OWRD

The initial review (IR) for our client Ed and Darcy Fisher Application g-19422 was issued June 13, 2025 to deny the application with options to revise. Our client has chosen to reduce the rates per the IR being 0.13 cfs from Well 1 (CLAC 54578) and 0.206 cfs from Well 2 and Well 3 to be drilled.

Attached is the revised page from the application
Please let us know you have received and proceed with the review of this application.

SECTION 3: WELL DEVELOPMENT, continued

Total maximum rate requested: **0.206 cfs** (each well will be evaluated at the maximum rate unless you indicate well-specific rates and annual volumes in the table below). **Being: 013 cfs for Well 1 and 0.206cfs for Well 2 and Well 3**

Review 7-13-25 DJH

The table below must be completed for each source to be evaluated or the application will be returned. If this is an existing well, the information may be found on the applicable well log. *(If a well log is available, please submit it in addition to completing the table.)* If this is a proposed well, or well-modification, consider consulting with a licensed well driller, geologist, or certified water right examiner to obtain the necessary information.

OWNER'S WELL NAME OR NO.	PROPOSED	EXISTING	WELL ID (WELL TAG) NO.* OR WELL LOG ID**	FLOWING ARTESIAN	CASING DIAMETER	CASING INTERVALS (IN FEET)	PERFORATED OR SCREENED INTERVALS (IN FEET)	SEAL INTERVALS (IN FEET)	MOST RECENT STATIC WATER LEVEL & DATE (IN FEET)	PROPOSED USE

* Licensed drillers are required to attach a Department-supplied Well Tag, with a unique Well ID or Well Tag Number to all new or newly altered wells. Landowners can request a Well ID for existing wells that do not have one. The Well ID is intended to serve as a unique identification number for each well.

** A well log ID (e.g. MARI 1234) is assigned by the Department to each log in the agency's well log database. A separate well log is required for each subsequent alteration of the well.

*** Source aquifer examples: Troutdale Formation, gravel and sand, alluvium, basalt, bedrock, etc.
