Application No. 5289.

December 30, 1916.

Mr. William M. Bruckwilder,
Andrews, Oregon.

Dear Sir:

I am in receipt of your application No. 5289 for permit to appropriate water which had been returned to you for correction. I am also in receipt of two maps. Upon examining the application I note that the map and application do not yet correspond in regard to the land to be irrigated. You will note under question number 2 that two tracts of 19 acres each are located in the NE NE of Sec. 33, while the map would indicate that one of these tracts lies within the SE NE of this Section. Also the 6 acre tract is located within the SW NE Sec. 33, while the map would indicate that this tract lies within the NW NE Sec. 33. I am accordingly again returning the application and maps in order that the corrections may be made.

In order to retain its original date of priority, this application together with the required maps should be returned to this office on or before January 30, 1917.

Very respectfully,

Percy A. Copper,

Assistant State Engineer.

Application No. 5289.

December 11, 1916.

Mr. M. J. O'Connor,
Denio, Oregon.

Dear Sir:

Enclosed please find my official receipt No. 4861 for \$13.50, which amount was transmitted with application for permit to appropriate water in the name of Willem M. Bruckwilder. I am also in receipt of two tracings. This application has been numbered 5289 and is returned herewith for correction.

Under question No. 9 I note that it is desired to irrigate 38 acres in the E $\frac{1}{2}$ of the NE $\frac{1}{4}$ of Section 33, and it will be necessary that we have the number of acres to be irrigated in each forty acre tract set forth under this question. We have no means of knowing how many acres are to be irrigated in the NE of the NE and in the SE of the NE of this section. I am also returning the map in order that the number of acres to be irrigated in each forty acre tract may be shown correctly by the map.

From the amount of fees sent, it would appear that a certified copy of the permit was desired for use in connection with Desert Land Entry, and upon the return of the application it will be taken up for approval and certified copy prepared.

In order to retain its original date of priority, this application completed and accompanied by the required maps should be returned to this office on or before January 11, 1917.

Very respectfully,

Percy A. Cupper,
Assistant State Engineer.
