Form B

NOTICE OF COMPLETION OF CONSTRUCTION

Application No. 43921I, CHARLES & J.M. ERENOthe holder of Permit No. 32934

to appropriate the public waters of the state of Oregon, completed the construction of the works described therein on the 23rd day of December, 1968

Remarks:

If the works have less capacity than described in the permit, or you have definitely abandoned part of the proposed development, you

should state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 6 day of January, 1969

J.M. Ereno

(Signature of Applicant)

Burns, Oregon

(Address)

Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when construction work is completed.

Form C (690-9-77)

IMPORTANT—This form is a notice to the Water Resources Director that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

Application No. 43921NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE R-5084J.M. ERENOthe holder of Permit No. 32934

to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the day of MAY, 1984

Remarks:

The Project Was Completed during the Fall of 1983

IN WITNESS WHEREOF, I have hereunto set my hand this 8 day of Nov, 1984

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON
HARNEY COUNTY

IN THE MATTER OF DIMINUTION OF)
A PERFECTED AND DEVELOPED WATER)
RIGHT EVIDENCED BY CERTIFICATE) FINAL ORDER
62225 IN THE NAME OF ERENO'S MENS)
STORE INC.)

Findings of Fact

1. On March 17, 2009, the Department received an affidavit from Bob Kerby, 25963 Highway 20 W, Hines, Oregon, 97738, the owner of lands and the water right appurtenant as evidenced by Water Right Certificate 62225. The affiant requests that the water right evidenced by Certificate 62225 be diminished from a right for irrigation (primary) to a right for supplemental irrigation.
2. Water Right Certificate 62225 allows the use of not more than 1,703 acre-feet (af) from Willow Creek Reservoir, a tributary of the Silvies River, for irrigation of 273.6 acres. The priority date is August 10, 1967. The point of diversion from the stream is located as follows:

TWP	RNG	MER	SEC	Q-Q	SURVEY COORDINATES
23 S	29 E	WM	13	SW NW	2380 FEET SOUTH AND 390 FEET EAST FROM NW CORNER OF SECTION 13

3. The affidavit requests the following lands be diminished from irrigation to supplemental irrigation:

TWP	RNG	MER	SEC	Q-Q	G LOT	ACRES
24 S	29 E	W.M.	1	SW NW		11.3
24 S	29 E	W.M.	1	NE SW		10.0
24 S	29 E	W.M.	1	NW SW		33.6
24 S	29 E	W.M.	1	SW SW		2.6
24 S	29 E	W.M.	1	SE SW		10.0
TOTAL:						67.5

Now, therefore, it is ORDERED:

1. Certificate 62225 is cancelled.

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

2. The water right for irrigation of 67.5 acres as described by Certificate 62225 is diminished from a right for irrigation (primary) to a right for supplemental irrigation.
3. The Department shall issue Water Right Certificate 85897, a new and superseding certificate, to describe the remainder of the irrigation right not modified by this order.
4. The Department shall issue Water Right Certificate 85898, a new and superseding certificate, to confirm the diminution of the right to supplemental irrigation.

Dated at Salem, Oregon this 17th day of NOV, 2009.

E. Timothy Wall. *for*
Phillip C. Ward, Director

Mailing date: NOV 17 2009

STATE OF OREGON
COUNTY OF HARNEY
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ERENOS' MENS STORE INC.
CHARLES & J. ERENO
BURNS, OREGON 97720

confirms the right to use the waters of WILLOW CREEK RESERVOIR CONSTRUCTED UNDER PERMIT R-5084, a tributary of the SILVIES RIVER, for IRRIGATION OF 206.1 ACRES.

This right was perfected under Permit S-32934. The date of priority is AUGUST 10, 1967. The right is limited to not more than 1282.8 ACRE-FEET STORED WATER ONLY or its equivalent in case of rotation, measured at the point of diversion.

The point of diversion is located as follows:

TWP	RNG	MER	SEC	Q-Q	MEASURED DISTANCES
23 S	29 E	W.M.	13	SW NW	2380 FEET SOUTH AND 390 FEET EAST FROM NW CORNER OF SECTION 13

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

TWP	RNG	MER	SEC	Q-Q	G LOT	ACRES
24 S	29 E	W.M.	1	SW NE		5.4
24 S	29 E	W.M.	1	NE SW	3	4.8
24 S	29 E	W.M.	1	NW NW	4	15.6
24 S	29 E	W.M.	1	SW NW		13.5
24 S	29 E	W.M.	1	SE NW		34.0
24 S	29 E	W.M.	1	NE SW		30.0
24 S	29 E	W.M.	1	NW SW		3.7
24 S	29 E	W.M.	1	SE SW		4.2
24 S	29 E	W.M.	1	NE SE		4.8
24 S	29 E	W.M.	1	NW SE		36.4
24 S	29 E	W.M.	1	SW SE		25.3
24 S	29 E	W.M.	1	SE SE		28.4
TOTAL:						206.1

This certificate is issued to describe the right modified by provisions of an order recorded at Special Order Volume 79, Pages 132 to 133, diminishing a portion of the right evidenced by Certificate 62225. This certificate, together with Certificate 85898, supersedes Water Right Certificate 62225.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

REFERENCE: Files Numbered R-43085 and 43921

Gentlemen:

Your application for an extension of the time limits in which to complete construction under the terms of your Permit Number R-5084 and to complete construction and make complete application of water under Permit No. 32934 were received. We also have your check in the amount of \$40.

The application indicates reasonable diligence has been exercised toward completion of the proposed projects; therefore, the time limit to complete construction on Permit Number (R-5084) is being extended to October 1, 1984, and the time limits are being extended to complete construction and make complete application of water on Permit Number (32934) also until October 1, 1984.

You should make every attempt to complete your project on or before that date because it is doubtful if any further extensions can be granted.

Sincerely,

Bruce A. Estes, Supervisor
Survey/Certificate Section

Salem, Oregon 97310

Attention Mr. Bruce Estes

Dear Sir:

We are requesting a time extension on the above permits.

We have done some work on the storage area every year except one since completion of the reservoir. The local branch of the Fish and Game Department has participated in the work every year and their records will verify that the work has been done.

Although the reservoir has been leaking, we have been using the water for about 30 days on approximately 200 acres each year. We are showing some improvement in storage.

This year we have dug numerous test holes above and below the dam site. We dug a keyway 300' long, 22' deep to a rock or clay base. We then filled this with a clay mix and packed it in layers with a sheepsfoot. The cost of this work was \$6800.00. The work was done under the supervision of Mr. Beale, the County Watermaster.

The extent of the benefit will not be known until Spring 1983.

If there is any other information that you require for this time extension, please let us know.

Sincerely,

Charles Ereno

Gentlemen:

We've received your application for an extension of the time limits in which to complete construction under your reservoir R-5084 along with the statutory fee of \$10.00 for it.

You also have a secondary permit numbered 32934 which is for the use of the stored waters for the irrigation of nearly 300 acres. This permit must also be extended to allow an extension of the storage right. That would require requesting an inclusion of permit 32934 upon the extension form that we have here along with the statutory fee of \$10.00 for that permit. We are not able to act upon the existing extension until the secondary permit is also identified in it.

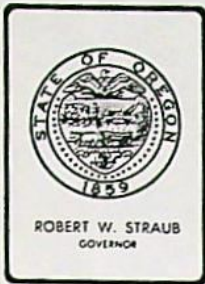

We will hold action for a reasonable length of time pending your response to this letter along with the statutory fee for the secondary permit, if appropriate.

Sincerely,

Bruce A. Estes, Supervisor
Certificate/Survey Section

Dear Sir:

I am writing this letter in answer to yours of July 12, 1978 concerning permits R-5084 and 32934.

We would like to extend these permits again. We are still working on the leak and have made some progress. We are again going to do some work on the reservoir this fall. We are pleased with the progress we have made so far and think that we are close to the solution of our problem.

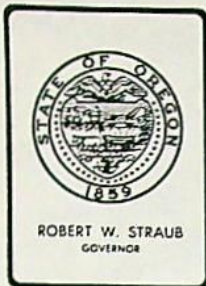

We have had some benefit from the dam the way it is, by controlling the runoff. This year we have an excellent grain crop as well as a good crop of Crested Wheat Seed.

Sincerely,

Charles Ereno

Charles Ereno

Dear Mr. Ereno,

Your permits numbered R-5084 and 32934 were recently brought to my attention. These permits regard the storage of water from Willow Creek Reservoir and the utilization of said water. The permits were last granted an extension to October 1, 1973.

I am concerned what the present status of the permits are at this stage and am hereby requesting you to give me that information. If it would be appropriate to extend these permits again, then please feel free to do so or if they have been completed to the amount intended in view of the leakage conditions of the reservoir, then we could go to survey at this time and issue a certificate to the amount of beneficial use you have been able to obtain.

Please let us know at your earliest convenience what your wishes on these permits will be.

Sincerely,

Bruce A. Estes, Supervisor

Erenos' Mens Store
433 North Broadway
Burns, Oregon 97720

Gentlemen:

I do not understand why the fee of \$10.00 was submitted apparently in connection with your permits numbered R-5084 and 32934. When you submitted an application for extension of time to complete the project under the two permits some time ago, you did pay the necessary fee. I wrote regarding this on September 8, 1972, and advised you that the time limits would be extended until October 1, 1973, and no fees are due on this presently.

The permits are valid until this date when, by their terms, the reservoir must be completed and filled and use of water under the terms of the secondary permit for irrigating must be completed.

I am refunding the \$10.00 submitted with our enclosed check numbered 4920.

Very truly yours,

Trevor Jones
Assistant

File No. 43921

Gentlemen:

Pursuant to your request I am enclosing a form for use in making application for an extension of time limits under permit No. R-5084 and permit No. 32934.

Please be advised that the State Engineer is permitted by law to extend the time for completion of a project only upon a showing of due diligence by the permittee. Therefore, you should execute the application carefully and completely so that this office may determine from your sworn statement whether due diligence has been shown.

The application must be executed before a notary public and submitted to this office with the statutory filing fee in the amount of \$5.00 for each permit.

Upon receipt of the application, the matter of extending the time under the appropriation will be given further consideration and you will be advised of our action.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Enclosure
Form 115

December 15, 1970

R-43085
43921

Erenos' Mens Store Incorporated
433 North Broadway
Burns, Oregon 97720

Gentlemen:

This will acknowledge your application for an extension of the time limit to complete construction of the reservoir under permit R-5084 and the fee of \$5.00 for which our receipt, number 21753, is enclosed.

You can request an extension of time for as many years as you wish but because the approval of the applications are dependent on the progress that is made, we normally only extend the time limits one year at a time. Such an action does not preclude the possibility of making another application for further extensions of the time limits.

The time limit to complete construction of the reservoir under permit R-5084 will be extended until October 1, 1971. This is the date for completion of the irrigation of the lands under the secondary permit 32934. It probably will be necessary next October to request additional time under permit R-5084 and also under permit 32934 to complete the use of water and whether or not such an application could be approved will depend on what you succeed in doing towards sealing the reservoir next spring or summer.

Very truly yours,

TREVOR JONES
Assistant

TJ:mfb

Enclosure 1

STATE OF OREGON

INTEROFFICE MEMO

TO: Appl. R-43085 & 43921

DATE: June 11, 1969

FROM: Chris Wheeler

SUBJECT: Examination of Jess Ereno Willow Creek Reservoir

Under his recent permit covering use of water from Willow Creek and Willow Creek Reservoir, they were examined this date accompanied by Jess Ereno, Al Petska of my office, Al Leonard from the USGS and Merle Clark, watermaster, and Jim Hanley, private engineer for Mr. Ereno. The possibility of placing a grout curtain in the order of 40 feet deep under his diversion dam for the purpose of bringing any water which might be flowing beneath the surface in the stream to the surface was discussed.

Mr. Leonard advised that while some water would undoubtedly be brought to the surface, he doubted it would be any significant amount or anywhere near the quantity necessary for the irrigation of 300 acres. He thought that while the grout curtain might be established, it would probably force most of the water into the rock structure surrounding the area of the stream channel, rather than bringing it to the surface and that in all probability water moving downstream from the higher elevation was passing through either in the fault zone or a relatively broad area significantly larger than could be reached with a grout cutoff wall. In his opinion the basic rock structure would be quite permeable and support ground water movement; and that the probability of obtaining water through a deep well up to 400 feet would be appreciably more likely. He suggested that it be placed somewhere in the head of the valley in the order of half way between the ranch house and the diversion dam.

We subsequently examined the damsite and Mr. Leonard confirmed Mr. Petska's and my previous opinion that a grout curtain might shut off portions of water leaking through the immediate left abutment. It is doubtful if this would cut off anywhere near all of the leakage. My comment was that it would be probably less than 40% of the leakage involved and the primary loss of water would be from the reservoir basin prior to reaching the dam., and should it be cut off there would still be a difficult problem delivering it down through the channel to the proposed area of use.

Dear Mr. Hanley:

This is to advise you that the permits have been issued for the Ereno Reservoir and that you may initiate construction at your convenience. Since this project is over the statutory limits, it will be necessary that construction be supervised by a registered professional engineer. Since you were the design engineer, we will assume that you will be the engineer responsible to supervise the construction in accordance with the approved plans and specifications.

Your attention is called to specification, page 3, sub-heading 6, Changed Condition or Location, last sentence, "However, no change in the plans or specifications shall be made without prior written approval of the State Engineer." To facilitate obtaining this approval with a minimum of delay, engineers from this office will be available to work with you and to give immediate approval.

Dear Mr. Hanley:

This is to confirm our telephone conversation of October 12, 1967 regarding the J. Ereno Reservoir. As we discussed, there was some doubt as to the accuracy of the depiction of the contour labeled 108, and you indicated you had merely projected this elevation based on a level survey of Contour 100 and the lower contours.

As Mr. Wheeler indicated, it will be necessary that this contour be tied down by an actual survey, either hand level and tape or transit, et cetera. Upon your submission of plans showing the exact and true configuration of Contour 108, we will again consider this project for our approval by issuance of State Engineer's permit.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Gentlemen:

This will acknowledge receipt of your application for a permit to appropriate 7.5 cubic feet of water per second being 90% from Erenos' Willow Creek Reservoir, and 10% from Willow Creek for the irrigation of 299.71 acres, a map, and the fee of \$41.50 for which our receipt No. 5485 is enclosed. This application has been filed and numbered 43921.

Item No. 1 on this application must include the reservoir as a source of appropriation.

Item No. 2 on the application should indicate the quantity of water to be appropriate from Willow Creek in cubic feet of water per second and the quantity from the reservoir in acre feet.

The location of the reservoir must be shown on the application map to a scale of not less than four inches equal to one mile. The forty lines as well as the section lines should be shown to determine in which quarter-quarter section, the reservoir is located.

I am returning application No. 43921 and the map for completion. The application is endorsed so that in order to retain its date of priority, it must be returned on or before October 30, 1967.

We have been withholding action on application No. R-43085 pending the receipt of plans and specifications for the reservoir. Would you please advise as to the progress being made toward completing these plans and when we might expect to receive them.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Sirs;

Enclosed is the application of Erenos' Mens Store Inc.
to appropriate the waters of Willow Creek mostly by storage, together
with map and fees.

James D. Hanley informed me that the reservoir application
would be in your office at his earliest convenience.

Very truly yours

Re: File Number R-43085

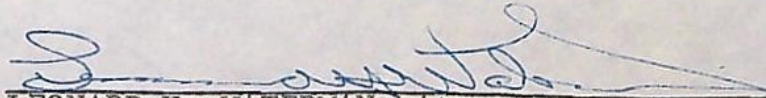

Dear Sir:-

Under date of April 12th, 1967, you returned to me the application for a permit to construct a reservoir, and to store for beneficial use the unappropriated waters of the State of Oregon as applied for by Charles and J.M. Ereno. Such application was stamped received December 2nd, 1966, and you advised in your letter of April 12th, that we had until June 12th, 1967 to return such application.

Mr. Clarence Young who has been employed to assist J.D. Hanley has gotten samples, drilled test holes, and started cutoff trenches and is to further help prepare the necessary maps and elevation schedules, and prepare all other papers in connection with this application. It will further be required that there be a certain application filed to appropriate the public waters of the State of Oregon. It is not quite certain as to whether or not we will be able to get all of this done by June 12th, 1967, and we may need additional time before filing a further application with you. Mr. J.D. Hanley and his crew started actual work on Monday, May 22nd, 1967, and we will be filing our applications for right to construct and also to appropriate water as fast as possible.

There is one error in the application for permit to construct in that the location of the proposed reservoir is listed as being W $\frac{1}{2}$ Section 25, Township 23, S. Range 29 E.W.M., but in truth and in fact it will be in the W $\frac{1}{2}$ Section 13, Township 23 S. Range 29 E.W.M, Harney County, Oregon. Please advise if we need to return the present stamped application for a further extension or whether it can be handled by letter.

Sincerely yours,

LEONARD H. WATERMAN, Attorney for
Charles and J.M. Ereno

Dear Mr. Wheeler:

We hereby authorize the cancelation of that part of Application No. R-43085, Permit No. R-5084 and Application No. 43921, Permit No. 32934 which define a right for storage and use of 250 acre feet of water from Ereno's Willow Creek Reservoir and Willow Creek for irrigation, so that the State of Oregon by and through its Game Commission may apply for the same 250 acre feet for fishery and recreational purposes to be in the first 250 acre feet capacity of said reservoir above the irrigation outlet.

Very truly yours,
