SUBJECT: Surface Water Registrations

I have reviewed the materials earlier provided and find I am deficient in the following:

I realize that in some cases, WRE maps have not yet been submitted, and in those cases, take this as a request to send us a copy when a map is received. Also, the first page of the SWR will suffice for our purposes in general.

Thanks in advance for your assistance - - see you @ Eagle Ridge.

RE: SWR-246

Dear Mr Baker,

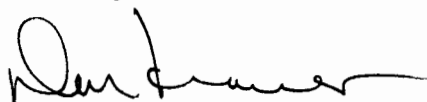

I have begun the review of the various claims made by water uses under the Surface Water Registration Statements. I have gotten to your file and find you had your signature notarized in response to my letter of February 17, 1993. You did not submit the required \$ 165.00 fees or a map prepared by a Certified Water Right Examiner.

I can sympathize with your situation, but I cannot change the laws. Before I can do any more review of you claim to a pre-1909 vested water right, you must submit the required \$ 165.00 fees and a map prepared by a Certified Water Right Examiner.

I find you do have a water right permit issued by this office. Our records show that water right is valid. It appears your water use is covered by the water right permit. You would be able to rely on the water right permit if you choose not to submit the fees and map.

If you have any questions, please give me a call.

Sincerely,

Don Knauer

Dear MR BAKER,

This will acknowledge that your Surface Water Registration Statement in the name of RICHARD H BAKER has been received by our office. Your claim has been numbered SWR-246.

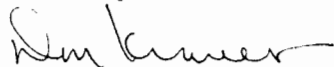

NEED
You sent a copy of application 56923 and referred to the supporting map. This map is not acceptable for the map supporting your claim to a pre-1909 vested water right. You failed to submit a map prepared by a Certified Water Right Examiner (CWRE). ORS 539.240 (2) (d) requires the map be prepared by a CWRE. Within 60 days of this letter you must send a letter to this address indicating you have contracted with a CWRE to prepare your map. You should send your letter to my attention. In your letter you must identify the name of the CWRE who will prepare your registration statement map. We will contact the CWRE to arrange a map submittal deadline.

NEED
You did not submit the fees required to file your claim. The fees paid for application 56923 were \$ 35.00. The fees required for a claim to a vested water use for domestic purposes are \$ 200.00. You must submit the difference of \$ 165.00.

DONE
Your signature on the back of the form must be notarized. I am returning the form so that you can have that done.

We will not be able to process your claim until we have received your notarized signature, map and necessary fees. If you have any questions regarding this process, please do not hesitate to give me a call.

Sincerely,

Don Knauer

I had my sig. notarized,
but I didn't get a map,
because I feel the map
that was sent when water
rights were obtained, also
the directions on the water
rights tell exactly where
the spring is located.

I was told that if
no water went to the
river, that nothing more
was needed, if it had
been in use before 1909,
it for the spring comes
out of the ground, and
then back in.

I do not have the
money, or means to be
able to send you 165, the
water rights have already

been paid for.

It just seems, the

Government it always
creating new jobs, and
wanting more money.

My taxes are so high
(1500 I can hardly pay
them).

Dear Sirs,

It was told to me by my Husband, Howard Ruben that his father piped the water from the spring into the Campi Hotel and saloon which he had built in 1908 so the water has been in use ever since then, so that is all I can tell you.
