Dear Mr. Jagger:

In reply to your letter of March 19, relative to the assignment of your water right, this will advise you that the water right represented by your Permit No. 10642 was completed and confirmed by issuance of a certificate recorded on page 9891, State Record of Water Right Certificates.

When property to which a completed water right such as the one described above is appurtenant, is sold, the water right passes with the land unless the right is expressly reserved and no assignment is considered necessary. For this reason we have no blanks for use in assigning a certificate of water right.

Very truly yours,

STATE OF OREGON

COUNTY OF JACKSON

ABSTRACT OF CERTIFICATE OF WATER RIGHT NO. 9891

H. L. Jagger
of Prospect, State of Oregon, has made
proof to the satisfaction of the State Engineer of Oregon, of a right to
the use of the waters of two springs

a tributary of Rogue River for the purpose of
domestic and garden irrigation
under Permit No. 10642 of the State Engineer, and that said right to the
use of said waters has been perfected in accordance with the laws of Oregon;
that the priority of the right hereby confirmed dates from

July 7, 1932;
that the amount of water to which such right is entitled and hereby confirmed,
for the purposes aforesaid, is limited to an amount beneficially used for said
purposes, and shall not exceed 0.02 cubic foot per second, being 0.01 cubic
foot per second from each spring;
The point of diversion is located in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ & NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 9,
Township 33 South, Range 2 East, W. M.
The use hereunder for irrigation shall conform to such reasonable rotation
system as may be ordered by the proper state officer.

The amount of water used for irrigation, together with the amount
secured under any other right existing for the same lands, shall be limited
to one-eightieth of one cubic foot per second per acre, or its equivalent
in case of rotation.

A description of the lands irrigated under the right hereby confirmed,
and to which such right is appurtenant (if for irrigation or any other purpose)
is as follows:

PLACE OF USE:
SE $\frac{1}{4}$ NE $\frac{1}{4}$,
Section 9,
T. 33 S., R. 2 E., W. M.

The right to the use of the water for any purpose is restricted to the
lands or place of use herein described.

REMARKS:

Dear Sir:

Herewith you will find Application No. 14639, Permit No. 10642, together with blue print.

This application has been approved and recorded in this office.

Please read carefully the following instructions:

Your permit has been recorded in this office, but you should hold the original permit as evidence of your water right unless the land to which the water is appurtenant is disposed of. In that event you should file an assignment to the new owner for record in this office. Assignment blanks will be furnished upon request.

As it appears from the statements made in your application that all construction work has been done and the appropriation completed, I am forwarding the blank for making final proof to the watermaster of your district. He will call upon you in the near future to make an inspection of your project and assist you in the execution of the final proof.

Dear Sir:

This will acknowledge receipt of the application of H. L. Jagger for permit to appropriate water from two springs for domestic purposes, together with his remittance in the sum of \$10.00 as fees. Receipt No. 15299 is inclosed.

The application has been filed, given No. 14659 and is being returned for some additional information.

You failed to state the amount of water under Item 2, which the applicant expects to apply to a beneficial use. I note that it is stated under Item 9, that one acre is to be irrigated. I presume that this will be for a domestic garden, and if so, such use should be included under Item 3. A form is inclosed upon which a general description of the springs should be given.

The application has been endorsed so that it will retain its priority if resubmitted within 30 days or on or before August 7.
