re: SWR-251

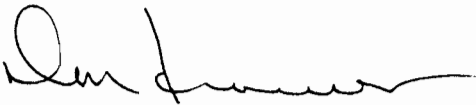

Dear Mr DAVIS,

I am in the process of reviewing the maps submitted in support of claims to pre-1909 vested water rights. The map submitted by your Certified Water Right Examiner does not meet the requirements of a Surface Water Registration map.

It appears there are two options at this time to resolve this problem. The first would be to have Mr Hanley prepare the required map. The second would be to rely on a "Final Proof" map to be prepared in the future by the Water Resources Department to cover the beneficial use under Permit # 40580. The only problem with the second option is the time factor. The WRD may not complete the mapping in time for the actual adjudication of Succor Creek. I intend to postpone my review of your file until such time that the review is absolutely necessary.

If you have any questions, please give me a call.

Sincerely,

Don Knauer
