are located in the SE SW Section 31 Twp 33 S. Range 32 E.W.M. the SW SE section 31 Twp. 33 S. Range 32 E. and NW Quarter sec. 6 Twp. 34 S. Range 32 E.W.M. and flowing out over sections 30 and 31 Twp. 33 S. Range 32 E.W.M. and sections 25, 35 and 36 Twp 33 S. Range 31 E.W.M. and sections 1 and 2 Twp. 34 S. Range 31 E.W.M. and section 6 Twp. 34 S. Range 32 E.W.M. and through levees and diversions on sections 11 and 12 Twp. 34 S. Range 31 E.W.M.

The diversion points for section 36 Twp. 34 S. Range 31 E.W.M. are same as for sections 11, 12, 13 and 14 and from Dry Creek which flows over sections 20, 21, 28, 29, 30 and 31 Twp 34 S. Range 32 E.W.M.

The principal diversions for sections 33, 34 and 35 Twp. 35 S. Range 32 E.W.M. and sections 23 and 26 Twp. 35 $\frac{1}{2}$ S. Range 32 E.W.M. are waters from Dry Creek which flow into levees in sections 8 and 9 Twp. 35 S. Range 32 E.W.M. Home Creek where main diversions are s. 1720 feet from N $\frac{1}{4}$ corner of section 10 Twp 35 S. Range 32 E.W.M. and flow south through levees, channels, ditches and natural water ways, and from Three Mile Creek where principal diversions are in the NW quarter of section 26 Twp. 35 S. Range 32 E.W.M. and flow south through canals channels and through reservoir gate in section 36 Twp. 35 S. Range 32 E.W.M.

Equal amount of water from each stream will be used in the irrigation of the lands included in the application.

The Headgates are constructed of Concrete Timber and iron culberts equiped with Calco gates

HEREBY CERTIFY THAT THIS MAP WAS PREPARED FROM MAPS MADE DURING THE ADJUDICATION SURVEY OF ROCK CREEK, HOME CREEK, ROKING SPRINGS CREEK, THREE MINE CREEK, DRY CREEK, H.L. CREEK, SKULL CREEK AND BLACK CANYON CREEK AND AN ACTUAL SURVEY BY MYSELF AND REPRESENTS THE LOCATION OF INITIAL POINTS, CORNERS, STREAMS, DAMS, LEVEES, NATURAL WATER CHANNELS AND MAIN DIVERSIONS AND LANDS TO BE IRRIGATED IN THE APPLICATION OF GILL CATTLE COMPANY TO APPROPRIATE WATER FROM ABOVE NAMED STREAMS EXCEPT SKULL CREEK AND H.L. CREEK. AND THE PARTIAL TRACTS IN EACH 90 ACRE TRACT BEING CONTOURED ON THE ADJUDICATION MAP SHOWING THE EXACT PART IN EACH 90 ACRE TRACT. WHEN HE WAS DETERMINED, THEREFORE THE TRACTS HAVING LESS THAN 90 ACRES ANY 90 ACRE TRACT ARE NOT BEING SHOWN.

San Francisco, California 94102

Gentlemen:

This will acknowledge receipt of your letter dated March 25, 1966.

On November 30, 1965, we mailed the certificate of water right confirming permit No. 24495 to the County Clerk of Harney County, Burns, Oregon, for recording, together with the instructions that they mail the certificate to Allied Properties.

This would have been mailed to Allied Properties, Frenchglen, Oregon, as this is the address of record for the water right permit No. 24495.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Gentlemen:

Enclosed is the final proof in connection with the incomplete water right represented by your permit No. 24495.

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of your permit. The proof should be dated and signed by you and returned to this office.

Upon receipt of the proof, properly executed and accompanied by the statutory recording fee of \$1, a certificate of water right will be issued confirming the right thereunder and, after being recorded in the county records, will be forwarded to you.

Very truly yours,

CHRIS L. WHEELER
State Engineer

c/o Clarence Young
Water Master
Burns, Oregon

Dear Mr. Young:

The notice of complete application of water for Permits 22338 and 24495 are satisfactory, however, a notice for Permit No. 22338 had previously been submitted by Gill Cattle Company.

The date for beginning of construction under the terms of Permit No. 24495 was December 20, 1957, and a notice of beginning of construction indicating that the start was made before this date should be submitted. This permit covers the appropriation of water from Cueny Canyon, Black Canyon, Home and Three Mile Creeks, and Roaring Springs.

If you have personal knowledge of beginning of this project, your statement will probably suffice.

Very truly yours,

LEWIS A. STANLEY
State Engineer

Dear Sirs;

Mr. J. B. Fine who was Superintendant of the Gill Cattle Co and who is now Superintendant for Allied Properties successors in interest of The Gill Cattle Company has handed me the assignments of a permit for the waters of Wildhorse Creek and Tributaries and a permit for the use of the Home Creek, Roaring Springs Dry Creek and Black Cannon Creek from Gill Cattle Company to Allied Properties. Also making an affidavit that the waters have been applied to the lands in each permit.

As Mr. Fine has not been able to locate the permits yet so the affidavits that are attached to the permits will not be included so have prepared an affidavit with his signature attached to same.

If these affidavits do not conform with your requirements, you may send some blank forms of which I will have him fill out and sign.

Thanking you for your consideration in this matter, I remain,

Very truly yours

December 20, 1956

Gill Cattle Company
Prineville, Oregon

Gentlemen:

Enclosed find Application No. 30147, Permit No. 24495, with blueprint.

PLEASE READ CAREFULLY THE FOLLOWING INSTRUCTIONS

Your permit has been recorded in this office but you should hold the original permit as evidence of your water right. If the land is sold an assignment to the new owner should be recorded in this office. Assignment blanks will be furnished upon request.

The permit, which appears on the last page of the application, limits the time within which you may begin and complete construction of your project. According to the law you must begin actual construction work within one year from the date of issuance of the permit or your right will be lost. The State Engineer is authorized to extend the time for completion of the project on proper showing but has no authority to extend the time limit for beginning of construction work.

Forms are attached to the permit for your convenience in submitting notice when construction begins, when it is completed and when the water has been completely applied to the proposed use, unless you have already submitted such information.

If your use of water is for irrigation, proof can be made and certificate issued only after you have actually irrigated ALL of the land described in the permit which you intend to irrigate at any time.

Whenever a measuring device becomes necessary for the proper distribution of water, the permittee will be required to install one to the satisfaction of the State Engineer as provided by ORS 540.310 and 540.330.

In connection with your proposed appropriation, please be advised that the late summer flow in most of the streams is required to satisfy existing rights and your permit as provided by law, grants a right to use water only when there is a surplus in the source involved over and above that required to satisfy prior rights.

Very truly yours,

Lewis A. Stanley

RECEIVED
AUG 4 1955
STATE ENGINEER
SALEM, OREGON

Dear Sirs;

I am returning the application of Gill Cattle Company together with the map showing lands that are to be irrigated. I have checked and rechecked both map and application to see if any discrepancies have been made or if the map and application is in proper shape, and if you find anything is not regular or proper I will correct. It is rather a complicated application to make for the waters of the different streams intermingle so much and the channels completely disappear for a distance and then a well defined channel appears again. Thanking you for your consideration in this matter, I remain,

Very truly yours

PLEASE READ CAREFULLY THE FOLLOWING INSTRUCTIONS:

Your permit has been recorded in this office, but you should hold the original permit as evidence of your water right unless the land upon which the water is to be used is disposed of. In that event an assignment to the new owner should be recorded in this office. Assignment blanks will be furnished on request.

The permit, which appears on the last page of the application, limits the time within which you may begin and complete construction of your project. According to law you must begin actual construction work within one year from the date of issuance of the permit, or your right will be lost. The State Engineer is authorized to extend the time for completion of the project on proper showing, but has no authority to extend the time limit for beginning of construction work.

Forms are attached to the permit for your convenience in submitting notice when construction begins, is completed, and when the water has been completely applied to the proposed use.

A form is also enclosed for making a complete report on each well (as required by Section 116-448, O. C. L. A.). In order that knowledge may be obtained regarding the underground water resources of the state it is necessary that as complete a record as possible be kept of each well. It is therefore very important that you fill out the enclosed report on your well and submit it to the State Engineer's office as soon as your well is completed. Most of the information required in the report can be furnished by the well driller.

If your use of water is for irrigation, proof can be made only after you have actually irrigated ALL of the land described in your permit, which you intend to irrigate.

Very truly yours,

Chas. E. Stricklin
