Any appropriation of water beyond 0.55 cfs (not to exceed the maximum amount authorized under the permit, being 1.11 cfs) shall only be authorized upon issuance of a final order approving a Water Management and Conservation Plan (WMCP) under OAR Chapter 690, Division 86 that authorizes access to a greater rate of appropriation of water under the permit consistent with OAR 690-086-0130(7). The required WMCP shall be submitted to the Department within 3 years of this Final Order. The amount of water used under Permit G-13202 must be consistent with this and subsequent WMCP's approved under OAR Chapter 690, Division 86 on file with the Department. For review of water management and conservation plans that propose to increase the maximum rate of water diverted under an Extended Permit, after January 1, 2042, that the additional diversion of water will not impair or be detrimental to the public interest.

The Development Limitation established in the above paragraph supersedes any prior limitation of the appropriation of water under Permit G-13202 that has been established under a prior WMCP or Extension final order issued by the Department.

The deadline established in the Extension Final Order for submittal of a WMCP shall not relieve a permit holder of any existing or future requirement for submittal of a WMCP at an earlier date as established through other orders of the Department. A WMCP submitted to meet the requirements of the final order may also meet the WMCP submittal requirements of other Department orders.
