APPLICATION No. 13633
PERMIT No. 9919

January 28, 1935

Mr. Leland A. Morris
Fields, Oregon

Dear Sir:

This is in reply to your letter of January 18, pertaining to your Permit No. 9319.

I note your letter states that you have acquired the land upon which the spring described under this permit rises and very probably, therefore, you are entitled to sufficient water therefrom for your own domestic needs without a filing. However, since you have made the filing and have paid the fees required by law I believe that you should probably complete it particularly since the only remaining expense will be a fee of \$1.00 for recording the certificate, when issued, in the county clerk's office.

If the right is perfected there can be no question but what you are entitled to the use of the water of this spring for your domestic needs. I note you state that you have completed all the work, but expect to try and develop more water. The time limit for the complete application of water expired under this permit October 1, 1933, but that time limit may be extended if reasonable diligence has been shown and if you wish to submit an application for extension of time, I will be glad to consider it. A form is inclosed for your convenience in submitting such an application if desired.

This permit, however, grants the right to the use of 0.03 second-foot of water and if that quantity has already been appropriated there is no reason why you should not submit proof at your earliest convenience so that a water right certificate may be issued.

Very truly yours

CHAS. B. STRICKLIN

Mr. Lehus E. Stricklin,

Dear Sir: In regards to my
water permit No. 9919.
When I filed on this water
I thought it was on the
stock drive way, but I
got a blue print from
the county office and it
was on government land,
so I filed on the land &
water and it was allowed.
So if you think it is necessary
for me to carry on the
procedure in regards to this
permit, please let me know
and I'll do so.

I have all the work completed
that I was suppose to do
but expect to try and develop
some more water. If this is
not satisfactory please let me
know? I'll try to live up to all
the requirements of the law.

Yours Truly,

Leland A. Morris

Permits Nos. 9919 in the name of Leland A. Morris
and 10034 in the name of J. C. Clemens have been brought
to my attention.

According to our records, forms for making final
proof under these permits were sent you some time ago and
to date they have not been returned. It will, therefore,
be appreciated if you will check these matters and advise
me at your early convenience concerning them.

If the forms have become lost or misplaced, I
will be glad to send you new ones.

Dear Sir:

Herewith you will find Application No. 13633,
being Permit No. 9919, together with blue print.

The application has been approved and recorded in
this office.

October 31, 1930

Mr. Leland A. Morris,
Fields,
Oregon.

Dear Sir:

The description of the spring to accompany your Application No. 18633 as filed in this office today indicates that this spring is on property of the United States. I presume, therefore, that the water is subject to general appropriation and that your application will be approved in the near future.

Your attention is called to the fact that the issuance to you of a permit to appropriate this water does not give you a right to construct a pipe line on property not your own. It is your duty to secure a right of way for your pipe line from the government agency having control of this land. For information I would suggest that you write to the Land Office at The Dalles.

Yours very truly,

CHAS. F. STRICKLIN,
State Engineer.

Dear Sir:

On August 12th we acknowledged receipt of your application for permit to appropriate water from an Unnamed Spring for domestic use and advised you that it had been placed on file as No. 13633. The application and map were returned to you for completion. We also enclosed to you a blank form upon which to submit a description of the spring.

You have returned the application and map to this office, but you failed to submit the description of the spring, and we wrote to you on September 9th requesting that this form be submitted promptly. Since that time we have heard nothing from you.

Your application cannot be approved until we receive this information concerning the spring. Therefore, you are requested to submit this data within thirty days from the date of this letter or on or before November 21st. I am enclosing a new blank for this purpose in case the blank previously sent you has been lost.

Dear Sir:

Your application for permit to appropriate water from an Unnamed Spring for domestic use has been filed as No. 15635. Receipt is acknowledged of your remittance of \$10.00 for which I am enclosing Receipt No. 12416.

The map submitted with the application is not complete because it does not show the location of the pipe line and place of use. I have prepared a new sketch which you will find enclosed and you are requested to complete this sketch by showing the additional data. I am also enclosing a form upon which you may furnish a description of the spring for our consideration in connection with the application.

The application is also being returned as you may need it before you in order to be sure that it corresponds with the map. It is endorsed so that its priority of August 11th will be retained providing it is resubmitted on or before September 15th.
