Dear Sir:-

In checking up application No. 3496, by Roy Briggs, I find that the applicant proposes to irrigate 100 acres. However, in answer to question 9, 120 acres have been described, and the map also indicates 120 acres to be irrigated. I will ask that the number of acres in each 40 acre tract be definitely specified, in order that we may determine in which of the three forties the waste land is located. In order to retain its original date of priority, the application should be corrected and returned to this office together with the map on or before April 18th.

Very respectfully,

John H. Lewis,

State Engineer.

Dear Sir:-

I hand you herewith application and maps of Roy Briggs for an irrigation permit for 100 acres, together with Money Order for \$18.00, the fees therefor.

As I understand the rules, elaborate maps are not required for so small an appropriation, and particularly where the expense would be considerable to secure the services of an engineer.

I also hand you herewith 50 cts., your fee for copy of application of E. E. Rice.
