CERTIFICATE OF WATER RIGHT (HB - 2153)

THIS CERTIFICATE ISSUED TO

U.S. BUREAU OF LAND MANAGEMENT; BURNS DISTRICT
HC 74 12533 HWY 20 W
HINES, OR 97738

confirms the right to store the waters of
RUNOFF IN NORTH CATLOW RESERVOIR 5837
for WILDLIFE.

The right to store and use these waters was perfected under Reservoir Application R-77279.
The date of priority is January 1, 1993. The amount of water entitled to be stored and
used each year under this right is not more than 48.8 ACRE-FEET

Located as follows:

SE 1/4 NW 1/4 SECTION 24, TOWNSHIP 33 SOUTH, RANGE 31 EAST WM.
NE 1/4 SW 1/4 SECTION 24, TOWNSHIP 33 SOUTH, RANGE 31 EAST WM.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, with
a minimum diameter of 8", or the provision of other means to evacuate water when determined necessary
for public safety or to satisfy prior downstream rights as determined by the Water Resources Director.

The right to store and use the water for the above purpose is restricted to beneficial use at the place of
use listed above.

WITNESS the signature of the Water Resources Director, affixed MARCH 6, 1997.

Martha O. Pagel

This Certificate is issued to correctly describe the above reservoir(s) and supercedes Certificate 70996

Recorded in State Record of Water Right Certificates numbered 73731

March 6, 1997

Oregon

WATER
RESOURCES
DEPARTMENT

Dear Certificate Holder,

A review of the Water Right Certificate you were issued under House Bill 2153 (1993) indicated that the certificate contained incorrect data or was incomplete. Enclosed you will find a new certificate which contains the corrected and completed data. This supersedes the previously issued certificate.

Your Water Right allows for both the storage and use of the stored water in the amount shown on the Certificate. The right is further limited to the amount of water stored and used as of January 1, 1995.

Please be aware, the public and the Oregon Department of Fish and Wildlife will now have an opportunity to comment upon whether or not your reservoir or water use causes injury to existing fishery resources or other water rights. Comments must be received by the Water Resources Department by August 1, 1997.

If the Water Resources Director determines that your reservoir or water use results in an injury to an existing water right or poses a significant detrimental impact to existing fishery resources, the Director will require you to take appropriate action to mitigate such injury.

Also, as part of such mitigation requirements, the Director may require you to install an approved meter or other suitable measuring device and maintain and report a record of the amount of water used, period of use, and place and nature of use.

Should you have any questions regarding your water right certificate or this letter, please contact the Water Rights Information Group at 1-800-624-3199 ext. 499 or (503) 378-8455.

R-77263,R-77264,R-77265,R-77266,R-77267,R-77268,R-77269,R-77277,R-77278,R-77279,R-77280,R-77281,R-77282,R-77283,R-77284,R-77285,R-77286,R-77287,R-77288,R-77289

We have received your application(s) for a water use permit along with your supporting data, documentation, and fees. A receipt is enclosed here unless you were previously issued one. Your application has been assigned the above referenced file number. Please refer to this number whenever you contact us about your application.

Even though your application has been received, filed and assigned an application reference number, no authorization has been granted to develop your water use. The filing of an application does not create a water right. Water may not be used until a water right permit has been issued by the Department.

After an application has been accepted for filing, public notification of the application is made, followed by the mandatory 30-day comment period. Thereafter, applications can be considered for processing as time allows.

At present the Water Resources Department has a backlog of several thousand applications for water use permits which has delayed our application processing time. In general, applications are processed in the order in which they are received. However, Department staff work through Oregon's 18 river basins on a rotation basis often completing work on all applications within a single basin, then proceeding to the next basin.

The processing of an application does not guarantee that a water right permit will be issued. Each application must undergo specialized analysis called a technical review and a public interest review. Until your application is reviewed, it is not possible to determine whether your particular proposed water use will be recommended for a permit.

The Water Resources Commission is considering the adoption of rules to protect stream flows for fish species. This action is being contemplated in response to current and future Endangered Species Act fish listings, including many runs of salmon, steelhead and resident fish throughout the state.

Commerce Building
158 12th Street NE
Salem, OR 97310-0210
(503) 378-3739
FAX (503) 378-8130

R E F E R E N C E : F i l e (s) -
R-77263,R-77264,R-77265,R-77266,R-77267,R-77268,R-77269,R-77277,R-77278,R-77279,R-77280,R-77281,R-77282,R-77283,R-77284,R-77285,R-77286,R-77287,R-77288,R-77289

The proposed rules, if adopted, could limit the issuance of new water right permits in certain areas of the state. If and when the Commission adopts these rules, new criteria or restrictions may be imposed on water use applications received after:

July 17, 1992, for use of water in the Upper Columbia/Snake Basin (above Bonneville Dam), including the mainstem Columbia and Snake Rivers and the Hood, Deschutes, John Day, Umatilla, Grande Ronde, Powder, Malheur and Owyhee Basins;

April 8, 1994, for use of water in the North Coast, Mid Coast, South Coast, Rogue and Umpqua Basins and the Clackamas Subbasin of the Willamette Basin; and

June 3, 1994, for use of water in all Oregon basins.

When the report on the technical review is completed and sent to you, a 60-day objection period begins during which you, the applicant, or anyone who has expressed an interest in your proposed water use may communicate to us their disagreement with what we have said in our report on your application. After the 60-day objection period, the Department conducts the public interest review and considers any objections which have been made.

After any objections have been considered, there may follow time to allow parties to resolve conflicts over the proposed water use. In addition, a 30-day protest period may be required. Lastly, it may be necessary to schedule a hearing or send the application to the Water Resources Commission for their review.

If your application is recommended for approval and a permit is issued, the use allowed by the permit will be subject to the Basin Program Rules of the Water Resources Commission, instream flow requirements, the demands of prior right holders and other conditions to conform the water use to particular standards.

Please contact a Water Rights Research Assistant of the Water Resources Department if you have any questions. You may write to us at 158 12th ST NE, Salem, Oregon 97310 or you may call 378-3739 in Salem or toll free from within the state 1-800-624-3199.

Sincerely,

Cory C. Engel

SALEM, OREGON

Application for a Permit to Construct a Reservoir

Applicant(s) Bureau of Land Management
Burns District Office (use dark ink)
Mailing Address: HC 74-12533 Hwy. 20 West
Hines, OR 97738 503-573-4400
City State Zip Daytime Phone No.

I (We) make application for a permit to construct North Catlow Pond reservoir and store the following described waters of the State of Oregon: _____

1. SOURCE OF WATER for the proposed use: Surface run-off,
a tributary of _____
If not in channel of a stream, state how it is to be filled: Surface run-off
2. THE DAM: The maximum height of the structure will be 0 ft. feet above stream bed or ground surface at the centerline.
The dam will be (check one) _____ earthfill, _____ concrete, _____ flashboard; _____ other.
If "other" give description: NO DAM - WATERHOLE

Give the location, description, and dimensions of the outlet conduit: NONE

NOTE: All dams across natural stream channels must be provided with an outlet conduit, minimum diameter of 8", or be of such capacity and location as to pass the normal flow of the stream at any time.

3. THE USE(s) of the impounded water will be: Wildlife

4. THE AMOUNT OF WATER to be stored is: 48.80 acre-feet.
The area submerged by the reservoir, when filled, will be 12 acres,
and the maximum depth of water will be 4 feet.

5. SPILLWAY DESCRIPTION (location and dimensions). State whether over or around the dam. NONE

6. PROJECT SCHEDULE: (List month and year)

Proposed date construction work will begin Existing

Proposed date construction work will be completed 12/12/90

Proposed date water use will be completed 12/12/90

NOTE: A map prepared by a Certified Water Right Examiner (CWRE) and a complete legal description of the subject property are required under ORS 537.140 and OAR 690 as a part of your application. The legal description may be copied from your deed, title insurance policy, or land sales contract.

T33S R31E SEC 24

7. a) In the event any deficiencies are noted involving the application map enclosed herein, please return the map with instructions for correction to (check one):

☒ Applicant ☐ CWRE ☐ Other (Identify in REMARKS section)

- b) In the event any deficiencies are noted involving the application, please return the application with instructions for correction to (check one):

☒ Applicant ☐ CWRE ☐ Other (Identify in REMARKS section)

8. Are all lands involved (including the proposed diversion site, place of use, and access for conveying the water) under your ownership? YES. If not, list in the REMARKS section below, or on an attached sheet, the names and mailing addresses of the legal owners of all property involved in the proposed development.

Salem, OR 97310-0210

Dear Mr. Brown:

Enclosed is a Purchase Order and applications for 32 exempt ponds, 19 reservoirs under 10 ft. and 11 reservoirs over 10 ft. In the "remarks" portion of some of the applications you will find the statements "CWRE maps and other information will be submitted in 1995" as per your instruction. Most of these reservoirs are in the process of being completed by a CWRE, but due to winter weather has not been able to complete the field work.

This should complete the majority of the water filings for the Burns District. We are currently going through records in an effort to find anything that has not been filed on. If we find any that have not been filed on, we will promptly do so in 1995.

Thank you for your assistance.

Sincerely,

Michael T. Green
District Manager
