Vested Water Right Claim for  
James P. & Bonnie B. Pynch in Sections 25 & 26  
T27S, R5W, W. M. Douglas County, Oregon

8. Remarks continued:

The Pynch Ranch was purchased by the Pynch family in 1971. The Pynch family has operated the ranch as a stock farm since then on a continuous basis. The original ranch lands were homesteaded in the 1850's and have been operated as a stock ranch on a continuous basis since then, using the waters of South Fork Deer Creek and the several springs for stock water and domestic water, including irrigating 0.5 acre for lawn and garden. Please see enclosed statements (Affidavits).

Springs No's 1 and 2 serve the ranch, using gravity. (See Map.) They collect water into small tanks and distribute through P.V.C. pipe to stock tanks, as shown. These two springs serve as supplementary supply to the Domestic System when the South Fork Deer Creek is low.

Spring No. 1 has a minimum flow of 1 G.P.M. and a maximum flow of 2 G.P.M.

Spring No. 2 has a minimum flow of 3 G.P.M. and a maximum flow of 20 G.P.M.

Spring No. 3 flows into a small earth sump and stock drinks from the sump. There is a minimum flow of 1 G.P.M. and a maximum flow of 30 G.P.M.

The Domestic System (P.O.D. No. 1) consists of a screened intake directly in the South Fork Deer Creek with an electric motor driven pump. The connected motor and pump is a "Flint and Walling", Kendalville, Indiana; the motor is Model 920/20A, 220 volts, 2 Hp., 3450 R.P.M. The pump is Model CJ103201, Code 8607. It has a 2 inch intake and a 1½ inch discharge.

The Domestic system also furnishes stock water to the barns.

I am now the age of 55 years and have been a continuous resident and inhabitant of Douglas County, Oregon since the year 1962.

My husband, James, and I bought the ranch from Kathleen Weber in 1971 and have lived here since. We have raised stock and used water for our home and lawn and garden on a continuous basis since then.

The source of most of the water has been the South Fork Deer Creek. Several springs on the property are also used for stock watering. One spring is used as a supplemental source for the residence when Deer Creek gets very low.

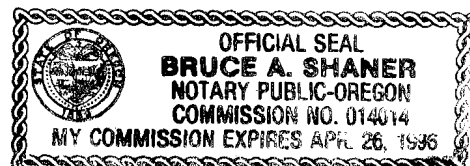

To the best of my knowledge the ranch has been inexistence as a stock ranch since it was homesteaded in the middle 1800's, on a continuous basis and the water sources have always been the springs and the South Fork Deer Creek.

I am now the age of 80 years and have been a continuous resident and inhabitant of Douglas County, Oregon since the year 1912.

I was born on Oak Creek, near Dixonville, and have lived in the Dixonville area all my life. (The Jim and Bonnie Pynch property is about 1 mile South of Dixonville on South Fork Deer Creek.) The Pynch Ranch has been a stock ranch since it was homesteaded in the 1800's. The stock has always been watered from the several springs and from the South Fork Deer Creek. In addition, the homestead residence has always used water for domestic purposes from the South Fork Deer Creek, including irrigation for lawn and garden. I remember George Bonebrake, who owned the ranch many years, always raised an excellent garden and lawn.

I am now the age of 82 years and have been a continuous resident and inhabitant of Douglas County, Oregon since the year 1911.

I have lived on South Fork Deer Creek since 1929. The Jim and Bonnie Pynch property is about 1 mile North of here on the South Fork Deer Creek.

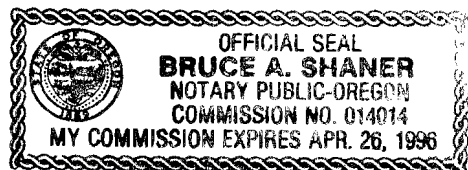

The Pynch Ranch has been a stock ranch since it was homesteaded in the 1800's. The stock has always been watered from the several springs and from the South Fork Deer Creek. In addition, the homestead residence has always used water for domestic purposes from the South Fork Deer Creek, including irrigation for lawn and garden.

John and Mary Bonebrake lived on the Pynch Property for many years and their descendants kept the property and lived thereon. The Webers, who sold to the Pynches, were daughter and son-in-law to the Bonebrakes. In other words, the ranch has been in one family's ownership, until Pynches bought, back to about 1900±.
