STATEMENT CLAIM OF BENEFICIAL USE
for
File No. SWR-383

RECEIVED

Land Owner: J.A. Davenport
HC 84 Box 92C
Myrtle Point, Oregon 97458

Mailing address: Same as above

Contact Person: Peggy Shirtcliff
Telephone (503) 572-3504

Inspection date: 1-15-94

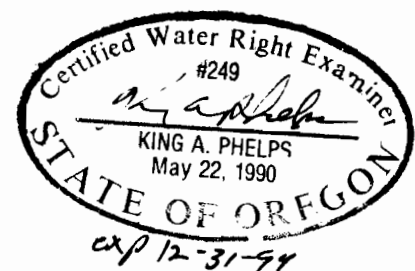

In this Claim for Beneficial Use there are three parts.

Part number one is the historic use of the creek shown on the map as a livestock watering source.

Part number two is the use of a spring for domestic purposes and lawn irrigation. The spring was developed by digging out the area of the spring and building a collection box. A one inch pipe line carries the collected water across the county road to a pump which supplies the water to four homes. The system is a pressure system and has no storage other than the little in the collection structure. A one inch plastic pipe runs from the pump to the near home and then down the field to the other three homes. The original works had iron pipe and most probably a wooden tank. One home is approximately three hundred feet south of the spring. The other homes are approximately one half mile West of the spring. Water is used primarily for domestic uses and lawn irrigation as needed and water is available. The system is capable of delivering five gallons per minute to each home.

Part three taking of water out of the creek at a point near where the creek crosses the county road. This water is used year round to supply water to three stock watering points near the barn and to irrigate a garden area as needed during the growing season. The stock watering points and the garden are connect to the pump with one inch pvc pipe lines. The garden area lies approximately four hundred south of the diversion point and is an area 100 feet by 150 feet long (0.34 acres).

The inspection of the use as found was completed by me on 1-15-94, and the facts contained in this report and accompanying Claim of Beneficial Use Map are correct to the best of my knowledge.

To Whom It May Concern,

My name is Joseph Albert Davenport. My grandfather bought land on lower Catching Creek in the year 1900. I was born in Grizzley Bluff, California, in 1905 and came with my mother in 1907 to join my father who by then lived on Catching Creek.

The land which I own (Sections 19, 20, 29 Township 29 Range 12) was bought from my grandfather by my aunt, DeEtte Slingsby. She was the owner from 1908-1919. In 1919, my parents, Bert and Amy Davenport became the owners. In 1928, my wife, Verna and I began dairy farming on the place. We raised five daughters to adulthood. They were all active in 4-H and took Jerseys and sheep to the county and state fairs.

I retired from milking cows in the late 1960's but continue to raise beef cattle and sheep. During the 1970's and 1980's my grandchildren had sheep, beef, dairy, swine and chickens as 4-H projects on my place. Since my grandfather bought the land in 1900 there has continually been livestock on the farm. The watering source has always been from Catching Creek.

Sometimes in the summers when the water would get low we would cart steaming water from the Lundy Cheese Factory. It would still be hot by the time we reached home and this water was used to wash our clothes.

I recall several wells being used for domestic water use. Later we used spring water. Today the spring supplies water for one dwelling nearby and is piped one-half mile to three more dwellings, all of which are on my property. However, my grandfather spoke of the spring being used as early as 1900 when he first moved here. The spring is located near the old wagon road. A tin cup was left hanging there and people stopped on their way to and from town to drink from the spring water. As a child I can remember folks stopping there as well.

Since 1900 well water and spring water have been used for domestic use and water from Catching Creek has been used for watering livestock.

To whom it may concern:

This is to state that I am the granddaughter of Henry Clark Williams & Martha May Williams, who came to Coos Co. in 1873, when my mother was eleven years of age, and settled on Catching Creek, a few miles S. W. of Myrtle Point, Or. He homesteaded property adjoining the Dan Giles farm, and the Williams children and the Giles children grew up as neighbors and friends.

In all these years, water from Catching Cr. was used for household & stock watering.

In 1900, a group of dairy-farmers from Humboldt County in Northern California, came to

the Myrtle Point area, looking for dairy farms. One of this group was "Bert" Davenport. He purchased the Dan Giles farm, and moved his wife, Amy, and their children to said farm, and started his dairy.

I attended high school in Myrtle Point from 1920 - 1924. Albert Davenport, oldest son of the family, was in my class and attended only part of the four years, as he had to stay home to help his father run the dairy. This happened to many of our farm boys at that time in history.

When I started to attend the Methodist Church in Myrtle Point in 1933+34, I became acquainted with Amy Davenport, Albert's mother. We were good friends as long as she lived. I have attended many meetings and church picnics at the Daven-

port Grove, bordering Catching Creek. This Creek was and is the main source of water for the milk cows.

When "Best" and Amy retired, they still resided on the farm. Albert and his wife, Verna, who was also a schoolmate of mine, took over the farm and changed the operation from a dairy to a sheep ranch, and their daughters were very active in 4-H sheep clubs.

Verna died a number of years ago. Several of their daughters have homes on or near the ranch.

Albert has developed springs and a well, but has always used the Catching Creek water for his livestock. He is still taking care of his sheep.

Nellie Palmer

Dean and Lourita Reisen, Parker, Concord, Calif., enjoyed Christmas Eve with Louirita's parents, Walter and Lilly Reisen, and then spent Christmas Day with Dean's parents, Don and Linda Parker, at Coquille.

Mrs. Elizabeth Oleson, Seal Beach, Calif., had a 10-day holiday visit with her daughter and son-in-law, Frank and Lilamae Meldrum. Jerry and Susan Meldrum Davis, Klamath Falls, completed the family gathering for Christmas weekend.

Richard and Carol Porter Dewey and children, Lisa and Bill, Spokane, Wash., and Chuck and Karen Porter and four sons, Charles, Andrew, Douglas and Joseph, Othello, Wash., were here for an extended Christmas weekend to visit Carol's and Chuck's mother, Mrs. Velma Porter, and brother and family, the Merlyn Hathaways. Joining the family group for Christmas Eve were Bill and Cathy Hathaways, Sitkum, and a friend, Frank Collier, Coquille.

Dr. James Thomas, Salem, with his wife, Linda, and children, John and Michelle, drove his mother, Lee Thomas, home after a week's visit with them in Salem, for the Christmas season. They came to Myrtle Point last Wednesday and remained until Saturday.

The home of Clare and Ilma Lehmanowsky was brightened with the presence of their daughter and family, Bob and Andrew Hyslop and daughter, Tracy, of Portland, for the Christmas holidays.

Ervin Royer substituted for Ray Riscol, Coos Bay Elementary school band instructor, for the last two weeks of the first semester when Mr. Riscol had suffered a heart attack. However, Ervin feels that he would rather go on with his farming project rather than return to teaching.

He will continue with his music activities. "Royer's Acres" will specialize in the raising of rabbits and Nubian goats.

Lucile Harris Trigg returned last Thursday from a Christmas visit with her son and family, John, wife, Linda, and two daughters at Pilot Rock.

Dear Albert, Vera & girls

I want to say that I'm sorry for not thanking you sooner for your birthday card but for some reason I just received it. They say it is better late than never and I sure was glad to get it.

I'll bet those girls must be getting to be regular young ladies by now. I have been away pretty near a year but it seems like lots longer than that.

Mother sent me a picture taken there at your place during a pot luck dinner and it sure makes me think of the swell feeds I used to attend there and I sure hope to get in on some more in the near future.

I suppose everyone is busy farming around there now and you must be getting lots of fresh corn by now.

I sure do like the ship I'm on and it sure has a swell bunch of fellows. There is hardly ever an argument and I sure get along good.

I have lost some weight but it seems to make me feel better so I don't care. They sell Ice Cream on here every night and if I don't quit eating it I'll be fatter than when I joined.

Of all the country I've saw so far nothing has compared to Oregon and will I be glad to get back there.

I can't think of anything to write so will quit and try to do better next time.

5:30 P.M.

Dear Albert, Verna & family,

We had our first open post from here yesterday. It sure seemed good to get away from this place after being in barracks. When we got to town, I and two other guys rented us a car (41' Ford) and had a swell time driving all over San Antonio. Even saw the Alamo. In the course of the day we had 2 big steak dinners. They sure were good. The first month we were here we had nearly as good a meals but this month they have put us on field rations so the food is pretty sorry.

Sure is good to know that Jim is accumulating some money at home. It will sure come in handy later. But I keep wondering that now that Jim isn't at home doing any work, I kinda hate to take all that money for the sheep. Maybe Dad could get much better use from that land while prices are higher.

We just got back from a parade. We have one every Tues. & Thurs. night at 8:30 & every Sat. morning at 9:15. The one on Sat. is a humdinger. It is a long drawn out affair with a personal inspection etc. We usually stand at attention about 1 1/2 hrs or some time 2 hrs. The guys sure pass out. I haven't passed out yet but maybe I had better knock on wood.

They sure held over lots of guys from the last class just because there wasn't enough room in the primary, so no guys are thinking that we may get held over another month. I would sure bet that. It sure is one heck of a note that the army is so full and they are drafting some kids from high school.

you sure got good prices for the lambs.

News looks pretty good now. I think Germany will be through about Jan. or so but Japan won't be through for quite a while.

Guess its time for chaw now.

Love

Ernie

Dearest Verna,

We all want to thank you for the nice box of presents which you sent to us. I am afraid our presents to you will be a little late in arriving, but hope that you get them eventually. I kept looking for ivory carvings, but the Field Nurse beat me to the most of them, and the rest were not the type to buy for a family present. So I finally had to order some gifts for you through Montgomery Wards. I hope the smaller girls will not have too many of the little dolls and doll furniture already. Jeren's present may be a little later in arriving than the rest of yours, as I noticed it had to be shipped from a different place. I am sorry that I was so late in ordering. There is only one ivory carver in our little village, and he has been away most of the fall months. Most of the ivory carvers live on King Island, but once in a while we find one or two in the Villages. They do beautiful work, and one marvels at how they can make such tiny figures so perfectly. It is really an art.

You asked in your last letter how we managed for fuel and lights. The school is equipped with a 5KVA Kohler light plant. We also have a small Onan to use if the big plant is in need of repair. We use fuel oil in both the quarters and the school. We have a modern white enamel range for the kitchen, and oil burning heaters for our living room and each school room. The weather is getting a little colder all of the time, now. It is 22 below zero tonight, and may be a little colder in the morning. However, we do not notice it much, even when we are outside, as we dress much warmer up here. Everything is wool, you know, and the boys play outside up here and do not think anything about it. If it had gotten this cold down in the states they would think they were being punished terribly if they had even been asked to go outside. It all depends on the point of view, doesn't it? But this is a dry cold, and is not as penetrating as a wet cold.

Mary Lynn and Sharon do not go outside very often, especially the baby. I am afraid the cold air is too much for her little lungs. And Sharon goes out once in a while, but she never stays out very long. She has a sheep wool lined jacket with fur trimming, but next year I plan on getting her a regular parka, as they are much warmer. My aunt gave me a fur coat this summer, so I didn't have to worry about a parka. An old Eskimo woman gave me a nice pair of mukluks (boots) for a Christmas present. They are made of reindeer skin, with the fur turned inside. They are beaded and made pretty on the outside. Many of the mukluks are made with the reindeer fur on the outside and lined with some other kind of fur. Another Eskimo woman made me a pair of fur mittens. They

are real fancy.

We had our Christmas program last Saturday night. Then we were invited to their Church program on Monday night. They really believe in having long programs- it lasted 3 hours. Then they gave out presents. It was eleven o'clock when we got home.

Tuesday night we gave them a picture show. I think I told you that Irvin and I have a 16 millimeter sound projector, and we rent films to show to the Eskimos. We have to make a small charge to pay for the rental, but we don't charge any more than we just have to. It is about the only form of entertainment that they have. We are going to have another "show" Saturday night. We try to be as careful as we can in picking the films, and get only the cleanest and best. We rent from an agency in Anchorage.

We are having a week of vacation - but it surely hasn't proved to be much of a vacation for me. I told the Native girl I didn't think I would need her during the week, but last night I had to change my mind and send for her for today and tomorrow. I am the Territorial Department of Welfare Agent up here as well as teacher, and have to investigate for all the Old Age Pensions, Aid for Dependent Children, etc. and quite a few of the people who live out in the country from Deering have been in during this Christmas week. Some of them were in need of medical attention, too, and have to be doctor, too. So you can see that there is a lot of variety to this job. I got outside for a couple of hours today, even though it was below zero. One begins to get "cabin Fever", if one doesn't get out a little every other day, at least. And they advised us to get out every day, when we were in Juneau.

Well, I suppose you had a big Day on Christmas with so many at your place. We had a nice dinner, but just our own family. We had roast reindeer instead of turkey, but we had all the rest of the "trimmings" and ice cream for dessert.

Mary Lynn is getting to be a little scamp. Irvin trimmed her hair today, and she surely looks like a little Dutchman now. She is learning to wink, and she tries to say a lot of words. She and Sharon have quite a time. Sharon is glad now that she has a baby sister, - but she won't be a baby much longer.

The boys made a cave in the snow over by the bridge today. They enjoy it up here. Their dogs are surely growing. The pup we bought last fall is as big^{now} as the female dog we bought. We had to chain him up a couple of weeks ago, as we were afraid that he would take to robbing the fish racks if we left him loose any longer. Not that the rascal doesn't get enough to eat - they are by far the best looking dogs in the Village. We feed them cooked mush with milk in it every morning and each evening they get half a dried salmon apiece. But I couldn't bear to raise any kind of animal and just half feed it. Some of these dog teams do not look very good.

Well, dear friend, here is the end of this side- and it is getting late. Do write again soon. Love, Ellen and Family

Dearest Verna,

I received your most welcome letter and lovely card a few days ago. I will try to answer during the spare time I have- which isn't much these days, as I have so many duties that come first before personal correspondence.

The "Boys" were very interested in the picture of Joanne and her heiler. Whenever they hear of Four-H Club work they wish they were back in the states- but I haven't the slightest idea of when that will be.

It almost seems that we live in another world up here. Things are so different than in the states. But we like it very much, and certainly we never lack for excitement and interest in our lives here.

I thought you might be interested in some of the things that have occurred here this past summer, and of what the Eskimoos do most of the time.

Just before school was out last spring, a group of Naturalists or Scientists, or whatever name one might call them, arrived in our Village here with their implements to excavate an old Eskimo ruins which lies at the East edge of our Airport. The Airport, by the way, is a long level piece of ground which has been covered with coarse sand and is kept leveled down by the Alaska Road Commission grader, which is used on our only road out of Deering. This road is at present about twenty-five miles long, and goes to the Casa de Paga Gold Mine, which is the only mine in operation at present.

The leader of this group was Dr. Helge Larsen, the Curator of the Museum of Copenhagen, Denmark. There were a number of students and teachers from other parts of the United States and of the University of Alaska. This old ruin was estimated to be at least a thousand years old. According to Dr. Larsen, it had been a house where the Eskimo men did their work, such as carving knives, spears, etc. and also visited while they did their work. In other words, it was a sort of Community House. Old half buried logs looked to be of good sound stock, but when one would prod them, they would crumble away. Since there are now no trees at all around here, it is interesting to surmise where these large old logs came from. Perhaps at sometime in the past, forests grew over this part of the country. Since the top had long since rotted away, only the sides and floor were left. When the airport was first made, the grader scooped great loads of dirt and sand over this old ruins. So it had to be dug out. In excavating, Dr. Larsen

found that there were two other floors under the first one. Evidently, as too much trash or shavings collected on the floor, the old Eskimos covered the first floor again with dirt and sod and made a new floor.)

Many, many interesting things were unearthed. Small spear points, perfect in construction, bird darts, eating utensils, baskets, and other implements were found. Since I am not a Scientist and have not especially studied the Eskimo of the past, it would take someone with a greater knowledge of these things to tell more about them. As I deal with those living today, I find them very interesting.

These men worked on this for a month or more, and then moved to a group of caves about thirty miles south of Deering. There they excavated a great deal more, but found about the same type of implements and utensils that were found here.

On the Fourth of July our celebration started about eight o'clock in the evening. Of course, you know long before that our days and nights were always day. For at least six weeks the sun never sets here, as we are just twenty miles south of the Arctic Circle. So we have a long summer "Day". The Celebration started with races. And you would never guess who raced first! The babies who were crawling! One of the men put a canvas down, and then the mother or the baby would go to the "Finish" line. Another member of the family would set the baby on the canvas and then the mothers would start calling to their babies! Then the toddlers raced- and I am proud to say our little girl, Mary Lynn- the "white" Eskimo of the group- won the race. She was rewarded with a small toy. Then groups of various ages raced. When the racing was over, they played all kinds of games. Then a contest was held to see which boy could kick a suspended ball as it was held higher and higher. And the kicking was not done with one foot, either. The boys bend themselves down, crouch, then kick upward with both feet at once! One boy kicked the ball after it was five feet in the air. I am still unable to understand how they do that trick. They also play a game much like our teeter-totter, except that they stand on the board and it bounces them away up into the air. And very seldom have I seen a child fall off the board. They also play a form of baseball, but it is Norwegian Baseball, and not the kind played in the United States. Naturally, they play games in school that all other children play- but the games I have mentioned are Native Eskimo games.

At one o'clock on the morning of the Fifth of July, the kayak races were held. Most of us when we were children saw pictures of the kayak in our geographies, and children can still see pictures of them in the same textbook today. These skin boats are unbelievably light and sturdy. And they use but one paddle, which has a blade on each end. They dip it first on one side and then the other- and speed is what they achieve. After the kayak race cake and coffee were served- to add a touch from the outside world. Then my husband, children and I went to bed, but I believe most of the rest of the populace of this Village stayed up the rest of the night. However, that is not unusual in the summer time up here, as they simply work until they are tired and then go to sleep for a while, wake up and work some more.
