Change in POD(s) or Additional POD(s)

Did the transfer order authorize a change in the points of diversion or additional points of diversion? **YES**

If "NO", this Section can be deleted.

1. New or additional point of diversion name or number:

POINT OF DIVERSION (POD) NAME OR NUMBER (CORRESPOND TO MAP)	SOURCE

3. Claim Summary:

NEW OR ADDITIONAL POD NAME OR #	MAXIMUM RATE AUTHORIZED IN ORDER	CALCULATED THEORETICAL RATE BASED ON SYSTEM	AMOUNT OF WATER MEASURED

* There are 20.6 acres of irrigation with 0.34 cfs associated with C 88208 authorized by this transfer. Only 18.0 acres are irrigated with POD 2. The 0.30 cfs listed in the table above are allocated to the 18.0 acres. The other 2.6 acres are irrigated from the original authorized POD (POD 3 on COBU Map Sheet 2 of 2) for certificate 88208. The flow rate associated with the 2.6 acres is 0.04 cfs.

** In addition to the 18.0 acres associated with C 88208 irrigated with POD 2, noted above there are 2.6 acres of irrigation with 0.04 cfs associated with C 88208 irrigated with the original authorized POD for C 88202. This 2.6 acres of irrigation are also authorized by this transfer. The POD for these acres is the original authorized POD for C 88208. In this report and on map Sheet 2 of 2 this POD is referred to as POD 3. Since there are no changes authorized for the original POD for C 88208, details relating to the POD are not included in this COBU.

Dale,

You have summarized it correctly. You do not need to report on the equipment and capacity of the original POD. The only item that you need to address in the Claim for this point is the required meter.

Have a great afternoon!

Subject: Re T-14259 reporting on PODs

Hi Gerry,

Per our phone conversation today regarding reporting on PODs for transfer 14259. The transfer authorizes two new PODs to serve changes in the POU for four water rights. All of the acres for three of the water rights being transferred are served by the new PODs. One of the water rights, C 88208, is for the irrigation of 20.6 acres. 18.0 acres of this right are being relocated and will be served by one of the new PODs. The remaining 2.6 acres of this right will continue to be served by the existing authorized POD for C 88208. Since the existing POD for this 2.6 acres is not a new POD and it is not serving any new water rights the claim of beneficial report does not need to report details associated with the authorized POD other than those that might be listed in the conditions of the transfer. In this case, the transfer requires flow meters for the existing and new PODs. Therefore, flow meter information needs to be provided for the existing authorized POD for C 88208 as well as the new PODs.

Please confirm this to be the case.

Thanks,
Dale
