Re: Allied Properties.

Dear Mr. Jones:

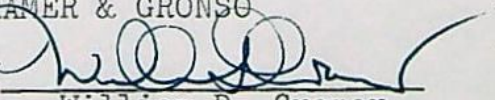

Enclosed herewith please find the Deeds from Gill Cattle Company, an Oregon Corporation, to Allied Properties, a California Corporation. These are being submitted to clarify the ownership of Permit No. 15008 and R 760 which have been carried in your records in the name of Eastern Oregon Livestock Company.

I see no particular necessity of having these documents recorded in the Miscellaneous Records unless you think this would be necessary. If it is not, please place the Deeds with the other Records and change the permits accordingly.

I have not yet received word from the Gill Cattle Company on the assignments which I sent to them but will contact you when they are returned.

Attention Mr. William D. Cramer

Gentlemen:

We only operate our photostat machine on a month .
to six week intervals. Therefore, it was necessary to send
the permits of Gill Cattle Company out to obtain these copies
which caused a delay in answering your letter of February 2.

The copies of permits numbered R-766, 15008, R-796,
15832, R-838, 16911, 17419, and 17420, together with blueprints
of the maps, are being mailed under separate cover. I am
enclosing our bill in the amount of \$32.35. The photostat fee
is ninety-five cents per sheet and blueprinting fee is \$1.

I am also enclosing the simple assignment form we use.
However, I would suggest rewriting the assignment so as to
include all the permits in the name of Gill Cattle Company in
one assignment, and permits numbered R-766 and 15008 in the
name of Eastern Oregon Livestock Company in another assignment.
In cases where it is impossible to contact the record holder
of the permit so as to obtain the assignment, we have been
accepting copies of the deeds showing ownership of the property.
Although as you know, this procedure is not specifically
mentioned in our water laws.

Re: Allied Land & Livestock Company.

Gentlemen:

The Allied Land and Livestock Company has referred to me correspondence with you concerning Water Right Certificates covering irrigation rights on lands they purchased from Gill Cattle Company. They are anxious to have these permits transferred into their own name. We would like also to have photostatic copies of the water rights and certificates which are numbered as follows: 22103: 17420: R 21001: 21002: 20295: R 20294: 18476: and R 18475.

If you have any special forms for the assignment of water right certificates, I will appreciate your sending me approximately 20 of these.

I note in your letter of August 4, 1959, addressed to Mr. George W. Paulin that in case it is impossible to obtain the signature of an authorized representative of the Eastern Oregon Livestock Co. we should advise your office. I will appreciate your informing me what procedure we should follow in this event.

Please send your statement for photostating of the water right certificates to this office and I will take care of same.

Most of the rights appurtenant to these lands have been completed by issuance of the final certificate and three permits have already been assigned to Allied Properties. There remains four permits still in the name of Hill Cattle Company and two permits still in the name of Eastern Livestock Company and two in the name of Fred Hill and Sons. A brief description of these rights is attached. It would be advisable to obtain assignments of all the permits and submit them to this office so we may change our records accordingly. I am returning the applications of Gill Cattle Company with change showing another water hole on the map and showing ditches from one waterhole to another.

The flow of these streams are very irregular and there may be a flow of 30 or 40 second feet for a few days and then for a few days there may be a very small flow of a few inches.

Therefore you may place what ever you think is proper in the amount of flow.

As in two of these applications the water from from the different streams now end at the same destination such could of been in one application but as the two applications having been filed it is probably best to leave them as they are.

Easments for right of way will be forwarded as soon as completed
