SUBJECT: PRE-1909 VESTED WATER RIGHT CLAIM MAPS

Alright you guys, this is a test, DO YOU KNOW WHAT TIME IT IS? The answer is, it's time to get the maps, reports, answers, mylars and all that kind of stuff back to the Water Resources Department. There's talk around the office of putting together a "map-patrol" with a tough leader to travel around and retrieve the required documents.

You may remember, I reviewed maps for compliance with Oregon Revised Statutes and Oregon Administrative Rules submitted to support pre-1909 vested water right claims. For the past few months and up to a year ago I have returned maps, requested mylars, asked for clarification, and asked for reports. Some of these files are getting stale.

It is very important that you give me something, preferably the map, mylar, report, etc. but at minimum you must give me a submittal date. The review of the files cannot be completed without the map, report, etc. It is a deterrent to the claimant, your client, for this issue to go unresolved.

If you need copies of anything in the files, just let me know. I have hand written below the file numbers of those I returned to you. The toll free number is 1-800-624-3199.

RE: File# SWR-299

DEAR FORREST J. HALES,

The Water Resources Department (WRD) received a little over 500 surface water registration statements in December, 1992. All of the files have been set up and receipts for the fees have been sent. The next step is to insure the maps received in support of the claims are acceptable based on Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR).

I am returning the map you prepared for Bearl Seals. You will find the item which requires completion or correction shown below. I have the description followed by the ORS or OAR site and paraphrased statute or rule.

$\frac{1}{10}$ acre OAR 690-28-025-(4)-(d) "The number of acres irrigated in each quarter quarter shall be shown to the nearest tenth of an acre."

The first map you sent showed an area of 10.5 acres irrigated, I have highlighted it in orange, and my review with a planimeter shows about 10.7 acres irrigated. The map you returned with corrections shows an additional 1.8 acres within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ section 22. It appears that the 10.5 acres should be reduced by the 1.8 acres. I would like to know how you arrive at your acreage figures.

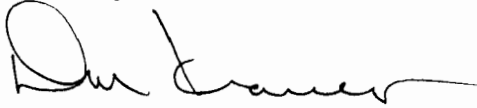

3850 Portland Rd NE
Salem, OR 97310
(503) 378-3739
FAX (503) 378-8130

You must return the map before the claim can be processed. If you cannot have the map to the WRD within 60 days, please inform me as to when it can be expected. Please mark all correspondence with the file number.

As always, if you have any questions, please give me a call.

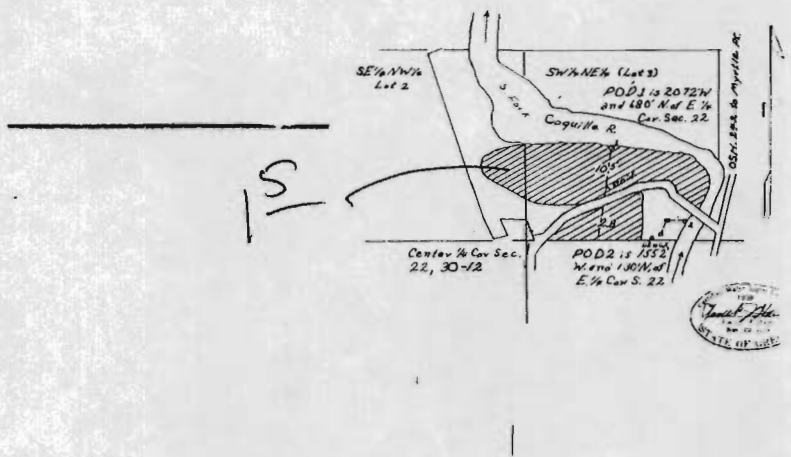

Sincerely,

Dear Sir:

I am submitting a claim for a Pre-1909 Vested Water Right on the basis of a Homestead Certificate given to Anna Billings for a tract of land on September 12, 1891 under the Homestead Act of 1862. The certificate states an assignment to Anna Billings and her heirs forever, water rights for mining, agricultural, manufacturing or other purposes, and rights to ditches and reservoirs used in connection with such water rights.

Although all previous owners are now deceased, county tax records indicate continuous livestock or dairy production throughout the years. There is a house on the property and a very old barn with stanchions and a self-supporting roof designed to hold loose hay. There are old silo rings which indicate dairying. Irrigation would be essential to support dairy cows.

The research is not yet completed because older county records were not available until recently. I will forward additional information as quickly as possible.

Enclosed is a check in the amount of \$430.00 for a filing fee, a certified copy of Anna Billings' Homestead Certificate, and a map prepared by a certified water right examiner.

Sincerely,

Bearl Seals

RECEIVED

AUG - 2 1993

WATER RESOURCES DEPT.
SALEM, OREGON 7/21/93

To Whom It May Concern:

As a neighbor and farm owner since 1941 of land across the river from the Bearl Seals property consisting of Lots 2 + 3, Section 22, Township 30 S, Range 12 W of Willamette Meridian of Coos Co., Oregon.

I have known the water from the South Fork of the Coquille River has been used by the owners of the Seals property.

The river water has been used all year for domestic use as well as watering the livestock and usual farm use.

The river water is also used for irrigation of pasture during summer months.

The William Lear and the Chester Root families used the water from the South Fork of the Coquille River in the same manner when they owned the said property.

When my grandparents, James + Julia Ann Carman and son Robert Carman owned the property in 1881 - 1924 they also used the river water in a like manner.
