LOCATION: Section 35, T29S, R6W, WM ~~TAX 62730 72806.00~~, 960

SOURCE OF WATER FOR STOCK WATER USE: Two springs, tributaries of unnamed gulches.

#1 DIVERSION POINT FOR STOCK WATER USE: A spring area with 3/4" iron pipe driven horizontally into hillside. Water flows into a stock trough approximately 15 feet from spring area.

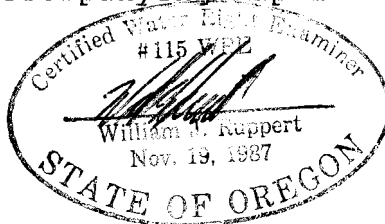

#2 DIVERSION POINT FOR STOCK WATER USE: A spring area that has been recently redeveloped to allow water to collect in a 1500 gallon tank then to flow by gravity to a stock water tank. Part of an old wooden fence used to keep cattle out of the spring is still evident at the spring. Nearby are the remains of a old wooden platform that was used to support a stock trough.

LIFT: Water flows by gravity from both springs to stock water troughs. The pipe line fall is approximately 1 foot from spring #1 to the trough. The fall is about 10 foot for spring #2.

USES: Stock water. Cattle are presently grazing on the property.

SURVEY TIE: The accompanying map is based on monuments found and tied by field survey. Section subdivision is based on Skyline Ranches Subdivision.

CERTIFICATION: By William J. Ruppert, Certified Water Right Examiner No. 115. The survey and inspection of the use claimed as a vested water right was completed by me on October 31, 1992 and the facts contained in this report and the accompanying map are correct to the best of my knowledge.

I, Robert L. Muckey, agree to the findings of the Certified Water Right Examiner and do submit this site report and map as part of my Claim of Beneficial Use of a Vested Water Right.
