GW

The Department has reviewed the status of your pump test and any requests for extension(s) or exemption(s) for the following permitted well(s). The results are summarized in the table below:

Application	Water Right	Permitted Well	Pumped Well	Test Date	Request Status	Problems	Exemption	Well Name
G 15176	Permit: G 18200 *	NLOG0058040	NLOG0058040		APPROVED	0	Unreas Burden	OPEN PIT WELL 1

Pump tests are intended to provide aquifer and well information for ground water resource characterization and to help solve well problems (OAR 690-217-0015(9)). The point of diversion is an open pit mine and performing a pump test would not yield useful information; therefore the Department has granted an exemption for testing or the above listed permit.

Approved pump test letters will be digitally posted to the water right in WRIS; all other pump test letters will be mailed to permit holder.

Please contact me if you have any questions.

Sincerely,

Gabi Ferreira
