Form C (690-9-77)

IMPORTANT—This form is a notice to the Water Resources Director that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

Application No. 71371

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

I, Ivan Watts, Principal, Bridge School, the holder of Permit No. 51341 to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 27th day of Sept., 1993.

Remarks: We have used the water that was available to us for this summer.

Our system works fine.

IN WITNESS WHEREOF, I have hereunto set my hand this 27th day of Sept, 1993.

Ivan Watts
(Signature of Applicant)

HC 85, Box 115 M, Myrtle Point, OR 97458
(Address)

Form B (690-9-77)

Application No. 71371

NOTICE OF COMPLETION OF CONSTRUCTION

I, Ivan Watts (principal of Bridge School), the holder of Permit No. 51341 to appropriate the public waters of the state of Oregon, completed the construction of the works described therein on the 19th day of August, 1992.

Remarks: The irrigation and pumping station project has been completed as originally stated in the application.
If the works have less capacity than described in the permit, or you have definitely abandoned part of the proposed development, you should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 21 day of September, 1992.

Ivan Watts
(Signature of Applicant)

HC 85, Box 115M; Myrtle Point, OR 97458
(Address)

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when construction work is completed.

Form A (690-9-77)

Application No. 71371

NOTICE OF BEGINNING OF CONSTRUCTION

I, Ivan Watts (principal of Bridge School), the holder of Permit No. 51341 to appropriate the public waters of the state of Oregon, began the actual construction of the works described therein on the 15th day of July, 1992.

Remarks: The total irrigation system is in and in working order

The appropriator must state the manner of beginning of construction, the amount of work completed and the type of equipment

acquired for the water system up to the date of this statement, and any additional information which shows a substantial beginning of construction as authorized by your permit.

IN WITNESS WHEREOF, I have hereunto set my hand this 21 day of September, 1992.

Ivan Watts
(Signature of Applicant)

HC 85, Box 115M; Myrtle Point, OR 97458
(Address)

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when construction work is begun.

RE: Instream Water Right Application #s 70249, 70288,
70942 through 70944, 70946 through 70960, 71221
through 71280, 71282 through 71890, and 71921 through
72946; Reports of Technical Review

General Comments

According to OAR 690-77-026 (1), WRD "shall undertake a technical review...and prepare a report." This subsection further lists 8 [(a) - (h)] mandatory criteria which, as a minimum, must be assessed during the technical review. ODFW has concerns with the apparent level of assessment relative to subsection (c):

OAR 690-77-026 (1)(c)--Assessing the proposed instream water right with respect to conditions previously imposed on other instream water rights granted for use of water from the same source.

In the 115 subject reports of technical review, WRD is proposing to condition each application to exempt human and livestock consumption from regulation in favor of these instream rights as follows:

This instream right shall not have priority over human or livestock consumption.

Instream water right certificates in the North Coast basin based on conversion of minimum perennial streamflows generally contain similar conditioning language giving preference to the listed uses.

By rule, WRD's technical review process includes assessing conditions previously imposed on other instream water rights from the same source. If found to be appropriate, WRD may propose that new instream water rights contain the same exemption. There is no requirement that this exemption be automatically included as part of a technical review.

2501 SW First Avenue
PO Box 59
Portland, OR 97207
(503) 229-5400
TDD (503) 229-5459

When ODFW reviewed WRD files on some of these applications for documentation of assessments of prior conditions, we found nothing to indicate that any such assessments had been done. ODFW, therefore, assumes that the required assessments were not done and, therefore, objects to the routine placement of the proposed exemption on any of these applications on the grounds that to do so would be contrary to the public's interest in maintaining fish populations in North Coast basin streams. OAR 690-11-195 (4d).

Specific Comments

Application # 70948

Section 5, Proposed Conditions, is missing from this Report of Technical Review.

Application # 71241

For the month of December:

1. The minimum flow level recommended by ODFW in the North Coast basin Environmental Investigation Report is 88 cfs.
2. The reported estimated average natural flow for December here is 131 cfs.
3. WRD is proposing in the Report of Technical Review to allocate 80 cfs.

ODFW believes the proper amount to be protected during December is 88 cfs.

Application # 71258

Here, the estimated average natural flow is less than the minimum flow recommended by ODFW for the entire year. Because this is the only instance where this has happened to date, the occurrence is suspect. ODFW requests that the water availability analysis for this reach of Miami River be reexamined.

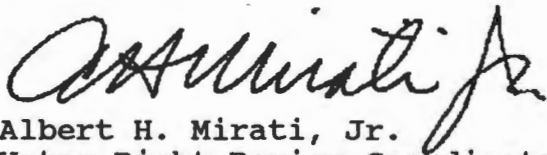

Application # 71280

The recommended flow numbers listed for September through April in the Application Information and Technical Review sections of the Report of Technical Review do not agree. Those listed in the Application Information section are correct.

CLAIM OF BENEFICIAL USE AND SITE REPORT

Information: School District 41 is the permittee and owner of the landserved by Permit No. 51341. James Shelton is the Bridge school custodian and is in charge of the irrigation system. His address is HC 85, Box 115M, Myrtle Point, OR. 97458. His phone No. is 503-572-2811, Extension 746.

The POD has been moved 150 ft. N. and 159 ft. W. of the permit location. This was done because of excessive maintance caused by silt and gravel at the permit location.

Source: Middle Fork of Coquille River.

Diversion Point: A 6 ft. by 6 ft. pump house secures the switches and valves for the system. A steel frame work under water supports the motor and pump. the intake is screened.

Motor/Pump: The submersible motor-pump unit is 7½ h. p. 3450 rpm and when new was rated at 90 gallons per minute. The impellers have been worn down and its maximum capacity is now 70 gpm of less. A flow meter is on hand and will be installed soon.

Pipe: 3" pipe is used from the pump to the place of use, about 300 ft. This system is for the school play ground and football field, and uses about 500 ft. of under-ground pipe to serve 34 sprinklers.

Heads: 34 sprinkler heads with a capacity of 15 gals. per m. each are used to distribute the water.

Use: Irrigation of 1.6 acres of play ground.

Lift: The vertical distance is about 35 ft. from water level to the playground.

Survey tie: This was done with transit and tape from the NE corner monument for Sec. 33 to the POD.

Special Conditions: No irrigating is allowed during the month of October.

Remarks: None.

The final proof survey and inspection of the use as found to be completed under the t terms and conditions of Permit No. 51341 was completed by me on September 28, 1993, and the facts contained in this report and accompanying final proof map are correct to the best of my knowledge.

I, Ivan Watts, Principal of Bridge School, agree to the findings of the CWRE and do submit this site report as our Claim of Beneficial Use of the water as provided under the terms and conditions of our Permit No. 51341.

x Ivan Watts
Ivan Watts, Principal of Bridge School

COUNTY OF COOS

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

BRIDGE SCHOOL OF SCHOOL DISTRICT 41
HC 85 BOX 115 M
MYRTLE POINT, OREGON 97458

503-572-2811

to use the waters of MIDDLE FORK COQUILLE RIVER, a tributary of
SOUTH FORK COQUILLE RIVER, for IRRIGATION OF 1.6 ACRES.

This permit is issued approving Application 71371. The date of
priority is MARCH 18, 1991 FOR 0.0125 CUBIC FOOT PER SECOND (CFS)
AND OCTOBER 28, 1991 FOR 0.0075 CFS. The use is limited to not
more than 0.02 CUBIC FOOT PER SECOND, or its equivalent in case of
rotation, measured at the point of diversion from the source. No
appropriation of water may be made during the month of October.

The point of diversion is located as follows:

NE 1/4 NE 1/4, SECTION 33, T 29 S, R 11 W, W.M.; 750 FEET
SOUTH AND 1076 FEET WEST FROM NE CORNER, SECTION 33.

Diversion screening or fish passage facilities shall be designed,
installed, and operated to Oregon Department of Fish & Wildlife
specifications.

The amount of water used for irrigation under this right, together
with the amount secured under any other right existing for the same
lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot
per second (or its equivalent) and 2.5 acre-feet for each acre
irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be
ordered by the proper state officer.

A description of the proposed place of use under this permit is as
follows:

NE 1/4 NE 1/4 1.6 ACRES
SECTION 33
TOWNSHIP 29 SOUTH, RANGE 11 WEST, W.M.

Actual construction work shall begin on or before October 28, 1992,
and shall be completed on or before October 1, 1993. Complete
application of the water to the use shall be made on or before
October 1, 1994.

Failure to comply with any of the provisions of this permit may
result in action including, but not limited to, restrictions on the
use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The
water user is advised that new regulations may require the use of
best practical technologies or conservation practices to achieve
this end.

PAGE TWO

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

Issued this date, OCTOBER 28, 1991.

Water Resources Department
William H. Young
Director

October 4, 1993

BRIDGE SCHOOL OF SCHOOL DISTRICT 41
HC 85 BOX 115M
MYRTLE POINT OR 97458

REFERENCE: File 71371

We have received your notice that complete application of water has been made under Permit 51341.

In order to obtain a certificate of water right, you are required by law to hire a certified water right examiner to conduct the final proof survey of the completed use. This must be done within one year after the use is reported as being complete or within one year after the beneficial use date allowed in the permit, whichever occurs first. Accordingly, the map and claim of beneficial use must be received in this office on or before September 30, 1994. A list of certified examiners is enclosed for your information.

The Department requires that the CWRE has a copy of the permit or transfer order to compile the claim of beneficial use. All permit conditions need to be addressed in the claim and map you submit.

Upon receipt of the map and claim of beneficial use, the information will be reviewed and a brief field inspection may be conducted by a representative of this office. Following that, a proposed certificate of water right will be mailed to you for review.

In the meantime, the permit you hold is valid evidence of your right to use the water.

If you have any questions, please contact the Water Rights Section at 378-3739.

Your application for a permit to use the public waters has been reviewed.

A "draft" permit is enclosed for your consideration. In the preparation of this draft permit, our staff has considered any public or agency comments received, as well as all pertinent Oregon laws, administrative rules and Commission policies.

We are now ready to recommend the issuance of a permit approving your request to use water. The draft permit enclosed contains all of the conditions and limitations that would appear on your permit, if issued. We may approve 0.0125 CFS (or 1/80th CFS as applied for), plus another 0.0075 CFS to equal 0.02 CFS maximum. The latter quantity's priority date will be the same as when the permit is actually issued.

Please review the draft permit carefully. If you are satisfied that the draft adequately describes your proposed use of water, and the terms are acceptable to you, please sign the draft copy in the spaces(s) provided and return it to us within 30 days. When we receive your signed draft, we will issue your permit as quickly as possible.

If you do not agree with, or cannot accept one or more of the terms or conditions as stated in the enclosed draft, you should advise us immediately. In this event, we will then advise you of any options which may be available to you.

If you have any questions, please contact the Water Rights Section at 378-3066.

Application for a Permit to Appropriate Surface Water

Applicant(s) Bridge School of School District 41 Attn. James Shelton, Custodian
(Please print or type - use dark ink)

Mailing Address: HC 85, Box 115 M
Myrtle Point, Oregon 97458 572 2811 Ext. 46
City State Zip Daytime Phone No.

I (We) make application for a permit to appropriate the following described waters of the State of Oregon:

1. SOURCE OF WATER for the proposed use: Middle Fork of Coquille River,
a tributary of _____

2. TOTAL AMOUNT OF WATER to be applied to beneficial use: 1/80 of one cubic feet per second, OR _____ gallons per minute. If water is to be used from more than one source, give the quantity of water from each: one source

3. INTENDED USE(s) OF WATER: Irrigation of Foot Ball Field

If for more than one use, give the quantity of water from each source for each use; one use

If for DOMESTIC use, state the number of households to be supplied; _____

If for MUNICIPAL OR QUASI-MUNICIPAL use, state the present population to be served, and an estimate of the future requirements; (List population projections, water needs, anticipated areas to be provided water.)

If for MINING use, state the nature (gold, silver, etc.) of the mines to be served; _____

If for IRRIGATION, or other land area use, state the TOTAL number of acres to be developed under each use;

Irrigation 1.6 acres

Other (describe) _____

4. **DESCRIPTION OF WATER DELIVERY SYSTEM:** Include dimensions and type of construction of diversion works, length and dimensions of supply ditches or pipelines, size and type of pump and motor. If for irrigation, describe the type of system (i.e., flood, wheel line, hand line, drip, other).

The water will be pumped directly from the river. No diversion works will be constructed. A 5 h. p. gas motor and suction pump combination will be used to draw the water from the river. The place of use is about 30 feet above the river, and is the foot ball field and adjoining playground area. The type of irrigation system has not been determined.

5. **PROJECT SCHEDULE:** (List month and year)

Proposed date construction work will begin July, 1991

Proposed date construction work will be completed September, 1991

Proposed date water use will be completed July, 1993

NOTE: A map prepared by a Certified Water Right Examiner (CWRE) and a complete legal description of the subject property are required under ORS 537.140 and OAR 690 as a part of your application. The legal description may be copied from your deed, title insurance policy, or land sales contract.

6. a) In the event any deficiencies are noted involving the application map enclosed herein, please return the map with instructions for correction to (check one):

XX Applicant CWRE Other (Identify in REMARKS section)

- b) In the event any deficiencies are noted involving the application, please return the application with instructions for correction to (check one):

XX Applicant CWRE Other (Identify in REMARKS section)

7. Are all lands involved (including the proposed diversion site, place of use, and access for conveying the water) under your ownership? Yes. If not, list in the REMARKS section below, or on an attached sheet, the names and mailing addresses of the legal owners of all property involved in the proposed development.

FOR WATER RESOURCES DEPARTMENT USE ONLY

Dear Applicant:

I certify that I have examined the foregoing application, together with the accompanying information, and am returning it to you for:

In order to retain its tentative priority, this application must be returned with the requested corrections or additions on or before:

_____, 19____.

WITNESS my hand this _____ day of _____, 19____.

(For Local Use Continued)

b) Please provide printed name and written signature.

Name: _____

Title: _____

Signature: _____

Date: _____
Phone: _____

Please provide information as requested below for all tax lots on or through which water will be diverted or used. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Tax Lot or Local I.D.#	Plan Designation/Zoning (e.g. Rural Residential/RR-5)	Check All That Apply		
		Water Diverted	Water Conveyed	Water Use
T.L. 1400	T.L. 1300		✓	✓
T.L. 1500		✓	✓	✓
	29-11-33 RC			

Please list all counties and cities within which water is proposed to be diverted, conveyed, and/or used. Cos

The following section must be completed by a planning official from each county and city listed unless your project will be located entirely within city limits. In this case, only the city planning agency must complete this form. Please request extra forms as needed.

For Local Government Use Only

Local government planning officials are to complete the remainder of this form. If this form can not be completed while the applicant waits, please sign and detach the receipt as instructed below. Please mail the completed form directly to the Water Resources Department (3850 Portland Rd. NE, Salem, OR, 97310) within 60 days of the date of receipt as shown below. If the form is not completed within 60 days, the Department may take action to approve the water use.

a) Check the appropriate box below and provide requested information.

☐ Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): _____ . Go to section b) on reverse side.

☐ Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below. **Note:** Please attach documentation of applicable local land use approvals which have already been obtained. (Record of Action plus any accompanying findings is sufficient.)

Receipt for Request for Land Use Information

WRD Applicant Name: James J. Baker

This receipt must be signed by a local government representative and returned to the applicant for inclusion in the WRD application IF the local government can not provide the above requested land use information while the applicant waits.

City or County: Cos County

Staff Contact: Planning Technician

Phone: 396-3121 x210

Signature: Sheila Wilson

Date of Information Request: 3-01-91

Signature: _____

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet. For additional information call Roberta Jortner or Rick Bastasch at 378-3671.

Additional Comments:

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Description of Water Use

Note to Applicant: This sheet will provide local planning staff with a basic description of your proposed water use. Please fill out this sheet before bringing the attached land use form to your local planning office. It will help local planning offices complete your land use information form quickly.

Note to Local Planning Officials: Please initial this sheet. Do not separate it from the land use information form. If needed, please make a separate copy for your records.

FROM: J.P. Drolet
Watermaster Dist. XIX

SUBJECT: Bridge School application # 71371

Please find the attached map which shows the proposed POD & POU in relation to other diversions and uses in the Bridge metropolitan area.

This use will not conflict with other appropriative uses.

Middle Fk. Coquille River periodically drops below the designated minimum flow during the months of August, September, and occasionally in October and this proposed use would be curtailed during those periods.

I would not object to the issuance of this permit nor would I propose conditioning of the permit.

REFERENCE: Bridge School Water Rights Application 71371

Dear School Administrators:

We attempted to speak with you today via phone to no avail, so again we are requesting a copy of the property deed or land sales contract to show proof of ownership. We also need the legal description of the property (meets and bounds). Sorry, the copy of the CWRE map sent in your response mailed September 9th is not considered a legal property description.

We are ready to issue the Water Rights Permit once appropriate documentation reaches us. Thank you for your cooperation.

Sincerely,

Carol S. Lewis
Senior Water Rights Specialist

We have reviewed an application to use water. We need additional information so we can decide if a permit can be issued.

Please provide the following:

☒ A legal description of the property where you plan to use water. You can copy this from your deed, title insurance policy or sales contract.

☐ A copy of written authorization or easement permitting access to land not owned by the applicant.

☐ Permit recording fees of \$_____.

Other: Please also send an ownership statement such as a copy of the warranty deed or tax bill information showing ownership.

We will complete our analysis when the application and information noted above is received.

Contact the Application/Permits Section at 378-3739 if you have any questions.

Dear Mr. Shelton:

We have reviewed an application to use water in the name of Bridge School of School District #41. We need additional information so we can accept, review and decide if a permit can be issued.

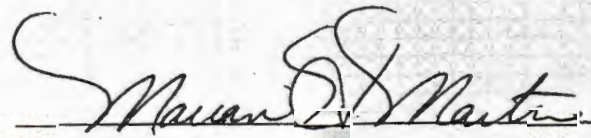

Please provide the following:

- _____ A legal description of the property where you plan to use water. You can copy this from your deed, title insurance policy or sales contract.
- ☒ Land use information (required before we can accept the application, a form is enclosed).
- _____ A copy of written authorization or easement permitting access to land not owned by the applicant.
- _____ Permit recording fees of \$_____.
- ☒ Other: The application, supporting data, and check no. 24483 in the amount of \$300.00, is being returned.

We will complete our analysis when the application and information noted above is received.

Contact the Application/Permits Section at 378-3739 if you have any questions.

Dear Mr. Brown:

I am writing this letter concerning water rights application No. S-71371 for Bridge School in the Myrtle Point School District of Coos County.

We filed this application and paid our fees last March. Since we have not heard anything from your department, at this time, I was wondering if there is anyway you could let us know what is happening with our application. I realize that you have a large backlog of applications to process but we find ourselves in a bind. We have money budgeted to buy irrigation equipment for the school (some \$4,000.00) but we do not want to purchase the equipment unless we have some indication that our application will result in us getting water rights on the middle fork of the Coquille River.

We must spend or let go of this money shortly after the first of the year and we simply don't know what to do.

Is there anyway you could expedite this matter?

Please advise us as soon as possible.

Thank you for your consideration.

Cordially,

Ivan Watts, Principal
Bridge School

BRIDGE SCHOOL OF SCHOOL DISTRICT 41
ATTN. JAMES SHELTON, CUSTODIAN

to use the waters of MIDDLE FORK COQUILLE RIVER, a tributary of SOUTH FORK COQUILLE RIVER, for IRRIGATION OF 1.6 ACRES.

This permit is issued approving Application 71371. The date of priority is MARCH 18, 1991 FOR 0.0125 CUBIC FOOT PER SECOND (CFS) AND , 1991 FOR 0.0075 CFS. The use is limited to not more than 0.02 CUBIC FOOT PER SECOND, or its equivalent in case of rotation, measured at the point of diversion from the source. No appropriation of water may be made during the month of October.

The point of diversion is located as follows:

NE 1/4 NE 1/4, SECTION 33, T 29 S, R 11 W, W.M.; 750 FEET SOUTH AND 1076 FEET WEST FROM NE CORNER, SECTION 33.

Diversion screening or fish passage facilities shall be designed, installed, and operated to Oregon Department of Fish & Wildlife specifications.

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the proposed place of use under this permit is as follows:

NE 1/4 NE 1/4 1.6 ACRES
SECTION 33
TOWNSHIP 29 SOUTH, RANGE 11 WEST, W.M.

Actual construction work shall begin on or before , 1992, and shall be completed on or before October 1, 1993. Complete application of the water to the use shall be made on or before October 1, 1994.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

Application 71371

Water Resources Department

PERMIT

land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

Issued this date, .

Water Resources Department
William H. Young
Director

I\We, James R. Shellen, hereby understand and agree that this draft permit describes the full extent of water use that will be allowed approving Application 71371. By signature below, I\We agree to the proposed terms and conditions for this draft permit.

RATE AND DUTY _____ for irrigation

1. Check for minimum information (OAR 690-11-020)

yes	no	
		Name and mailing address of the applicant.
		Source of the water.
		Quantity of water to be appropriated.
		Location of point of diversion to 1/4 1/4 Section.
		Nature and place of use.
		Name and mailing address of all legal owners of the properties involved.
		Signature of the applicant
		Examination fees.

If minimum information not supplied, excepting legal owner information, then return to applicant with letter explaining deficiencies.

yes	no	
		Water Resources Commission classification limits or restrictions -- If yes, note:
		<u>instream - near mouth of Coguille (South Fork) - pro-dates</u>
		State Engineer's withdrawals -- If yes, note:
		Legislative withdrawals -- If yes, note:
		If policy statement is unclear check with Resources Management Division.
		Scenic Waterway:
		___ on ___ up-stream ___ w/in 1/4 mile
		___ Notify Parks and Recreation Department
		___ Out-of-basin diversion
		___ Need to route to Geology Section due to:
		___ well within one mile of a stream
		___ well within restricted surface water area
		___ wells with request for greater than 5 cfs
		___ well is for heating &/or cooling
		___ well constructed by land owner
		___ well is artesian
		___ artificial ground water recharge project
		___ ground water area under study
		___ Within Irrigation District:
		___ Notify ___ Need excerpt from District
		___ Legal description of property
		___ Ownership statement
		___ Other parties to Notify: <u>none</u>
		___ Water Resources Commission review if:
		___ Request for greater than 5 cfs
		___ Dam height greater than 10 feet
		___ Storage of more than 9.2 acre-feet
		___ Out-of-basin diversion
		___ within or above a scenic waterway
		___ conditional uses under basin programs
		___ requests for larger rate or duty than allowed
		___ ground water recharge project
		___ other substantial public interest issues
		___ requests for review by an agency or person
		___ Watermaster consent form sent with copy of draft permit
		___ application and app. <u>9/30-*</u>
		___ Watermaster comments received
		___ Hydrographic section comments requested
		___ Hydrographic section comments received
		___ O.D.F.W. sent copy of application and app (except groundwater) requesting comment
		___ O.D.F.W. comments received <u>4/24/91</u>
		___ Report from D.E.G. received
		___ Publish application information in weekly public notice.
		___ Notify other owners of development
		___ PROTESTED
		___ filed
		___ resolved
