Form C (690-9-77)

IMPORTANT—This form is a notice to the Water Resources Director that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

Dear Mr. Futrell

We have your check in the amount of \$5.00 and your request for an extension of time for permit numbered G-6264. The request is premature since you have until October 1, 1979 to complete your project. Also, the permit cannot be expanded. You will have to submit a new application for the additional lands.

Based on your map, I have partially completed an application form for you. Please note, it lists 120 acres rather than 80 acres as given on the application for extension of time. Items 8, 15, 16, and 17 must be answered and you will have to sign the application in the space provided under item 18.

An examination fee of \$20.00 is required to file the application in addition to an irrigation recording fee for 120 acres of \$37.00. Rather than refund your \$5.00 at this time, we will apply it to your application when it is received along with \$52.00.

I am returning your application for an extension of time and your map.

Sincerely,

Thomas E. Shook
