INFORMATION:
THE PERMITEE IS ELWIN AND PATRICIA DEGNATH. I TALKED TO ELWIN
AT THE SITE. HE SHOWED ME HIS POD AND PLACE OF USE AT THE
HOUSE. HE ALSO SHOWED ME THE PLACES THAT HIS STOCK WATER FROM
THE STREAMS.
ADDRESS:

ELWIN AND PATRICIA DEGNATH
1270 SOUP CR. ROAD
REEDSPORT, OREGON 97467

SOURCE:

THE SOURCE FOR THE DOMESTIC WATER IS A TRENCH CUT INTO THE
HILL WITH A BACKHOLE. THERE IS NO CHANNEL OR SIGN OF A CREEK
ABOVE THIS SPOT AND THE ONLY CHANNEL LEAVING IS MANMADE. THE
POD IS ABOUT 50' FROM THE OLD CHANNEL OF SOUP CREEK WHICH
ONLY FLOWS IN THE WINTER SINCE THE CREEK WAS RELOCATED TO THE
OTHER SIDE OF THE FIELD. THE TRENCH INTERSECTS AN UNDERGROUND
STREAM AT A DEPTH OF ABOUT 5'. THE TRENCH IS FAIRLY NEW BUT
ELWIN STATED THAT THIS HAS ALWAYS BEEN THE POD. HE RECENTLY
IMPROVED IT WITH HIS BACKHOLE. THE STOCK WATERING IS FROM FOUR
UNNAMED STREAMS THAT FLOW INTO SOUP CREEK AND FROM SOUP CREEK
ITSELF.

DIVERSION POINT:

THE DIVERSION POINT FOR THE DOMESTIC USE IS A TRENCH CUT INTO
AN UNDERGROUND STREAM AS DESCRIBED ABOVE. THERE IS A 4"
PLASTIC PIPE 6' LONG AT THE HEAD OF THE TRENCH THAT DIVERTS
THE WATER INTO A 450 GALLON SETTLEMENT TANK. THE INTAKE TO
THE PUMP IS A 1 1/4" PLASTIC PIPE. THE STOCK WATERING IS
INSTREAM.

MOTOR/PUMP:

THE PUMP IS A SHALLOW WELL SEARS CRAFTSMAN HYDROGLASS JET
PUMP. IT IS A 3/4 HP ELECTRIC 40/60 PRESSURE. MODEL
#C48J2EC11. RPM 3450. VOLTS 115/230. IT IS CONNECTED TO A 50
GALLON PRESSURE TANK.

PIPE

THERE IS 6' OF 4" PIPE FROM THE POD TO A 450 GALLON
SETTLEMENT TANK. THERE IS 10' OF 1 1/4" PIPE FROM THE
SETTLEMENT TANK TO THE PUMP. THERE IS 6' OF 1" PLASTIC PIPE
FROM THE PUMP WHICH THEN INCREASES TO 1 1/4". THERE IS 520'
OF 1 1/4" PLASTIC PIPE FROM THERE TO THE PLACE OF USE AT THE
HOUSE.

HEADS

IRRIGATION OF LAWN AND GARDEN IS ACCOMPLISHED WITH A STANDARD
5/8" GARDEN HOSE AND WAVE SPINKLER.

USES

THE WATER IS BEING USED FOR DOMESTIC HOUSEHOLD USE INCLUDING IRRIGATION OF LESS THAN 1/2 ACRE OF LAWN AND GARDEN. IT IS ALSO USED FOR INSTREAM STOCK WATERING.

RECEIVED

JAN 15 1993

LIFT THE SETTLEMENT TANK IS AT THE SAME ELEVATION AS THE HOUSE. THE PUMP IS 10' HIGHER THAN THE HOUSE. THE PUMP SAYS WATER RESOURCES DEPT. ACTIVATES AT 40 PSI AND PUMPS TO 60 PSI. I MEASURED THE PSI SALEM, OREGON AT THE HOUSE AND FOUND IT TO BE 54 PSI AT THE LOWEST AND 75 PSI AT THE HIGHEST.

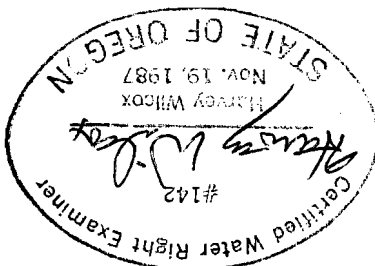

CALCULATIONS

SEE THE ATTACHED CALCULATION SHEET AND NOMOGRAPH. THE SYSTEM CAPABILITY IS A MINIMUM OF .085 CFS AT THE HOUSE. THERE ARE PRESENTLY NO STOCK ON THE RANCH FOR THE WINTER. ELWIN SAYS THAT THE MAXIMUM HE RUNS IS 115 HEAD OF CATTLE. AT 15 GPD THIS GIVES 1725 GPD INSTREAM STOCK WATERING.

SURVEY THE

I STARTED AT THE 1/4 CORNER BETWEEN SECTIONS 19 & 20 AND USING A COMPASS BEARING WITH DECLINATION OF 18 DEGREES EAST AS A BASIS OF BEARINGS I RAN A THEODOLITE AND EDM TRAVERSE TO THE HOUSE AND POD. THE BEARING FROM THE 1/4 CORNER TO THE POD IS N58DEG 10'E 1630'. THE 1/4 CORNER IS A BRASS CAP BURIED 1' DEEP IN A FENCE LINE.

THE PRE 1909 VESTED WATER RIGHTS SURVEY AND INSPECTION OF THE USE AS FOUND TO BE COMPLETED UNDER THE CONDITIONS AND TERMS OF PRE 1909 WATER RIGHTS WAS COMPLETED BY ME ON JAN. 6, 1993. THE FACTS CONTAINED ON THIS REPORT ARE CORRECT TO THE BEST OF MY KNOWLEDGE.

WE, ELWIN AND PATRICIA DEGNATH, AGREE TO THE FINDINGS OF THE CMRE AND DO SUBMIT THIS SITE REPORT AND MAP AS OUR CLAIM OF BENEFICIAL USE OF THE WATER AS PROVIDED UNDER THE TERMS AND CONDITIONS OF PRE 1909 VESTED WATER RIGHTS.

1. The Parker family butchered 50 hogs at one time. ~~They had~~ been fattened on myrtle nuts and corn. They put everything to use that they could but couldn't sell the 100 pork shoulders so the ranchers used them to help the fires to burn out the stumps while clearing the land.

2. Mr. Frank Keuhn had returned from selling some cattle in Elkton and a stranger to him came to his door at nite and asked to stay overnite even offered to share his bed if he would let the stanger stay. After some thought, he decided to let the young man stay. The young man was Ray Bunch, son of the first School Clerk and he had lived in that area at one time. He finally told Mr. Keuhn that he had come to rob him and when Mr. Keuhn would not tell him where the money was hidden, he tormented him by threatening him with a knife and then hanging him up with a rope until just his toes touched the ground - he finally threatened to burn his feet if he did not tell so Mr. Keuhn told him that the money was in the music box but asked that he not tear it up getting it out but the young fellow tore it to pieces and then left Mr. Keuhn hanging there. Mr. Keuhn found that he could reach the knife and thus cut himself free. He went to one of the neighbors and reported the crime and they set out to track Mr. Bunch. Warren Waggoner was deputized and Mr. Bunch was arrested in Gardiner. He served 15 years in the prison and when he was released he became a preacher. This happened in the year _____.

Later Mr. Keuhn was living with another family in the Valley and managed to save a shotgun shell and used it to commit suicide on the people's back porch. He laid down papers ahead of time so as not to make a mess but his blood flew all over the clean diapers hanging on the back porch. The people had heard him threaten to do this and had tried to stop him by taking all the shells away from him. Mr. Keuhn is buried in the Scottsburg Cemetary. This happened in the year _____.

ASH VALLEY, DOUGLAS COUNTY, OREGON
(continued)

6. Mrs. Parker told about a special time when flood waters used to get higher than they do now and her chicken house was lower than the woodshed so when the water got high, she had to catch chickens and move them into the woodshed. She had about 200 leghorns at the time in particular. She had two roosters and one of them did not want to get up onto the woodpile and stood in the water with just his beak sticking out - she took him up to the house and fed him some whisky and then waited until he showed some signs of life and then wrapped him warmly and put him in a wooden box behind the cookstove. When she got ready for bed, she put the box with a stick of wood on top of it on the back porch. In the nite the water was going down and the dog got curious as to the contents of the box and knocked the stick into it and killed the rooster.

7. The first school house had a bell tower and bell that rang by pulling a rope. That bell is now ~~hanging~~ hung in the yard on the Hugo Carlson place. Josie's daughters visit the place from time to time and are renting the place for the time being with ~~perhaps~~ perhaps plans of some day living in this area.

(note of interest: different locales names of long-time residents - Ash Valley "Places" - Smith River "Ranches" - Gardiner "Homes" etc.)

8. It was mentioned that even in the wintertime the roads or trails into Scottsburg and Elkton could be passable with a light rig and horse.

RE: File# SWR-271

DEAR HARVEY WILCOX,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for ELWIN E & PATRICIA DEGNATH. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

diversion point location ORS 539.240 (2) (d) (A) "...in reference to an established corner of the US public lands survey or recorded subdivision..."

10 acre OAR 690-28-025-(4)-(d) "The number of acres irrigated in each quarter quarter shall be shown to the nearest tenth of an acre."

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

Sincerely,

Don Knauer
