RE: File# SWR-277

DEAR KING A. PHELPS,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for Glenn Willis Peterson. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

conveyance

ORS 539.120 "...the location of and each ditch, canal, pipeline or other means of conveying the water..."

✓ place of use (1/4 1/4)

ORS 539.240 (2) (d) (B) "The location of place of use by quarter-quarter section..."

diversion point size

OAR 690-28-025-(4)-(c) "The dimensions and capacity of any existing diversion systems."

✓ 1/10 acre

OAR 690-28-025-(4)-(d) "The number of acres irrigated in each quarter quarter shall be shown to the nearest tenth of an acre."

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,

This Claim for Beneficial Use is for the irrigation of 5.2 acres of bottom land. According to Mr. Peterson and other people of his age the land in is area was irrigated before the availably of electricity or gas engines by damming the creeks and ditches causing the water to flood the land. At the time of my visit to this property the irrigation equipment was not in operation. I did see the pump but was not able to make any measurements.

The inspection of the use as found was completed by me on 5-31-93, and the facts contained in this report and accompanying Claim of Beneficial Use Map are correct to the best of my knowledge.
