Proof of Appropriation of Water

JOSEPH WILMES, c/o EMILY WILMES

of Route 1, Box 128A, Aurora
has applied beneficially the waters of
a well

, State of Oregon 97002 ,

a tributary of Case Creek
supplemental irrigation of 236.4 acres

for the purpose of

under Permit No. G-4685 and that the use of said waters has been completed under the
terms of said permit; that the priority of the right dates from
August 20, 1969

that the amount of water for the purposes aforesaid, has been actually beneficially used in the
amount of
2.4 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the well.
The well is located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, as projected within W. Case DLC 47, Section 24,
T. 4 S., R. 2 W., W.M.; 1920 feet South and 850 feet West from NE Corner,
Section 24.

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further limited
to a diversion of not to exceed 2 $\frac{1}{2}$ acre-feet per acre for each acre irrigated
during the irrigation season of each year,

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.
A description of the place of use under the right, and to which such right is appurtenant, is
as follows:

Permit No. G-4685

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, JOSEPH WILMES
(Name of applicant)
of Rt 1 Box 129 ASTORIA, county of MARION,
(Postoffice Address)
state of OREGON, do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

- If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is
situated LAKE CREEK
(Name of stream)

tributary of CHAMBERLAIN

✓ 2. The amount of water which the applicant intends to apply to beneficial use is cubic
feet per second or 1540 gallons per minute.

3. The use to which the water is to be applied is IRRIGATION

4. The well or other source is located ft. and ft. from the
(N. or S.) (E. or W.)
corner of
(Section or subdivision)

795' SOUTH 41° EAST FROM NW CORNER SE 1/4 OF
(If preferable, give distance and bearing to section corner)
NE 1/4 SECTION 24 TOWNSHIP 4 SOUTH RANGE 1 WEST
(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE 1/4 OF NE 1/4 of Sec. 24, Twp. 4 S, R. 2 W,
W. M., in the county of MARION

5. The to be miles
(Canal or pipe line)
in length, terminating in the of Sec., Twp.,
(Smallest legal subdivision)
R., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is .

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the
supply when not in use must be described.

8. The development will consist of ONE WELL having a
(Give number of wells, tunnels, etc.)
diameter of 8" inches and an estimated depth of 186 feet. It is estimated that 186
feet of the well will require STEEL casing. Depth to water table is estimated 34'
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

G 4685

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type LINESHAFT TURBINE

Give horsepower and type of motor or engine to be used

75HP 440V 3Ø ELECTRIC MOTOR

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

No

12. Location of area to be irrigated, or place of use

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.96 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 20, 1969

Actual construction work shall begin on or before June 4, 1971 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1971

Complete application of the water to the proposed use shall be made on or before October 1, 1972

WITNESS my hand this 4th day of June, 1970

March 13, 1973

File No. G-4965

Joseph Wilmes
Route 1, Box 129
Aurora, OR 97002

Dear Sir:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit No. G-4685.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Form 128
gkd

March 9, 1973

G-4965

Joseph Wilmes
Route 1, Box 129
Aurora, OR 97002

According to the terms of your permit No. G-4685 for the appropriation of 2.96 cfs from a well for supplemental irrigation of 236.4 acres, complete application of water was to have been made by October 1, 1972.

Complete application of water means the application of water to beneficial use under the permit to the full extent intended. In the case of irrigation, it means beneficial irrigation of all the lands the permittee intends to cover under the terms of the permit. If water has been used, you should promptly submit notice describing the extent of completion as set forth in the letter accompanying your permit and also in our postal card of October 6, 1972.

ORS 537.260 provides that: "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the State Engineer proof of completion of the appropriation as required by ORS 537.230 and 537.250, the State Engineer may, after 60 days' notice by registered mail, order the cancelation of the permit.*****"

In accordance with the provisions of ORS 537.260, you are hereby notified that unless proof of beneficial use is received within 60 days from the date of this letter, the permit(s) may be canceled without further notice.

If for any reason you are no longer interested in the project described by the permit, we would appreciate it if you would so advise. If the property involved has changed hands and any part of the project has been completed, you should immediately assign the permit to the new owner and advise us of his name and address. An assignment form will be furnished upon request.

Very truly yours,

CHRIS L. WHEELER
State Engineer
